# UVODNIK

Za proleće se kaže da je kraljica godišnjih doba. Na proleće, priroda je lepa i šarmantna kao nevesta. Napolju nije ni vruće ni hladno. Vreme je prijatno prohladno. Drveće se kiti novim lišćem, a u poljima, baštama, šumama i svemu drugome javljaju se pupoljci novog života. To nam proleće donosi sveži mladi život. Priroda prosipa pred nama neograničenu raznolikost i njena lepota se manifestuje u hiljadu različitih oblika. Kako je samo lepo posmatrati cveće: ružu, ljiljan, marjeticu, narcis, zumbul i neven! Kakav je to praznik za oči! Kako opojno mirišu i kako su nežni na dodir ovi cvetovi.

Raznolika povorka boja i njihovo trostruko dejstvo na čula vida, mirisa i dodira izazivaju u nama pravo zadovoljstvo. Kapi rose se na zelenoj travi blistaju poput bisera. Zelenkade koje njišu svojim glavama u veselom plesu, sunce koje prosipa svoje zlato po snežnim vrhovima planina, zvezde koje sijaju kao roj zlatnih pčela, nežni povetarac koji pirka, i zvonka pesma ptica samo su neke od prekrasnih slika iz ovog godišnjeg doba.

Pesnici kao što su Vordsvort, Šeli, Bajron, Kits i Kalidasa duguju svoju inspiraciju upravo proleću. U proleće je Kits našao lepotu, a Šeli ljubav. Šekspir je pronašao jezike na drvetu, propovedi u kamenju, knjige u potocima i dobro u svemu. Lepote proleća ne samo da gode očima, raduju naša srca i pročišćavaju naše duše, već imaju i duhovnu poruku. Imaju obrazovnu vrednost.

Osim toga, lepote proleća su izvor mnogih pouka – pouka o lepoti, istini, strpljenju i toleranciji. Na proleće, zabrinuti čovek pronalazi mir, onaj koji traga za istinom je i pronalazi, filozof pronalazi svoju filozofiju, ljubitelj lepote lepotu, pesnik inspiraciju, a slikar potstrek.

Proleće je simbol života. Ono svuda donosi bogatstvo i raskoš. Vazduh i zemlja se ispunjavaju novim životom, dajući nam nove nade i težnje. Pogled na planinu nije ništa manje lep na proleće. Štaviše, tamo možemo videti prirodu u pravom svetlu.

*Živelo proleće kako bi nas i dalje oduševljavalo, inspirisalo i podučavalo!*

# EDITORIAL

Spring is called the Queen of seasons. In spring, Nature is as beautiful and charming as a bride. It is neither hot nor cold. The weather is delightfully cool. Trees put on new leaves. There are signs of new life in the fields, gardens, forests and in everything. Spring brings us fresh life. Nature presents to us a great variety and manifests her beauty in a thousand shapes. How delightful it is to observe the flowers; the rose, the lily, the daisy, the narcissus, the hyacinth and the marigold! What a feast for the eyes! How fragrant to smell and how delicate to touch.

The varied pageant of their colours, their three-fold appeal to the senses of sight, smell, and touch transport us with pleasure. Dew drops on the green grass look like pearls. The daffodils tossing their heads in sprightly dance, the sun pouring its gold on the snowclad peaks of mountains, stars shining like a swarm of golden bees, gentle winds blowing, and the sweet songs of birds are some of the beautiful pictures of the Spring season.

Poets like Wordsworth, Shelley, Byron, Keats and Kalidas owed their inspiration to spring. Keats found beauty and Shelley found love in spring. Shakespeare found tongues in trees, sermons in stones, books in brooks and good in everything. Beauties of spring, not only feast our eyes, gladden our hearts and purify our souls, but they have also a spiritual message. They have an educative value.

Besides this, beauties of spring teach us many morals- beauty, truth, patience and forbearance. In spring, a worried man finds peace; a seeker after truth finds truth; a philosopher, philosophy, a lover of beauty, beauty; a poet, inspiration, and a painter, stimulus.

Spring is the symbol of life. It brings richness and rashness everywhere. The air and the earth are filled with new life, giving us new hopes and aspirations. The sight of mountain isn't less beautiful. There we can see the nature in its true colour.

*Long live 'Spring' to delight, inspire and teach us!*

# OSNOVNA ŠKOLA "KRALJ MILUTIN", GRAČANICA

**K**ad god se pomene Gračanica, najpre se pomisli na manastir Gračanicu, koju je 1321. sagradio kralj Milutin, po kojem ova osnovna škola danas nosi ime. Osnovna škola "Kralj Milutin" iz Gračanice jedna je od najstarijih na prostorima Kosova, a prošle, 2017. godine, škola je obeležila 257 godina

g. Vladimir Milkić

postojanja. Broji oko 700 učenika, a pored matične škole u Gračanici ima i isturena odeljenja u obližnjem selu, Kišnici. Nastavu u izdvojenom odeljenju u Kišnici pohađa ukupno 25 učenika.

Prema rečima direktora ove škole Vladimira Milkića, Osnovna škola "Kralj Milutin" je iznedrila silne generacije, među kojima su eminentni stručnjaci, doktori, inženjeri, profesori, i iz godine u godinu u potpunosti ispunjava ciljeve obrazovanja i vaspitanja. "Ipak ne želim da kažem da smo najbolja škola, jer uvek može bolje. Trudimo se budemo bolji, iako smo do sada dobili sve one nagrade koje nesumnjivo govore o kvalitetu obrazovanja, koji se odvija u ovoj ustanovi", ističe Milkić.

Važno je pomenuti da škola ima veliki broj talentovanih učenika i da

godinama osvajaju prestižne nagrade na različitim takmičenjima, kako u literarnom stvaralaštvu, tako i u recitacijama. Jedna od najstarijih sekcija u O.Š. "Kralj Milutin" je svakako literarna sekcija. Nastavnici srpskog jezika uz talentovane učenike redovno vrše selekciju različitih radova koji kasnije bivaju predstavljeni na različitim priredbama. Ono po čemu je škola poznata je zbornik pod nazivom "Dan šapće moje ime", sa petlom na naslovnoj strani, koji simboliše jutro sa nekom veću, a zapravo predstavlja skup najboljih literarnih i

likovnih radova učenika, nastalih tokom jedne školske godine. "Ova sekcija, kao i ostale koje postoje u našoj školi, funkcioniše u improvizovanim uslovima, ali to nikad nije pokolebalo ni učenike, ni nastavnike da istraju u svojim namerama i nastave da aktivno rade unutar sekcije", objašnjava direktor Vladimir Milkić.

U razgovoru sa njim, saznajemo i da matična škola u Gračanici ima 14 učionica, fiskulturnu salu sa svlačionicom, kabinete za informatiku i versku nastavu, biblioteku, atelje, medijateku, kuhinju i trezariju, dve kancelarije i zbornicu, kao i lepo uređeno školsko dvorište i sportske terene na otvorenom prostoru. Ipak najveći problem sa kojim se suočavaju je nedostatak prostora, jer u matičnoj

školi rade i tri srednje škole: Medicinska škola, Građevinsko-saobraćajna škola i Muzička škola "Stevan Mokranjac".

U školi je aktivan Đački parlament, koji čine učenici sedmog i osmog razreda, i to po dva predstavnika svakog odeljenja. U osnovnoj školi "Kralj Milutin" postoji i vršnjački tim koji, između ostalog ima zadatak da učestvuje u organizaciju raznih školskih akcija.

Direktor Osnovne škole "Kralj Milutin" Vladimir Milkić, pozeleo je redakciji Magazina For You i svim našim čitaocima srećan 15-ti rođendan, istakavši da ovaj list ne čitaju samo deca, već i odrasli. Na kraju razgovora, on je naglasio da je ponosan na svoje kolege i učenike ove škole, jer, kako kaže oni na najpozitivniji način utiču i na njega i njegov rad.

Poručuje da je od svih obrazovanja, najbitnije ono koja deca dobiju u osnovnoj školi, jer zahvaljujući kvalitetnom osnovnom obrazovanju, oni postaju poštovani i stabilni nosioci svake zajednice i društva, ali pre svega dobri ljudi.

## Upitnik

### DA LI IMATE NADIMAK? KAKO STE GA DOBILI?

#### Milica Petković (14)

Imam nadimak i dobila sam ga odavno. Zovu me Petka, zato što se prezivam Petković. Nadimak sam dobila u trećem razredu, između ostalog i zbog crtanog filma Petko i Stanko. Ja baš nešto i ne volim da me tako zovu, jer mi je nadimak smešan.

#### Milica Petkovic (14)

I have a nickname and I got it a long time ago. They call me Petka, because my last name is Petkovic. I got the nickname in the third grade, among other things, because of the cartoon Petko and Stanko. I do not really like to be called that, because it is funny.

#### Filip Trajković (15)

Imam dosta nadimaka, ali me najviše zovu Trajko, pošto se prezivam Trajković, pa je nadimak skraćena verzija mog prezimena. Što se ostalih nadimaka tiče, ne bih da vam ih otkrivam, jer mi se ne sviđaju i ne volim ih, a dali su mi ih drugari jer vole da se šale sa mnom. Što se mene tiče, mogu da nastave da me zovu Trajko, jer me tako zovu od petog razreda.

#### Filip Trajkovic (15)

I have a lot of nicknames, but I am most often called Trajko, since my last name is Trajkovic, so the nickname is a shortened version of my surname. As for the other nicknames, I would not reveal them to you, because I do not like them, and my friends gave them to me because they like to make fun of me. As for me, they can continue to call me Trajko, because they call me that since the fifth grade.

#### Nikola Jovanović (14)

Ja imam nadimak i davno sam ga dobio. Naime mog oca zovu Centa, pa se desilo da i mene tako zovu. Volim da me tako zovu i nikada mi nije bilo neprijatno zbog toga. Moji drugari me znaju i po imenu i po nadimku, a ako bih morao da se odlučim šta mi više odgovara, ipak bih se odlučio za nadimak, jer mi se bas sviđa.

#### Nikola Jovanovic (14)

I have a nickname and I got it a long time ago. Namely, my father's nickname is Centa, so it happened that they called me that too. I like to be called that way and I've never felt embarrassed for it. My friends know me by name and by nickname, and if I had to decide what suits me better, I would still choose the nickname, because I like it very much.

# PRIMARY SCHOOL "KRALJ MILUTIN", GRACANICA

are trying to be better, although we have received all those awards that undoubtedly speak about the quality of education that is taking place in this institution," Milikic said.

It is important to note that the school has a large number of talented students and that they have been winning prestigious awards at various competitions for years, both in literary creativity and in recitals. One of the oldest sections in the Primary School "King Milutin" is certainly a literary co-curricular course. Teachers of the Serbian language with talented students regularly select a variety of works that would later be presented at various events. What the school is known for is a collection called "The Day Whispers My Name", with a rooster on the front page, symbolizing the morning with some news, and in fact represents a set of the best literary and art work of pupils, created during one school year. "This course, as well as the other ones that exist in our school, functions in improvised conditions, but it never made students or teachers doubt their determination to persist in their intentions and continue to work actively within the section," explains Director Vladimir Milikic.

School, Construction and Traffic School and Music School "Stevan Mokranjac".

The School also has an active students' parliament, which consists of students of the seventh and eighth grade, i.e. two representatives from every class. In the Primary School "Kralj Milutin" there is a peer team that, among other things, has the task to participate in the organization of various school activities.

Director of the Primary School "Kralj Milutin" Vladimir Milikic, wished the editorial staff of Magazine For You and all our readers a happy 15th birthday, emphasizing that the magazine is not read only by children, but by adults as well. At the end of the conversation, he stressed that he was proud of his colleagues and students of the school, because, as he said, they influenced him and his work in the most positive way.

He says that out of all education the most important is the one that children get in a primary school, because thanks to the primary education of good quality, they become respected and stable pillars of every community and society, but above all – they become good people.

**W**henever Gracanica is mentioned, the first thought is about the Gracanica Monastery, built by King Milutin in 1321, after whom the elementary school is named today. The Primary School "Kralj Milutin" in Gracanica is one of the oldest in the territory of Kosovo, and last year, 2017, the school marked 257 years of existence. It has about 700 students, and besides the main Primary School in Gracanica, the school also has a branch in the nearby village of Kisnica. A total of 25 pupils attend classes in the branch in Kisnica.

According to the director of this school, Vladimir Milikic, the Primary School "Kralj Milutin" has provided education to many generations, among them eminent experts, doctors, engineers, professors, and from year to year the school fully accomplishes the goals of education and upbringing. "Still, I do not want to say that we are the best school, because it can always be better. We

We found out during a conversation with him that the primary school in Gracanica has 14 classrooms, a gym with a locker room, a workshop for informatics and religious teaching, a library, an atelier, a media room, a kitchen and a dining room, two offices and a chamber, as well as a well-arranged school yard and outdoor sports grounds. However, the biggest problem they face is the lack of space, because there are three high schools in the primary school building: the Medical

## Questionnaire

**DO YOU HAVE A NICKNAME? IF YES, HOW DID YOU GET IT?**

**Luka Stanković (14)**

Nikada do sada nisam imao nadimak i voleo bih da tako i ostane. Moje ime je dosta kratko, tako da mislim da je i to jedan od razloga zbog kojeg nema potrebe da uopšte imam nadimak.

**Luka Stankovic (14)**

I never had a nickname so far and I would like it to remain so. My name is very short, so I think it's one of the reasons why I do not need to have a nickname at all.

**Ksenija Sekulić (14)**

Nemam nadimak za sada, mada su me, kad sam bila mala, zvali Naca. Taj nadimak sam dobila u porodici i tako su me uglavnom zvala braća. Nadimak su mi zapravo dali po liku iz neke tv serije koja se tada dosta gledala kod mene u kući. Sviđao mi se taj nadimak i nisam imala ništa protiv toga da me tako zovu.

**Ksenija Sekulic (14)**

I have no nickname so far, although when I was little, I was called Naca. I got this nickname in my family and my brothers mostly called me by that name. I was actually nicknamed after a character from a TV series that my family was watching a lot at that time. I liked that nickname and I did not mind them calling me that.

**Sofija Krstić (14)**

Nemam nadimak i nikada ga nisam imala, mada bih volela da imam neki. U porodici mi ponekad tepaju nadimkom Sofka, ali čim se malo naljute na mene, postajem opet Sofija. Ko zna, možda ću jednog dana i ja dobiti neki pravi nadimak, koji će mi baš odgovarati.

**Sofija Krstic (14)**

I have no nickname and I've never had it, although I would like to have one. My family sometimes sweet-talks to me by calling me Sofka, but as soon as they get a little angry with me, I become Sofija again. Who knows, maybe one day I'll get some real nickname, which will suit me very well.

# „NE OKLEVAJTE, DOĐITE I RAZGOVARAJTE S NAMA”

**K**ao što verovatno znate, bogat medijski pejzaž na Kosovu sadrži, između ostalog, tri medija Kfora, koji se nalaze u Glavnom štabu Kfora u „Filmskom gradu” u Prištini. Ova tri medija su: TV Kfor, Radio Kfor i naravno magazin For You.

Ako gledate televiziju, postoje velike šanse da ste već videli neke od televizijskih spotova koje je pripremio TV Kfor. S druge strane, Radio Kfor je radio sa najboljom muzikom u gradu, a najverovatnije ste dobili

nekoliko primeraka časopisa For You u vašoj školi. Međutim, ono što verovatno ne znate jeste činjenica da su sva ova tri medija zapravo samo delovi jedne velike porodice, porodice koja se sastoji od civilnog i vojnog osoblja iz različitih zemalja, koji rade zajedno kako bi vam obezbedili najbolje moguće medijske proizvode. Važan deo posla za postizanje ovog cilja obavljaju tri mala vojna tima iz Danske, Rumunije i Poljske čiji je posao da prethodno testiraju svaki proizvod koji

pripreme naše redakcije.

Narednik Kristofer Petersen iz danske vojske rukovodi prethodno pomenutim danskim timom. „Naš tim ima samo dva člana. Naime, to smo ja i moj vozač. Obojica smo obučeni u istom poslu, tako da smo u stanju da zamenimo jedan drugoga, u slučaju da se jedan od nas dvojice tomori, uglavnom zato što tokom jednog uobičajenog dana razgovaram sa raznim ljudi i to sa oko 15 do 50 različitih osoba na dan,” rekao je narednik Petersen. Naglasio je da radi vrlo sličan posao u Danskoj.

od naših osnovnih funkcija neophodno je da budemo u stanju da sarađujemo sa svakom osobom na svetu,” dodao je narednik Petersen.

Na pitanje koji su njegovi glavni zadaci, narednik Petersen je naglasio da svaki dan njegov tim, kao i timovi iz Rumunije i Poljske, izlazi na teren, ide od grada do grada, upoznaje ljude, razgovara sa njima o medijskim proizvodima Kfora, dobija mišljenja o njima i pokušava da osigura da svi proizvodi, a posebno televizijski snimci, dostignu takav nivo da svima budu dovoljno zanimljivi. S druge strane, ovo je njemu i njegovim kolegama omogućilo vrlo zanimljiv uvid vezano za ljude na Kosovu, njihove misli i ideje. Tako je narednik Petersen uveren da su mladi na Kosovu vrlo bistri, pametni i veoma voljni i željni da razgovaraju sa njima. Što je još važnije, uvek dolaze sa dobrim idejama i predlozima kako poboljšati proizvode koji im se predstavljaju.

Na kraju je narednik Petersen naglasio: „Iznenaden sam koliko dobro mladi na Kosovu govore engleski, nemački i druge jezike. Zadovoljstvo je biti svedok ovakvoj činjenici. Stoga, pošto je moj posao vezan za saradnju, komunikaciju i jezik, moja poruka mladima na Kosovu bi bila sledeća: nastavite sa učenjem, saradnjom i dobrim razgovorima sa svim ljudima koji žive na Kosovu i šire. Takođe, ako ikada vidite danskog vojnika kako šeta sa tablet računarom u rukama, molim vas da ne oklevate, već priđite i razgovarajte sa nama. Veoma želimo da saznamo koje ideje vi imate za naše proizvode.”

# “DON'T HESITATE, COME AND TALK TO US”

**A**s you probably know, the rich media landscape in Kosovo contains, among others, three KFOR media, which are based at HQ KFOR in Film City, Prishtina. These three media are: TV KFOR, Radio KFOR and of course For You Magazine.

If you watch TV the chances are you have already seen some of the TV spots prepared by TV

KFOR. On the other hand, Radio KFOR is the radio with the best music in town, and most probably you have received some copies of the For You Magazine at your school. What you probably don't know, however, is that all these three media are in fact only sections of one big family. A family that is comprised of both civilian and military personnel

from various countries, working all together and cooperating to bring the best possible media products to you. An important part of the work to reach this goal is done by three small military teams from Denmark, Romania and Poland whose job is to pretest all the products that are prepared by our sections.

Sergeant Christoffer Petersen, from the Danish army, is in charge of the aforementioned Danish team. "We are two members in our team, namely me and my driver. Both of us are trained in the same line of work so we are able to stand in for each other if one gets tired, mainly because during a normal day I can get to speak with all kinds of people ranging from 15 – 50 different people per day,". He went emphasizing that he does very similar work back home in Denmark. "In Denmark I am part of something called the Information Activity Company. It is a unit that specializes in talking with all kinds of people that we can get in contact with. To try to figure out what are the most popular trends and stories at the moment. Currently all my team members are Danish, and they are actually from the same company in Denmark. But of course we are able to work together with all kinds of nationalities. Seeing as one of our core functions is cooperation it is necessary to be able to cooperate with every single person in the world."

Sgt. Petersen added.

When asked what his main tasks are, Sgt. Petersen emphasized that everyday his team, as well as those from Romania and Poland go out in the field from town to town, meeting people, talking to them about the KFOR Media products, getting firsthand opinions about them, and trying to make sure that all the products, TV clips in particular, reach a level that is interesting enough for everybody. This on the other hand has allowed him and his other colleagues to get a very interesting insight about the people in Kosovo, their thoughts and ideas. As a result Sgt. Petersen is convinced that the youth of Kosovo are very bright and smart and very happy and eager to talk to them. More importantly, they always come with good ideas and proposals on how to improve the products that are presented to them.

In the end Sgt. Petersen stressed: "I am amazed at how good the youth in Kosovo are in speaking English, German and other languages. It is a delight to witness this fact. Therefore, as my work is about cooperation, communication and language my message to the youth of Kosovo would have to be: keep studying, cooperating and having good conversations with all people living in Kosovo and beyond. Also, if you ever see a Danish soldier walking around with a tablet on his hands, please don't hesitate, come and talk to us. We are very eager to learn of any ideas you have for our products."

# DREJK

**D**rejk (Drake) je kanadski reper, pevač i tekstopisac, koji ima reputaciju jednog od najboljih repera u poslednje vreme. Karijeru je započeo kao glumac u kanadskoj televizijskoj seriji „Degrassi: The Next Generation“, ali je ubrzo prešao na muziku, koja je bila njegova strast još od detinjstva. Započeo je svoje muzičko putovanje sa nekoliko kompozicija koje je sam objavio. Kako je dobijao na popularnosti, objavio je kraći album pod nazivom „So far Gone“. Kasnije je objavio četiri studijska albuma: „Thank me later“, „Take Care“, „Nothing was the same“ i „Views“. Njegove pesme su obeležene egoističnim stihovima, i često se bave njegovim ličnim iskustvima i odnosima sa ženama. Drejka, koji je imao drugačije detinjstvo od većine drugih repera afričkoameričkog porekla, iritira to što ideja da odrastanje u komšiluku sa oružjem i drogom čini njegove vršnjake više „pravim reperima“ nego što je to on. Kako kaže, problemi sa kojima se on suočavao nisu bili manje zastrašujući, ali bi voleo da ga ljudi prepoznaju po njegovoj muzici, a ne po načinu na koji je odrastao.

## Detinjstvo i rani život

- Obri Drejk Grejam (Aubrey Drake Graham) rođen je 24. oktobra 1986. godine u Torontu, u Kanadi. Njegov otac, Denis Grejam, radio je kao bubnjar za legendarnog muzičara, Džerija Li Luisa, a njegova majka, Sendi Grejam, bila je profesor engleskog jezika i cvečarka.
- Njegovi roditelji su se razveli kada je imao

pet godina, nakon čega ga je odgajila majka u Torontu. Njegov otac se preselio u Ameriku, u Memfis, gde ga je Drejk povremeno posećivao.

- Rano detinjstvo je proveo blizu puta Weston Road u gradskoj četvrti u kojoj je živela radnička klasa. Nakon što je završio šesti razred, njegova porodica se preselila u Forest Hill, bogatiji deo grada. Drejk, koji je pohađao institut „Forest Hill Collegiate Institute“ i akademiju „Vaughan Road Academy“ za srednju školu, kasnije je napustio školu i završio srednju školu 2012. godine.

## Rana glumačka karijera

- Drejk je 2001. godine počeo da glumi pošto mu je otac jednog od njegovih prijatelja, menadžer za glumce, ponudio ulogu u kanadskoj tinejdžerskoj seriji „Degrassi: The Next Generation“. Igrao je ulogu Džimija Bruksa, bivšeg košarkaša u

invalidskim kolicima, u ukupno 145 epizoda.

- Glumio je u nizu drugih televizijskih serija tokom više godina, uključujući „Soul Food“, „Being Erica“ i „Sophie“, a takođe je nastupao kao gost u „Beyond the Break“, „Saturday Night Live“ i „Punk'd“. Pozajmio je glas u dugometražanom crtanom filmu „Ice Age: Continental Drift“.

## Ljubavni život

• Drejk je romantično povezivan sa brojnim ženama iz industrije zabave. Međutim, on je najpoznatiji po svojoj povremenoj vezi sa barbadoskom pevačicom Rijanom. Upoznali su se 2005. godine, nakon čega se on zaljubio u nju. Kasnije su se zbližili i sarađivali nekoliko puta. Međutim, očigledno su raskinuli nakon što je Rijana obnovila svoju vezu sa Krisom Braunom (Chris Brown).

- U junu 2012., Drejk se pobio sa Krisom Braunom, navodno zbog Rijane. Braun ga je okrivio za tuču preko društvenih mreža i objavio pesmu u kojoj ga kritikuje. Igram slučaja, njih dvojica su zajedno nastupali u skeču na dodeli ESPI nagrada za 2014. godinu, nagoveštavajući tako da je među njima došlo do pomirenja.

## Muzička karijera

- Nakon što je postao poznati glumac, odlučio je da objavi svoj album prvenac „Room for Improvement“. Sledeće godine objavio je naredni album „Comeback Season“, u kojoj je i singl „Replacement Girl“ zbog koje je prvi put dobio opšte priznanje kao pevač.

- Svoju treću kompoziciju, „So Far Gone“, objavio je kao besplatnu verziju za očitavanje sa veb stranice njegove izdavačke kuće. Sastoji se od pesama kao što su

„Best I Ever Had“ i „Successful“, sa Lil Vejnom (Lil Wayne), Trejem Songzom (Trey Songz) i Lojdom (Lloyd), i između ostalog, postigla je veliki komercijalni uspeh.

- Njegov studijski album prvenac, „Thank Me Later“, objavljen je 15. juna 2010. godine. Na albumu, koji je u poslednje dve godine bio u produkciji, pojavljuju se Niki Minaj (Nicky Minaj), Lil Vejn (Lil Wayne) i Kanje Vest (Kanye West). Singl „Find Your Love“ ušao je u top-10 na muzičkoj listi „Billboard Hot 100“.
- Svoj drugi studio album „Take Care“ je objavio 15. novembra

2011. Album je sadržao hitove kao što su „Make Me Proud“ sa Niki Minaj i „Take Care“ sa Rijanom (Rihanna). Dobio je svoj prvi Gremi (Grammy Award) upravo za ovaj album.

- Svojim trećim albumom „Nothing was the same“ (2013), nastavio je putovanje do slave, dobijajući pozitivne kritike kao što su i prethodni albumi dobijali. To je bio njegov prvi kompletan album koji je objavio sa svojom izdavačkom kućom OVO Sound.
- Objavio je svoj četvrti studio album „Views“ 29. aprila 2016. Ovaj album sadrži pet singlova, uključujući numeru koja je osvojila Gremi – „Hotline Bling“, zatim „Pop stile“ sa Kanjeom Vest i Džej Zijem i „Too Good“ sa Rijanom. Nedavno, 18. marta 2017. godine, objavio je listu pesama pod naslovom „More Life“.

## Nagrade i dostignuća

- Drejk je do sada dobio 3 Gremi nagrade, od 35 nominacija. Njegov album „Take Care“ je proglašen najboljim rep albumom u 2013. godini, a njegova pesma „Hotline Bling“ je osvojila dve nagrade 2017. godine. Osvojio je ukupno 80 nagrada i 330 nominacija tokom godina.

## Trivijalnosti

- Drejk često pominje da ga je njegov otac upoznao sa rep muzikom.

# DRAKE

**D**rake is a Canadian rapper, singer and songwriter, who has emerged as one of the best rappers in recent times. He started his career as an actor in the Canadian TV series 'Degraasi: The Next Generation', but soon switched to music, which has been his passion since childhood. He began his musical journey with a number of self-released mixtapes. As he gained popularity, he released an EP titled 'So

*Far Gone*. He later went on to release four studio albums, 'Thank Me Later', 'Take Care', 'Nothing Was the Same' and 'Views'. His songs are marked by his egotistical lyrics, often dealing with his personal experiences and relationships with women. Drake, who had a different childhood than most other rappers of African-American origin, feels irritated at the notion that growing up in a neighbourhood with guns and drugs makes his peers more "official". According to him, his struggles were no less daunting, but he would prefer that people know him by his music, and not his upbringing.

## Childhood & Early Life

- Aubrey Drake Graham was born on October 24th, 1986, in Toronto, Canada. His father, Dennis Graham, worked as a drummer for legendary musician, Jerry Lee Lewis, and his mother, Sandi Graham, was an English teacher and a florist.
- His parents divorced when he was five years old, following which he was raised by his mother in Toronto. His father moved back

to America and settled in Memphis, where Drake visited him occasionally.

- He spent his early childhood near Weston Road in the city's working-class neighbourhood. After his 6th grade, his family moved to Forest Hill, a more affluent neighbourhood in the city. Drake, who attended 'Forest Hill Collegiate Institute' and 'Vaughan Road Academy' for high school, later dropped out of school and completed his high school diploma in 2012.

## Early Acting Career

- In 2001, Drake started acting after the father of one of his friends, an acting agent, offered him a role in the Canadian teen drama series 'Degraasi: The Next Generation'. He played the role of Jimmy Brooks, a wheel-chair bound

former basketball player, for a total of 145 episodes.

- He has acted in a number of other television series over the years, including 'Soul Food', 'Being Erica' and 'Sophie', and also made guest appearances on 'Beyond the Break', 'Saturday Night Live' and 'Punk'd'. He did voice acting for the film 'Ice Age: Continental Drift'.

## Love Life

• Drake has been romantically linked with a number of women from the entertainment industry. However, he is most known for his on-and-off relationship with the Barbadian singer Rihanna. They first met in 2005, following which he had a crush on her. They later became close and worked together a number of times. However, they apparently broke up after Rihanna rekindled her relationship with Chris Brown.

• In June 2012, he got involved in a fight with Chris Brown, reportedly over Rihanna. Brown blamed him on social media and released a song criticizing him. Incidentally, the two later performed together in a comedic skit at the 2014 ESPY Awards, hinting at reconciliation.

## Music Career

• Following his acting fame, he decided to self-release his debut mixtape, 'Room for Improvement'. He followed it with another mixtape the next year, 'Comeback Season', which contained the single 'Replacement Girl' that earned him widespread recognition as a singer for the first time.

- He released his third mixtape 'So Far Gone' as a free download from the website of his record label. It consisted of tracks like 'Best I Ever Had' and 'Successful', featuring Lil Wayne, Trey Songz, and Lloyd among others, and became a commercial success.

• His debut studio album, 'Thank Me Later', was released on June 15th, 2010. The album, which was under production for the past two years, featured artists like Nicki Minaj, Lil Wayne, and Kanye West. The single 'Find Your Love' reached top-10 on the 'Billboard Hot 100'.

'Take Care'. The album contained hit singles like 'Make Me Proud' featuring Nicki Minaj and 'Take Care' featuring Rihanna. He received his first Grammy Award for the album.

- His third album, 'Nothing was the same' (2013), continued his journey to fame, opening to positive reviews like its predecessors. It was his first full-length album that was released from his own record label, OVO Sound.
- He released his fourth studio album 'Views' on April 29th, 2016. It contained five singles including the Grammy winning track 'Hotline Bling', 'Pop Style' featuring Kanye West and Jay Z, and 'Too Good' featuring Rihanna. Recently, he released a playlist titled 'More Life' on March 18th, 2017.

## Awards & Achievements

• Till date, Drake has received 3 Grammy Awards from 35 nominations. His album 'Take Care' was named 'Best Rap Album' in 2013, while his song 'Hotline Bling' won two awards in 2017. He has won a total of 80 awards from 330 nominations over the years.

## Trivia

Drake often credits his father for introducing him to rap.

- On November 15th, 2011, he released his second studio album

# MEĐUNARODNI DAN SVESTI O MINAMA I POMOĆI U PROTIVMINSKIM AKCIJAMA 2018. – OBRAZOVANJE O RIZIKU OD MINA

**K**ao što svi znamo, još uvijek postoje područja na Kosovu gde se mogu pronaći eksplozivni ostaci rata (EOR). Pošto su po prirodi eksplozivni, pa samim tim i veoma opasni, ljudi moraju biti obavešteni o njihovom prisustvu i upućeni u to kako da se ponašaju kada ih opaze. Odgovorne institucije na Kosovu ulažu napore na podizanju svesti i podučavanju ljudi o opasnostima koje eksplozivna sredstva predstavljaju. Ovaj napor naziva se **Obrazovanje o riziku od mina (ORM)** i deo je većeg koncepta koji su razvile Ujedinjene nacije pod nazivom „**Akcija protiv mina**”. Vezano za to, imali smo zadovoljstvo da razgovaramo sa g. Ciprijan Andricom, rukovodiocem za pretnje koje predstavljaju eksplozivna sredstva u Glavnom štabu Kfora.

**Koliko je ozbiljna pretnja od eksplozivnih sredstava na Kosovu uopšte?**

Kosovo se trenutno suočava sa preostalim rizikom u pogledu prisustva mina i drugih eksplozivnih ostataka rata. To znači da je većina eksplozivnih naprava masovno uklonjena iz naseljenih područja (kuća, stanova, dvorišta, puteva, itd.) u periodu od 2000-2002. godine. Danas se smrtonosne naprave mogu naći u udaljenim područjima, na planinama, u šumama itd. Međutim, njihovo prisustvo u naseljenim područjima ne može se u potpunosti isključiti. Na primer, na Kosovu nema dana, a da se ne pronađe neka eksplozivna naprava i da je ne neutrališe neka od službi za hitne slučajeve.

**#TOGETHER  
AGAINST  
MINES**

**Kako deca mogu prepoznati tipične ostatke sukoba?**

Uopšteno govoreći, svaki objekat koja se ne uklapa u normalnu, rutinsku i mirnu sliku o životnoj sredini mora biti tretirana pažljivo. Praktično, svaki predmet koji izgleda kao da ne pripada mestu na kom se nalazi treba smatrati opasnim i ne sme se dotaknuti. Nisu sve stvari koje su na zemlji ili vire nje igračke! A ovde se posebno obraćam dečacima! Budite pažljivi; ove smrtonosne naprave najviše ugrožavaju dečake.

**Šta treba učiniti u hitnim slučajevima?**

Ovo je moj savet: ne dodirujte tu stvar, ne pokušavajte da vidite šta je to! Ovo je prvo pravilo. Ako ste u grupi, obavestite druge o mogućoj pretnji, pokušajte da obeležite ili ogradite to mesto i ne dozvolite nikome da se približi na manje od 50 metara. Zatim, morate da obavestite ili pozovete najbližeg policajca ili kancelariju Kosovske policije (KP) ili nazovete **192** ili **112**. Ovo je drugo i najvažnije pravilo koje treba pratiti. Kada KP bude obavestena, poziva se Podrška za uklanjanje eksplozivnih sredstava, poznatih kao EOD (Explosive Ordinance Disposal), i njih će obezbediti specijalizovane jedinice KBS, KP ili Kfora. U slučaju nesreće, hitna pomoć će stići i ako pozovete policiju.

**Koja eksplozivna sredstva predstavljaju najveći rizik?**

Eksplozivi nikada nisu bezbedni, svi oni rade iste stvari – ubijaju i sakate – bez obzira da li su to mine ili neeksplodirani, napušteni

ili postavljeni eksplozivni uređaji.

**Koja su upozorenja i znaci kojima se obeležavaju minirane površine?**

Područja koja su zagađena eksplozivnim uređajima, takozvana minirana područja treba ograđivati i obeležiti vidljivim znacima. Nažalost, ne živimo u idealnom svetu, pa tako ni sva opasna područja nisu ograđena i vidno obeležena. Međutim, ljudi koji žive u blizini tih područja su upoznati sa pretnjom i mogu vam reći da li je bezbedno ići baš u tu prelepu šumu ili ne... Najčešći znakovi koji se koriste na Kosovu za signaliziranje pretnje su crveni trouglovi vertikalno orijentisani na dole sa natpisom „Mine” ili „Opasnost od mina” na albanskom ili srpskom, pa čak i na engleskom jeziku. Takođe, žuta traka sa istim rečima crvene boje može označavati granicu opasnog područja. Međutim, univerzalno crveno-bele trake treba poštovati jer one uvek označavaju granicu opasne/rizične oblasti.

**Koja je uloga različitih institucija: KP, KBS i Kfora, a tiče se mina?**

Kfor je u bliskoj saradnji sa međunarodnim prisustvom uspeo da izgradi kapacitete za deminiranje i EOD u okviru KBS-a. U isto vreme, Kfor je aktivan deo kosovskog EOD sistema odgovora. To znači da ako pozovete policiju na **192** ili **112** i obavestite ih o mogućem eksplozivnom sredstvu, ili Policijski odred za uklanjanje bombi, KSF i/ili EOD jedinice Kfora će reagovati na taj poziv. U praksi će prvo KP sa svojim lokalnim ili oficirima, koji su u blizini, obezbediti lokaciju, a zatim Policijski odred za uklanjanje bombi može intervenisati. Ako je sumnjivi predmet eksplozivni ostatak rata, onda EOD KBS rešava incident. EOD Kfora je spreman da podrži oba.

**Koja je vaša poruka našim mladim čitaocima?**

Naši mladi čitaoci su oni koji brinu i koji su promišljeni. Oni su ti koji ne rizikuju kada su u pitanju mine i drugi eksplozivni ostaci rata. Dakle, samo nemojte da ih dodirujete i pozovite **192** ili **112**. Obavestite i druge o tome, jer vam je stalo do njih.

# INTERNATIONAL DAY of MINE AWARENESS and ASSISTANCE in MINE ACTION 2018 - MINE RISK EDUCATION

**A**s we all know, there are still areas in Kosovo where Explosive Remnants of War (ERW) can be found. Being explosive in nature, therefore very dangerous, people need to be made aware on their presence and how to behave when seeing them. The responsible institutions in Kosovo are making efforts on raising the awareness and teaching people on explosive hazards. This effort is called Mine Risk Education (MRE) and is part of a bigger concept developed by the United Nations called "Mine Action". In relation to this issue we had the pleasure of talking to Mr. Ciprian ANDRICA, Explosive Threat Manager at KFOR HQ.

**How serious is the threat of explosive hazards in Kosovo in general?**

Currently Kosovo is facing a residual risk in what concerns the presence of mines and other ERW. It means that the most of explosive devices from inhabited areas (houses, apartments, courtyards, roads, etc.) have been massively removed in 2000-2002. Nowadays, the deadly devices can be found in remote areas, on mountains, in woods, etc. However, their presence in inhabited areas cannot be excluded. Just as an example, there is not one single day in Kosovo in which an explosive device is not found and neutralized by emergency response agencies.

**How can children recognize**

**commonly found remnants of conflict?**

Generally speaking, any item that does not fit within a normal, routine and peaceful environmental picture must be treated with care. Practically any item that does not normally appear to belong to that place should be considered as a dangerous one and must not be touched. Not all the things laying on or raising from the ground are toys! And here I am addressing the boys! Please be careful; by far, the boys have been the most affected ones by the deadly devices.

**What should they do in an emergency?**

This is my advice: Do not touch the thing; do not try to see what that is! This is the first rule. If you're in a group, make the others aware on the suspected threat, try to mark or block the place and do not allow anyone to come closer than minimum 50 meters. Then you have to inform or call the nearest Kosovo Police (KP) officer or office or call **192** or **112**. This is the second and the most important rule to be followed. Once KP is informed, the Explosive Ordnance Disposal support known as EOD will be requested and provided by specialized units from KSF, KP or KFOR. In case of an accident, the ambulance will also arrive if you call the Police.

**What explosive hazards pose the greatest risk?**

Explosives are never safe, all of them do the same things; they kill and mutilate, no matter if they are mines or unexploded, abandoned or placed explosive devices.

**What are the warning clues and signs for mined areas?**

Ideally the areas contaminated with explosive devices, the so-called mined areas should be fenced and marked with visible signs. Unfortunately we are not living in an ideal world; therefore not all the dangerous areas are fenced and visibly marked. However, the

people neighboring the areas are aware of an explosive threat and they may tell you if it is safe or not to go in that specific beautiful forest... The most common signs used in Kosovo for signaling the threat are the red triangles vertically down oriented having inscribed

"Mines" or "Danger of Mines" in Albanian or Serbian or even in English. Also the yellow tape with the same words in red may mark the limit of a dangerous area. However, the universal red-white tape is to be treated with respect, it always marks a dangerous/hazardous area limit.

**What is the role of various institutions: KP, KSF, and KFOR in relation to mines?**

KFOR, in close cooperation with the international presence succeeded to build demining and EOD response capabilities within the KSF. In the same time KFOR is an active part of the Kosovo EOD response system. It means that if you call the Police at **192** or **112** and inform them about a possible explosive device, either the Police Bomb Squad, KSF and/or KFOR EOD units will react to that call. Practically KP with their local or proximity officers will secure the site, the Police Bomb Squad may intervene. If the suspected item is an explosive remnant of war, then KSF EOD will resolve the incident. KFOR EOD is ready to and supports both of them.

**What is your message to our young readers?**

Our young readers are the ones that care and always act smart. They are the ones that do not take any risk when it comes to mines and other explosive remnants of war. So, just do not touch them and call **192** or **112**. Let the others know, because you care.

# NAJBOLJIH 10 FUDBALERA NA KOJE TREBA OBRAVITI PAŽNJU NA SVETSKOM KUPU 2018.

**K**ako je Svetski kup FIFA gotovo na pragu, mnogi igrači će pokušati da svoja imena upišu u istoriju. Imajući u vidu verovatnoću sa kojom će njihove reprezentacije stići daleko na takmičenju i na taj način pomoći pojedincima da iskažu svoje kvalitete, sledi deset najboljih fudbalera na koje treba obratiti pažnju na Svetskom prvenstvu 2018. godine:

## 10 – Timo Verner (Nemačka):

Timo Verner ima samo 22 godine, ali je već dokazao svoju vrednost time što je nemačku reprezentaciju doveo do trijumfa na Kupu konfederacije u junu 2017. godine. Možda je to znak onoga što bi se moglo desiti ove godine, jer će Verner sigurno biti u trci za još jednu Zlatnu kopačku.

## 10 - Timo Werner (Germany):

Timo Werner might only be 22-years old, but he has already proved his worth by guiding Germany's national team to Confederations Cup triumph in June 2017. Perhaps, a sign of what could happen this year, as Werner will be looking to challenge for another Golden Boot award.

## 9 – Paulo Dibala (Argentina):

Paulo Dibala je tako neverovatno dobar, da je lako zaboraviti na činjenicu da ima samo 24 godine i puno prostora za razvoj. Argentinskoj reprezentaciji je očajno potreban novi heroj koji bi se pojavio iznenada i niokuda kako bi im pomogao da se izvuku iz jednog stanja u kom se trenutno nalaze. Da li će to biti Dibala kada dođe Rusija 2018?

## 9 - Paulo Dybala (Argentina):

Paulo Dybala is so ridiculously good, that it is so easy to forget the fact that he is only 24-years old and still has a lot of room for development. Argentina's national team is in desperate need for a new hero to emerge out of the blue and help them get out of their current miserable state. Will Dybala be their man, come Russia 2018?

## 8 - Kilijan Mbape (Francuska):

Kilijan Mbape je prošle sezone postigao 6 golova u ligi UEFA Lige šampiona, zbog čega je AS Monaco po prvi put od 2004. godine stigao do polufinala. On je savremeni napadač koji je sposoban ne samo da postigne golove, već i izvuče igru iz gotovo nemoguće situacije, a očekuje se da će ove godine 'zapaliti' Rusiju!

## 8 - Kylian Mbappé (France):

Kylian Mbappé scored 6 goals in the UEFA Champions League last season, to guide AS Monaco to the semi-finals of the edition, for the first time since 2004. He is the modern-day striker who is capable of not only scoring goals, but also rescuing games from dead situations, and will be expected to light Russia up this year!

## 7 - Gabrijel Hesus (Brazil):

Teško je zamisliti da je neki drugi mladić toliko ključan za svoju zemlju, koliko je to Gabrijel Hesus za Brazil. Već je postigao 7 golova i obezbedio 3 asistencije u samo 10 utakmica za FK Seleccion. Njegov idol je bivši brazilski napadač Ronaldo, i ostaje da se vidi da li će i on, baš kao njegov uzor, ući u istoriju.

## 7 - Gabriel Jesus (Brazil):

It is hard to think of any other youngster who is as crucial for his country-side, as Gabriel Jesus is to Brazil. He has already scored 7 goals and provided 3 assists in just 10 games for the Seleção. His idol is former Brazilian striker Ronaldo, and it remains to be seen if he will go down in history just like his role model.

7

## 6 - Luis Suarez (Urugvaj):

Urugvaj je uspeo da u poslednjih nekoliko godina povрати malo svoje stare slave, a vrhunac je titula Copa America osvojena na argentinskom tlu 2011. godine. Klub La Celesta bez sumnje za ovaj uspeh puno duguje briljantnosti jednog i jedinog Luisa Suareza, i uvek mogu da računaju na to da će Luisita postići važan gol.

## 6 - Luis Suárez (Uruguay):

Uruguay have managed to retrieve a bit of their glorious past, in the last couple of years, the pinnacle being the Copa América title on Argentinian soil, in 2011. A lot of La Celeste's success was without any doubt, thanks to the brilliance of the one and only Luis Suárez, and they can always count Luisito to score the all-important goal.

# TOP 10 PLAYERS TO LOOK OUT FOR IN THE 2018 FIFA WORLD CUP

**W**ith FIFA World Cup almost at our doorstep, many players will be seeking to write their names in the history books. Keeping in mind the likelihood of their national teams going far in the competition, and as a result, helping individual quality express itself, here are the top

10 players to look out for in the 2018 World Cup:

## 5 - Kristijano Ronaldo (Portugal):

Kristijano Ronaldo je osvojio sve moguće kupove na nivou kluba. U leto 2016. godine Portugalac je doveo svoju naciju do prve velike titulu u svojoj istoriji, nakon što je osvojio Eurokup. Nakon što je pomogao Portugalu da stigne do vrha svoje kvalifikacione grupe, sve oči će biti uprte u ikonu Real Madrida čekajući da zasija na najvećoj svetskoj fudbalskoj sceni.

5

## 5 - Cristiano Ronaldo (Portugal):

Cristiano Ronaldo has won all the possible cups at club level. In the summer of 2016, the Portuguese was able to guide his nation to the first major title in its history, upon claiming the Euro Cup. After helping Portugal top their qualifying group all eyes will be set on the Real Madrid icon to deliver on the world's biggest footballing stage.

## 4 - Isko (Španija):

„Crvena Furija“ je jedan od favorita na sledećem Svetskom prvenstvu u Moskvi. Ali čovek

koji se posebno ističe je

Francisko Roman Alarcon Suarez (Isko). Do sada je bilo spektakularno gledati ga, ne samo dok je igrao za Real Madrid, već i za Španiju. Nema sumnje da će upravo on biti njihov tehnički lider u Rusiji.

4

## 3 - Toni Kros (Nemačka)

Toni Kros je osvojio sve, kako na nivou kluba tako i u međunarodnom fudbalu. Na sledeće svetsko prvenstvo ide kao arhitekta sredine terena u Nemačkoj. Krosa su mnogi smatrali za najboljeg igrača na Svetskom prvenstvu 2014. godine, pošto je bio najvažniji čovek na srednjem delu terena za Nemačku i bez njega možda čak ne bi ni došli do finala.

## 3 - Toni Kroos (Germany):

Toni Kroos has won it all, at both club level and international football. He is heading for the next World Cup as Germany's midfield architect. Kroos was regarded by many as the best player in the 2014 World Cup, as he was the most important man in Germany's midfield and without him, they may not have even reached the final.

3

## 2 - Neymar (Brazil):

Posle postavljanja Tite za selektora reprezentacije, Brazil je učvrstio svoju poziciju najjače strane u Južnoj Americi, a Neymar je bez sumnje zvezda ove privlačne brazilske strane. Nažalost, ozbiljna povreda njegovog stopala i prateća operacija dovele su u sumnju učešće jedne od najvećih zvezda fudbala danas.

## 2 - Neymar (Brazil):

Following the appointment of Tite, Brazil have cemented themselves as the strongest side in South America, and

Neymar is, without any doubt, the star of this eye-catching Brazil side. Unfortunately, Neymar's serious injury to his foot and subsequent operation has put into doubt the participation of one of the greatest stars of football today.

2

## 1 - Lionel Mesi (Argentina):

Lajonel Mesi se dokazao sa FK Barselonom svaki put iznova. Njegov trofejni ormar govori sam za sebe. Međutim, ono što zvezdi Barke još uvek nedostaje je veliko dostignuće sa prvim timom Argen-

## 4 - Isco (Spain):

Furia Roja is one of the favorites to conquer the next World Cup in Moscow. But one man, who stands out in specific, is Francisco Román Alarcón Suárez (Isco). He has been spectacular to watch, not just for Real Madrid, but also with Spain. There is not much doubt that he will be their technical leader in Russia.

tine. Međutim, Mesi će sada biti motivisan više nego ikada, pošto će Rusija 2018 skoro sigurno biti njegova poslednja šansa da osvoji Svetsko prvenstvo.

## 1 - Lionel Messi (Argentina):

Lionel Messi has proved himself with FC Barcelona times and times again. His trophy cabinet speaks for itself. However, what the Barça star is still missing is a major achievement with Argentina's first team. Messi will be motivated more than ever though, as Russia 2018 will almost certainly be his last chance to win the World Cup.

# KOJI SMARTFON JE BOLJI. ANDROID ILI AJFON?

*Kada je u pitanju kupovina jednog od najboljih pametnih telefona, prvi izbor može biti najteži: Ajfon ili Android. Nije jednostavno; oba nude*

*puno odličnih karakteristika i mogu izgledati u osnovi isto, osim brenda i cene. Međutim, bliži prikaz pokazuje da postoje neke ključne razlike. Pročitajte više da bi saznali neke od razlika koje vam mogu pomoći da odlučite da li je Ajfon ili*

*Android smartfon prava stvar za vas.*

## Hardver: Izbor vs. Uglancano

Hardver je prvo mesto na kome razlike između Ajfona i Androida postaju jasne. Samo kompanija Epl (Apple) pravi Ajfon, tako da ima veoma strogu kontrolu nad time kako softver i hardver rade zajedno. S druge strane, Google nudi Android softver mnogim proizvođačima telefona, uključujući Samsung, HTC, LG i Motorolu. Zbog toga se Android telefoni razlikuju po veličini, težini, karakteristikama i kvalitetu. Vrhunski Android telefoni imaju tendenciju da budu dobri kao i Ajfon u pogledu kvaliteta hardvera, ali su jeftiniji Android telefoni skloniji problemima. Naravno Ajfon telefoni mogu imati problema sa hardverom, ali su uglavnom kvalitetniji.

## Kompatibilnost OS: Igra čekanja

Da biste bili sigurni da uvek imate najnoviju i najbolju verziju operativnog sistema (OS) na svom pametnom telefonu, onda morate nabaviti Ajfon. To je zato što neki proizvođači Androida sporo ažuriraju svoje telefone na najnoviju verziju Android OS-a, a ponekad i ne ažuriraju svoje telefone. Iako se očekuje da će stariji telefoni na kraju izgubiti podršku za najnoviji operativni sistem, Eplova podrška za starije telefone je generalno bolja od Androida.

## Hardware: Choice vs. Polish

Hardware is the first place where the differences between the iPhone and Android become clear. Only Apple makes iPhones, so it has extremely tight control over how the software and hardware work together. On the other hand, Google offers the Android software to many phone makers, including Samsung, HTC, LG, and Motorola. Because of that, Android phones vary widely in size, weight, features, and quality. Premium-priced Android phones tend to be as good as the iPhone in terms of hardware quality, but cheaper Android options are more prone to problems. Of course iPhones can have hardware issues, too, but they're generally higher quality.

## OS Compatibility: A Waiting Game

To make sure you always have the latest and greatest version of your smartphone operating system, you have to get an iPhone. That's because some Android makers are slow at updating their phones to the latest version of the Android OS version, and sometimes don't update their phones at all. While it's to be expected that older phones will eventually lose support for the latest OS, Apple's support for older phones is generally better than Android's.

teškoće u razvoju aplikacija za toliko različitih modela telefona.

## Apps: Selection vs. Control

The Apple App Store offers fewer apps than Google Play, but overall selection isn't the most important factor. Apple is famously strict about what apps it allows, while Google's standards for Android are lax. While Apple's control may seem too tight, it also prevents situations like the one where a fake version of WhatsApp was published on Google Play and downloaded by 1 million people before it was removed. That's a major potential security threat. Beyond that, some developers have complained about the difficulty of developing for so many different phones.

## Aplikacije: Izbor vs. Kontrola

Eplov "App Store" nudi manje aplikacija od Google Play-a, ali opšti izbor nije najvažniji faktor. Epl je famozno striktan oko aplikacija koje dozvoljava, dok su Google standardi za Android labavi. Iako je kontrola od strane Epla možda preterana, ona takođe sprečava situacije kao što je lažna verzija WhatsApp aplikacije objavljene na Google Play-u i preuzete od milion ljudi pre nego što je uklonjena. To je velika potencijalna sigurnosna pretnja. Osim toga, neki programeri su se žalili na

## Integracija sa drugim uređajima: Garancija kontinuiteta

Većina ljudi koristi tablet, računar ili dodatnu prenosivu opremu pored pametnog telefona. Za te ljude Epl nudi konzistentnije i integrisanije iskustvo. Pošto Epl proizvodi računare, tablete i satove zajedno sa Ajfonom, on nudi stvari koje Android ne može. Eplove funkcije kontinuiteta omogućavaju vam da otključate svoj Mac računar korišćenjem Apple Watch-a, počnete pisati mejl na vašem Ajfonu dok hodate i isti završite na svom Mac-u kod kuće, ili da svi vaši uređaji primaju bilo koji poziv koji dolazi na vaš Ajfon.

## IS ANDROID OR IPHONE THE BETTER SMARTPHONE?

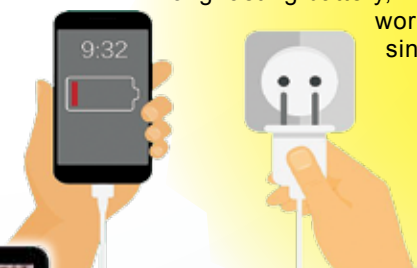

*When it comes to buying one of the best smartphones, the first choice can be the hardest: iPhone or Android. It's not simple; both offer a lot of great features and they may seem basically the same other than brand and price. However, a closer look shows that there are some key differences. Read on for a closer look at some of these differences to help you decide whether an iPhone or Android smartphone is right for you.*

### Trajanje baterije: Dosledno poboljšanje

Raniji modeli Ajfona su zahtevali punjenje svojih baterija svakog dana. Noviji modeli mogu trajati nekoliko dana bez napajanja, mada nove verzije operativnog sistema skraćuju trajanje baterije sve dok se ne optimizuju u kasnijim izdanjima. Stanje baterije je složeno s Androidom zbog velikog izbora hardvera. Neki Android modeli imaju ekrane od 7 inča i druge funkcije koje troše mnogo više energije. Ali, zahvaljujući velikom broju Android modela, postoje i neki modeli koji nude baterije izuzetno visokog kapaciteta. Ako vam ne smeta dodatni teret i stvarno vam treba dugotrajna baterija, Android može da isporuči uređaj koji radi mnogo duže od Ajfona pri jednom punjenju.

### Battery Life: Consistent Improvement

Early iPhones needed to recharge their batteries every day. More recent models can go days without a charge, though new versions of the operating system tend to cut battery life until they're optimized in later releases. The battery situation is more complex with Android, due to the large variety of hardware options. Some Android models have 7-inch screens and other features which burn through much more battery life. But, thanks to the wide variety of Android models, there are also some that offer ultra-high capacity batteries. If you don't mind the extra bulk, and really need a long-lasting battery, Android can deliver a device that works much longer than an iPhone on a single charge.

### Integration with Other Devices: Continuity Guaranteed

Most people use a tablet, computer, or wearable in addition to their smartphone. For those people, Apple offers a more consistent and integrated experience. Because Apple makes computers, tablets, and watches along with the iPhone, it offers things that Android can't. Apple's Continuity features let you unlock your Mac using an Apple Watch, start writing an email on your iPhone while you're walking and finish it on your Mac at home, or have all of your devices receive any call coming into your iPhone.

(Source: <https://www.lifewire.com>)

### Sigurnost: Nema govora o tome

Ako vam je stalo do sigurnosti vašeg pametnog telefona, postoji samo jedan izbor: Ajfon. Razlozi za to su brojni pređugi da bi u potpunosti stali ovde. Ukratko, razmotrite ove dve činjenice: U jednoj studiji 97% svih malvera, virusa, crva itd. bilo je za Android. U toj istoj studiji, 0% njih je napalo Ajfon.

### Security: No Question About It

If you care about the security of your smartphone, there's only one choice: iPhone. The reasons for this are myriad and too long to completely go into here. For the short version, consider these two facts: In one study, 97% of all malware, viruses, worms, etc., were for Android. In that study, 0% attacked the iPhone.

### GPS navigacija: Besplatne pobede za sve

Dok god imate pristup internetu i pametnom telefonu, nikad se ne morate izgubiti zahvaljujući ugrađenim GPS aplikacijama i mapama na Ajfon i Android uređaju. Obe platforme podržavaju nezavisne GPS aplikacije koje mogu dati vozačima uputstva od skretanja do skretanja. Eplove Mape su ekskluzivne za iOS i dok je ova aplikacija imala neke poznate probleme kada je debitovala, stalno se poboljšava. To je jaka alternativa za Google mape za mnoge korisnike. Čak i ako ne želite da probate "Apple Maps", "Google Maps" aplikacija je dostupna na obe platforme, tako da je iskustvo približno identično.

### GPS Navigation: Free Wins For Everyone

As long as you've got access to the internet and a smartphone, you never have to get lost again thanks to the built-in GPS and maps apps on both the iPhone and Android. Both platforms support third-party GPS apps that can give drivers turn-by-turn directions. Apple Maps is exclusive to iOS, and while that app had some famous problems when it debuted, it's getting steadily better all the time. It's a strong alternative to Google Maps for many users. Even if you don't want to try Apple Maps, Google Maps is available on both platforms, so the experience is roughly identical.

prostornog planiranja (MSPP) organizovalo je određen broj aktivnosti. U tom smislu, gospodin Besmir Kokolari (Besmir Kokollari), koji je zadužen za obrazovanje i podizanje svesti o ekologiji u okviru ovog ministarstva, je rekao: Naše ministarstvo je započelo aktivnosti na obeležavanju ovog ekološkog datuma pod globalnim motom - Priroda za vodu. Danas smo naše aktivnosti započeli deljenjem promotivnog materijala na Trgu "Skenderbeg" u Prištini i na Glavnim trgu u Gnjilanu. Iako su zbog loših vremenskih uslova neke aktivnosti morale biti otkazane, dan je nastavljen okruglim stolom stručnjaka iz ove oblasti, profesora i studenata Univerziteta u Prištini i drugih relevantnih partnera. "Svrha ove debate bila je da se obezbedi platforma za stručnjake iz ove oblasti gde mogu da razmotre izazove u prirodi i razgovaraju o tome šta više može da se učini za vodu, posebno na području Gnjilana," dodao je gospodin Kokollari.

Sa druge strane, Doruntina Aliu, Albina Halili, Lis Kotorri i Blerina Ibrahim, svi studenti ekologije i zašтите životne sredine na Univerzitetu u Prištini, istakli su da je voda važna za zemlju, isto kao što je krv važna za ljudsko telo, zbog čega je, prema njihovim rečima, obaveza čitavog društva da sačuva izvore sveže vode i da štedi vodu.

## "PRIRODA ZA VODU"

**VODA** – taj magični napitak koji predstavlja

izvor svih oblika života na Zemlji. Nijedna živa vrsta nije u stanju da preživi bez nje. Zbog toga bez ikakve sumnje možemo reći da voda određuje budućnost života na našoj planeti. S obzirom na njen značaj i činjenicu da su resursi sveže vode ograničeni, Ujedinjene nacije su 1993. godine proglasile 22. mart za "Svetski dan voda". Ovaj datum se obeležava na različite načine širom sveta, ali svuda sa istim ciljem - zalaganje za održivo upravljanje resursima sveže vode.

U čast 22. marta, Ministarstvo životne sredine i

### 5 praktičnih saveta za uštedu vode!

1. Ne puštajte vodu da teče dok perete zube – na taj način uštedećete čak do **šest (6)** litara vode u minuti.
2. Prilikom tuširanja se potroši između **šest (6)** i **četrdeset pet (45)** litara vode u minuti. Zato, tuširajte se kratko, a

vodu isključite dok sapunjate telo.

3. Podsetite članove porodice da peru veš ili sudove tek kada je mašina za veš ili za pranje posuđa puna.

4. Podsetite članove porodice da poprave slavine koje cure. Zbog slavine koja curi nepotrebno ćete potrošiti **petnaest (15)** litara vode dnevno, ili **pet i po hiljada (5.500)** litara vode godišnje.

5. Napunite flašu vodom i stavite je u frižider. Tako nećete morati da puštate vodu da iz slavine curi dok ne naiđe hladna zbog jedne čaše hladne vode.

Ne zaboravite da ćete štednjom vode smanjiti i račune za vodu, što će zauzvrat smanjiti i ukupne porodične troškove. A takođe ćete i direktno doprineti zaštiti životne sredine tako što ćete doprineti smanjenju količine otpadnih voda koje se ispuštaju u reke i jezera.

### Povod za razmišljanje!!!

Ako vas ovo nije ubedilo da štedite vodu, onda razmislite o tome na sledeći način: Kada biste se našli u situaciji da morate sa sobom da nosite kofe ili flaše pune vode kroz pustinju, da li biste dozvolili da izgubite jednu kap vode? Da li biste dopustili bilo kome da bez potrebe prospe vodu koju ste morali da nosite kilometrima?

Prisutnost vode na zemlji, omogućila je rađanje života na ovoj planeti. Bez vode, ne možemo zamisliti život; voda je najdragoceniji element na ovom svetu.

planet. Considering its importance and the fact that fresh water resources are limited, since 1993 the United Nations have designated March 22nd as the "World Water Day". This day is observed and celebrated in various ways all over the world. However, they all have the same goal – advocating a sustainable management of fresh water resources.

the Ministry of Environment and Spatial Planning (MESP) has organized several activities. In relation to this, Mr. Besmir Kokollari, officer for environment education and awareness at the MESP, said: Our ministry has commenced the activities to mark this environmental holiday under the world wide motto – Nature for Water. Today, we started the activities with the dissemination of promo materials in "Skënderbeu" Square in Prishtina and the Main Square in Gjilan." Although, due to the bad weather conditions some activities had to be cancelled, the day was continued with a round table of experts of this field, professors and students of Prishtina University, and other relevant partners. "The purpose of this table was to provide a platform for the experts where they can assess the challenges of the nature and discuss what more we can do for water, in particular in Gjilani area." Mr. Kokallari added further. On the other hand Doruntina Aliu, Albina Halili, Lis Kotorri and Blerina Ibrahim, all studying for Ecology and Environment Protection at the University of Prishtina, compared the importance of water to earth with the importance of blood to the human body. Which is why, according to them it is an obligation of the entire society to preserve fresh water sources and to save water.

## "NATURE for WATER"

that is the source of all life forms on earth. No living species can survive without it. Therefore, without a doubt we may say that water defines the future life in our

In honor of this day, on March 22nd,

### 5 practical tips on how to save water!

1. Don't let water run while you brush your teeth – this way you will save up to **six (6)** liters of water per minute.
2. When you shower, you use from **six (6)** up to **forty-five (45)** liters of water per minute. Therefore, take short showers, and turn the water off while soaping up your body.
3. Remind your family members to only wash full loads of dishes or clothes.
4. Remind your family to

fix any leaks in your faucets. A leaking faucet may waste up to **fifteen (15)** liters of water per day, or five thousand **five hundred (5.500)** liters of water per year.

5. Fill up a bottle of water and keep it in your refrigerator. This way, you won't have to let the water run to get a glass of cold water.

Don't forget that by saving water, you will help reduce the water bills, which in turn will result in reducing family expenses. You will also contribute directly in protecting the environment. Because by doing so you will help reduce the amount of black water that is returned to rivers and lakes.

### Food for thought!!!

If you are still not convinced to save water, then look at it this way: If you have to carry your water in bottles or buckets for a mile or more, would you let a single drop of it to be wasted? Would you permit someone else spill for no reason the water you have carried for a mile?

The availability of water on earth has blessed this planet with life. Without water, we cannot imagine life; it is the most precious element in this world.

## NESEBIČNOST PRIJATELJSKE LJUBAVI

**Lj**ubav i prijateljstvo su nešto što je prisutno u svačijem životu. Dok čovek živi, on oseća potrebu da bude voljen, da ima prijatelja sa kojim može sve da deli, jer bez ljubavi i prijateljstva, njegov život bi bio prazan i potpuno bezvredan.

Ljubav je jedina stvar na svetu koju ne treba objašnjavati, niti tražiti razloge za njeno postojanje. Ona se jednostavno desi, promeni čoveka, ispunji njegov život učini ga boljim. I prijateljstvo je ljubav. Ako si nekome potreban, ako ti ne zamera ništa što kažeš ili učiniš i ako mu sve tvoje postaje važno, znaj da te voli i da želi biti tvoj prijatelj.

Ako čovek želi da ima prijatelja, on mora da ga voli i da veruje u njega, jer bez ljubavi i poverenja nema iskrenog prijateljstva. Jedini način da neko ima prijatelje jeste

da i sam bude nekom prijatelj. Prijateljstvo zavisi isključivo od nas samih, jer svako za prijatelja bira osobu najbližnju sebi, onoga koji voli iste stvari i isto razmišlja. U pravom iskrenom prijateljstvu nema zavisti i ljubomore, osećanja koja izazivaju bol u srcu u veliki nemir u duši.

Prijateljska ljubav je nesebična, uzajamna i nikad ne prestaje, jer prijatelj je neko ko te razume i voli te takvog kakav jesi. On svoju ljubav nosi duboko u sebi i ne dozvoljava nikome da je ugrozi.

Mnogi ljudi prolaze kroz život običnog čoveka, ali samo pravi prijatelji ostavljaju trag u njegovom srcu. Iskreno prijateljstvo je jače od svega. Ono je čvrsto i neuništivo.

Ljubav i prijateljstvo pobeđuju sve, a čovek koji ima prijatelje koje voli i koji mu ljubav uzvraćaju, oseća se lepo, srećno i zadovoljno. Imati prijatelja najlepša je stvar na svetu, jer ljubav i prijateljstvo čine čuda. Oni čoveku daju krila i pokreću ga. Bez ljubavi i prijateljstva, život ne bi imao nikakvog smisla.

## ZABORAVLJENI

Kuda idu zaboravljeni,  
da li nas još uvek pamte?  
Ili su kao i mi,  
poželeli da krenu dalje?

Daleko noćima odlazimo..  
Svoje zaboravljene da potražimo.  
Da ih nađemo i zagrlimo.  
I nikada, nikada ne pustimo.

Prokleti da su naši zaboravljeni,  
sećamo ih se, sećamo.  
Misli premećemo, dok svojim senkama  
Njima mira ne damo.

I dok se tužno, bedno i očajno  
nadamo jedni drugima.  
Zaboravljamo da vreme nikoga ne  
čeka....

## UNSELFISHNESS OF FRIENDLY LOVE

Love and friendship are present in everyone's life. While a person lives, she/he feels the need to be loved, to have a friend with whom they can share everything, because without love and friendship, their life would be empty and completely worthless.

Love is the only thing in the world that one does not need to explain, nor look for reasons for its existence. It just happens; it changes a person, fulfills their life and makes them better. And, friendship is love. If you are needed by someone, if they do not mind anything you say or do, and if everything about you becomes important to them, know that he loves you and wants to be your friend.

If one wants to have a friend, one must love and believe in her/him, because there is no sincere friendship without love and trust. The only way for one to have friends is to be a friend herself/himself. Friendship

depends solely on us, because everyone chooses to have as friends the persons most similar to themselves; those who like the same things and think in the same way. In a true, sincere friendship there is no envy and jealousy, or feelings that cause pain in the heart and great discomfort in the soul.

Love of a friend is selfless, reciprocal and never ends, because a friend is someone who understands you and loves you as you are. He carries his love deep inside himself and does not allow anyone to jeopardize it.

Many people go through life as ordinary people, but only true friends leave a trace in their heart. A true friendship is stronger than anything. It is steady and indestructible.

Love and friendship win everything and a man who has friends he loves and who return his love, feels nice, happy and satisfied. Having a friend is the most beautiful thing in the world, because love and friendship make wonders. They give a man wings and move him. Without love and friendship, life would make no sense.

## The Forgotten

Where do the forgotten go,  
do they remember us still?  
Or they like us, just so,  
Wanted to move on?

In nights we go far ...  
To look for our forgotten ones.  
To find them and hug them.  
And never, never let go.

Damned be our forgotten ones,  
We remember them, we remember.  
Our thoughts race, while our shadows  
Give them no peace.

And while sadly, miserably and desperatly  
We hope to see each other,  
We forget that time waits for no one...
