Uvodnik

Nakon jednog od najtoplijih leta koje smo doživeli poslednjih godina, došlo je vreme da se vratimo u školu. Osim predškolaca i nekih prvaka vi ste već "prošli kroz to". Dakle, ovo nije potpuno novo iskustvo. Međutim, nova je školska godina i uvek možete da izgradite i poboljšate svoja ranija iskustva da biste postigli maksimalne rezultate. Naravno, svi imate svoj način da se pripremite za sledeću godinu, ali u daljem tekstu ćete naći korisnu listu stvari koje možete da uradite da biste se najbolje pripremili za svoju novu avanturu.

Postavite jasne ciljeve: Definišite konkretne obrazovne i lične ciljeve za godinu. To može uključivati postizanje određenih ocena, popravljanje u određenim predmetima, pridruživanje vannastavnim aktivnostima ili razvijanje ličnih veština.

Pripremite prostor za učenje: Uredite čist i organizovan prostor za učenje kod kuće u kome nema ometanja i koji je pogodan za učenje. Ako imate posvećeno mesto za učenje to će pomoći u fokusiranju i produktivnosti.

Napravite raspored učenja: Napravite dnevni ili nedeljni raspored učenja koji omogućava uravnoteženu raspodelu vremena između školskih, vannastavnih aktivnosti i ličnog vremena. Pridržavajte se rasporeda što je više moguće.

Pregledajte prošlogodišnje gradivo: Odvojite malo vremena da pregledate ključne koncepte iz prethodne godine. Ovo će vam pomoći da izgradite čvrstu osnovu za nove teme i predmete.

Planirajte unapred: Nabavite kopiju nastavnog plana ili programa za svaki predmet, ako je dostupan, i označite važne datume kao što su testovi, rokovi projekta i događaji. Ovo će vam pomoći da ostanete organizovani i da efikasno planirate svoje vreme.

Pratite ciljeve: Vodite dnevnik ili koristite aplikaciju da pratite svoj napredak ka svojim školskim i ličnim ciljevima. Redovno razmatrajte i prilagodavajte svoje strategije na osnovu vašeg napretka.

Pratite organizovanje vremena: Naučite efikasne tehnike organizovanja vremena kako biste uravnotežili školu, vannastavne i lične aktivnosti. Izbegavajte odlaganje i odredite prioritete zadataka na osnovu rokova i važnosti.

Pridružite se klubovima ili organizacijama: Razmislite o pridruživanju klubovima, organizacijama ili sportskim timovima koji su u skladu sa vašim interesovanjima. To je odličan način da steknete nove prijatelje i unapredite svoje veštine.

Budite zdravi: Održavajte uravnoteženu ishranu, redovno vežbajte i obezbedite dovoljno sna svake noći. Zdravo telo i um su neophodni za akademski uspeh.

Budite informisani: Budite u toku sa svim promenama ili važnim najavama školske uprave. Redovno proveravajte školske mejlove ili veb stranice.

Pratite brigu o sebi: Pravite pauze kada je to potrebno, bavite se hobijima ili aktivnostima u kojima uživate i vežbajte tehnike meditacije ili opuštanja da biste upravljali stresom.

Budite pozitivni: Pristupite novoj godini sa pozitivnim stavom. Verujte u sebe, ostanite optimistični i zapamtite da je svaki izazov prilika za razvoj.

Na kraju, zapamtite da je od suštinskog značaja da ostanete fleksibilni i spremni za prilagodavanja tokom cele godine. Snažan početak sa dobro organizovanim planom usmerić vas na put ka uspehu. Želimo vam puno sreće!

Leonora

Editorial

After what turned out to be one of the hottest summers we have experienced in recent years, the time has come to go back to school. Except, for preschoolers and some of first graders you have already "been there done that". So, this is not a completely new experience. However, it is a new academic year, and you can always build and improve on your past experiences to get the maximum results. Of course, you all have your way of preparing for the year ahead, but below you will find a useful list of things you can do to best prepare for your new adventure.

Set Clear Goals: Define specific academic and personal goals for the year. This could include achieving certain grades, improving in specific subjects, joining extracurricular activities, or developing personal skills.

Prep Your Study Space: Set up a clean and organized study space at home that is free from distractions and conducive to learning. Having a dedicated area to study will help focus and productivity.

Create a Study Schedule: Develop a daily or weekly study schedule that allows for balanced time allocation between academics, extracurricular activities, and personal time. Stick to the schedule as much as possible.

Review Last Year's Material: Take some time to review the key concepts from the previous year. This will help you build a solid foundation for new topics and subjects.

Plan Ahead: Get a copy of the syllabus or course outline for each subject, if available, and mark important dates such as exams, project deadlines, and events. This will help you stay organized and plan your time effectively.

Set Up a Goal Tracker: Keep a journal or use an

app to track your progress toward your academic and personal goals. Regularly review and adjust your strategies based on your progress.

Practice Time Management: Learn effective time management techniques to balance school, extracurriculars, and personal life. Avoid procrastination and prioritize tasks based on deadlines and importance.

Join Clubs or Organizations: Consider joining clubs, organizations, or sports teams that align with your interests. It's a great way to make new friends and enhance your skills.

Stay Healthy: Maintain a balanced diet, get regular exercise, and ensure you have enough sleep each night. A healthy body and mind are essential for academic success.

Stay Informed: Keep yourself updated with any changes or important announcements from the school administration. Check school emails or websites regularly.

Practice Self-Care: Take breaks when needed, engage in hobbies or activities you enjoy, and practice mindfulness or relaxation techniques to manage stress.

Be Positive: Approach the new year with a positive attitude. Believe in yourself, stay optimistic, and remember that every challenge is an opportunity for growth.

Finally, remember, it's essential to stay flexible and open to adjustments throughout the year. Having a strong start with a well-organized plan will set you on the path to success. We wish you good luck!

GABRIJELA RODIĆ *STVORIMO SVET U KOME VLADA POZITIVNA ENERGIJA!*

U ovom septembarskom izdanju Magazina 4You upoznajemo vas sa 12-godišnjom Gabrijelom Rodić iz Janjeva. Već na prvi pogled ova devojčica nas je osvojila svojom energijom, talentom i ambicijama. Iako živi u malom mestu, odlučna je da svojim zalaganjem i talentom napravi velike promene u svom životu i jednog dana postane sve što želi.

"Najviše volim časove engleskog i gimnastiku. Engleski jezik mi omogućava da se povežem sa ljudima širom sveta i da razumem druge kulture. Sanjam da jednog dana postanem profesorica", kazala nam je Gabrijela na početku razgovora. Ali to nije sve - jer ona ima još talenata! Pored gimnastike i engleskog jezika, Gabrijela je i prava zvezda kada je reč o muzici. Njeno prelepo pevanje osvaja srca mnogih u Janjevu i okolini. Njena porodica kaže da je muzika oduvek bila njen izlaz u teškim trenucima i da ju je pevanje oduvek ispunjavalo radošću.

Ipak kako bi upotpunila svoj raspored i slobodno vreme, Gabrijela je odlučila da se bavi još dva sporta: stonim tenisom i fudbalom. Njena svestranost i veštine na terenu privlače pažnju njenih prijatelja i nastavnika, koji nam kažu da ne postoji ništa što Gabrijela ne može postići, onda kada se potpuno tome posveti. "Gabi

je dokaz da uz trud, upornost i podršku porodice možete postići sve što želite. Njena ljubav prema gimnastici, jeziku i sportu čini nas veoma ponosnim", kazali su nam njeni drugari iz odeljenja. "Gabrijela je pravi uzor svima u odeljenju. Njena predanost i strast prema mnogim stvarima su neverovatno inspirativne. Sigurni smo da će u budućnosti postići velike uspehe", dodao je i njen nastavnik fizičkog vaspitanja, Srđan Pantić.

Buduća profesorica engleskog jezika

Uprkos mladosti, Gabrijela ima vrlo zreo pogled na svoju budućnost. Svesna je da će put do ostvarenja njenog sna biti izazovan, ali je odlučna u svojoj nameri da jednog dana postane profesor engleskog jezika i inspiriše mlade generacije da sanjaju velike snove. U međuvremenu, poručuje da je život prepun izazova i mogućnosti i poziva svoje vršnjake na Kosovu da se bave sportom, ali i da se pravilno hrane, jer to su, prema njenim rečima ključni koraci ka ostvarivanju snova.

"Sport nam pruža ne samo zdravu fizičku aktivnost, već i mentalnu snagu i samopouzdanje. Bez obzira na to da li se odlučite za gimnastiku, stoni tenis, fudbal ili neki drugi sport, važno je da ga volite i da budete dosledni u svom treningu. Postavljanje ciljeva, rad i trud su ključ su uspeha na sportskom terenu, ali i u životu generalno. Isto tako, zdrava ishrana igra presudnu ulogu u održavanju našeg tela i uma u formi. Pokušajte jesti raznovrsnu hranu bogatu voćem, povrćem, proteinima i vlaknima. Vaše telo će vam biti zahvalno", istakla je Gabrijela.

Od nje saznajemo i da ne voli mnogo da koristi društvene mreže jer, prema njenim rečima, previše vremena provedenog na telefonima i kompjuterima može negativno uticati na zdravlje, raspoloženje i socijalne veštine. Ona zato poziva svoje vršnjake da izađu napolje, da se igraju sa prijateljima, da provode vreme u prirodi i nauče nešto novo.

GABRIJELA RODIĆ

LET'S CREATE A WORLD WHERE POSITIVE ENERGY RULES!

In this September issue of 4You Magazine, we introduce you to 12-year-old Gabriela Rodić from Janjevo. At first glance, this little girl won us over with her energy, talent and ambitions. Although she lives in a small community, she is determined to make big changes in her life with her commitment and talent and one day become everything she wants.

Gabriela tvrdi da je svet je pun mogućnosti koje čekaju da se ostvare. Kaže nam da se ne plaši da sanja velike snove i da ide za svojim ciljevima. "Uvek se setite da je najvažnije da verujete u sebe, da budete istrajni i da ne odustajete od svojih ciljeva, bez obzira koliko puta se suočili sa preprekama. Vaša snaga i trud će vas voditi ka uspehu. Hajde da zajedno stvaramo svet u kojem vlada pozitivna energija, ljubav prema sportu i briga o svom telu i umu. Verujem u svakog od vas i radujem se što ćemo zajedno ostvariti neverovatne stvari", poručila je na kraju ova dvanaestogodišnja devojčica čitaocima Magazin 4You.

4You Magazin bilo je posebno zadovoljstvo i čast da upozna jednu ovakvu sjajnu devojčicu. Gabrijela na njenom putu želimo sve najbolje. Vas, naši poštovani čitaoci pozivamo da predložite druga ili drugaricu, ili da nam se predstavite, kažete nam zašto ste najbolji i po čemu se izdvajate od drugih. Pozivamo Vas na upoznavanje, a najbolji od Vas naći će se na stranicama našeg i vašeg 4You Magazina.

"I like English classes and gymnastics the most. The English language allows me to connect with people around the world and to understand other cultures. I dream of becoming a teacher one day," Gabriela told us at the beginning of the conversation. But that's not all - because she has more talents! Besides the gymnastics and English, Gabriela is also a real star when it comes to music. Her beautiful singing wins the hearts of many in Janjevo and the surrounding area. Her family says that music has always been her outlet in difficult times and that singing has always filled her with joy.

However, in order to complete her schedule and free time, Gabriela decided to play two more sports: table tennis and soccer. Her versatility and skills on the field attract the attention of her friends and teachers, who tell us that there is nothing Gabriela can't achieve when she puts her mind to it. "Gabi is proof that with hard work, persistence and family support you can achieve anything you want. Her love for gymnastics, language and sports makes us very proud," her classmates told us. "Gabrijela is a real role model for everyone in the class. Her dedication and passion for many things are incredibly inspiring. We are sure that she will achieve great success in the future," added her physical education teacher, Srđan Pantić.

Future English teacher

Despite her youth, Gabriela has a very mature view of her future. She is aware that the road to achieving her dream will be challenging, but she is determined to one day become an English teacher and inspire young generations to dream big. In the meantime, she says that life is full of challenges and opportunities and invites her peers in Kosovo to play sports, but also to eat properly, because, according to her, these are the key steps towards realizing their dreams.

"Sport gives us not only healthy physical activity, but also mental strength and self-confidence. Regardless of whether you choose to play gymnastics, table tennis, football or another sport, it is important

that you love it and be consistent in your training. Setting goals, work and effort are the keys to success on the sports field, but also in life in general. Likewise, a healthy diet plays a crucial role in keeping our body and mind fit. Try to eat a variety of foods rich in fruits, vegetables, protein and fiber. Your body will thank you", said Gabriela.

We also learn from her that she does not like to use social networks very much because, according to her, too much time spent on phones and computers can negatively affect health, mood and social skills. That's why she invites her peers to go outside, play with friends, spend time in nature and learn something new.

Gabriela claims that the world is full of opportunities waiting to be realized. She tells us that she is not afraid to dream big and pursue her goals. "Always remember that the most important thing is to believe in yourself, to be persistent and not to give up on your goals, no matter how many times you face obstacles. Your strength and effort will lead you to success. Let's create together a world where positive energy, love for sports and care for your body and mind reign. I believe in each of you and I look forward to the fact that we will achieve incredible things together", said this twelve-year-old girl to the readers of Magazin 4You at the end.

It was a special pleasure and honor for 4You Magazine to meet such a great girl. We wish Gabriela all the best on her journey. We invite you, our respected readers, to suggest a friend, or to introduce yourself, tell us why you are the best and what makes you stand out from others. We invite you to get to know each other, and the best of you will be found on the pages of our and your 4You Magazine.

PROVERITE!

-  **P** Proverite izvor vaših informacija!
-  **R** Rešite se svih sumnjivih izvora informacija!
-  **O** Odbranite se od lažnih informacija!
-  **V** Važno je da proverite autentičnost vesti!
-  **E** Evo da ponovimo proverite činjenice! Činjenice! Činjenice!
-  **R** Razlikujte i uporedite sve informacije i izvore!
-  **I** Identifikujte autora!
-  **T** Trudite se da usmerite svoje prijatelje na tačne izvore!
-  **E** Evidentno je da je za tačnost informacija bitna njihova provera.

OTKRIJTE I IGNORIŠITE LAŽNE INFORMACIJE!

U digitalnom dobu, internet je postao glavni izvor informacija za mnoge ljude. Međutim povećanom dostupnošću informacija, povećalo se i širenje dezinformacija. Oksfordov rečnik engleskog jezika definiše dezinformacije: Kao vrstu propagande koja uključuje širenje lažnih informacija sa namerom da obmane ili dovede u zabludu.

PROVERITE svaku informaciju

Da biste bili dobro informisani i imali svesni pristup informacijama, a kako biste izbegli širenje netačnih informacija koje mogu izazvati paniku ili veliku

štetu, neophodno je da svi mi vršimo proveru informacija. Stoga, kada je reč o informacijama koje čitate ili vidite na internetu, uvek imajte na umu jednu reč: **PROVERITE.**

P - Proverite izvor vaših informacija:

Budite skeptični prema nepoznatim ili sumnjivim izvorima. Proverite da li je izvor pouzdan, da li ima dobru reputaciju i da li je stručan u datoj oblasti. Obratite pažnju na kredibilne novinske agencije, proverene izvore vesti i relevantne stručnjake.

R - Rešite se svih sumnjivih izvora informacija:

Ako primetite da izvor informacija ima nepouzdanu istoriju ili je prepoznat kao onaj koji širi lažne vesti, najbolje je izbegavati tu informaciju. Kritičko razmišljanje i odbacivanje sumnjivih izvora pomažu u sprečavanju širenja lažnih informacija.

O - Odbranite se od lažnih informacija:

Budite svesni manipulativnih tehnika koje se koriste za širenje dezinformacija. Obratite pažnju na senzacionalističke naslove, neproverene tvrdnje i nedostatak jasnoće u izveštavanju. Razvijanje kritičkog razmišljanja pomaže u prepoznavanju i ignorisanju lažnih vesti.

V - Važno je da proverite

autentičnost vesti: Važnost provere autentičnosti vesti ne može biti dovoljno naglašena. Pre nego što poverujemo u neku informaciju, treba proveriti da li je potkrepljena pouzdanim izvorima, da li postoji više izvora koji je potvrđuju i da li je u skladu sa opšte poznatim činjenicama. Ponekad se lažne informacije mogu činiti uverljivim, ali samo kroz proveru autentičnosti možemo biti sigurni u istinitost onoga što čujemo ili čitamo.

E - Evo da ponovimo proverite

činjenice: U moru informacija, često se dešava da se ista vest ili tvrdnja različito tumače ili interpretiraju. Stoga je neophodno da proverimo činjenice iz više izvora i uporedimo informacije kako bismo dobili što objektivniju sliku. Verovati samo jednom izvoru može dovesti do pristrasnosti i prihvatanja netačnih informacija.

R - Razlikujte i uporedite sve

informacije i izvore: Razlikovanje i upoređivanje informacija i izvora je

DISINFORMATION: THE IMPORTANCE OF VERIFYING THE INFORMATION

ključno u digitalnom dobu. Sa obzirom na široku dostupnost informacija i raznolikost izvora, važno je razviti veštinu kritičkog razmišljanja i analizirati informacije iz različitih perspektiva. Pored toga, provera izvora nam takođe pomaže pri proceni pouzdanosti informacija i kako bi stekli uvid u moguću pristrasnost ili skriveni motiv.

I - Identifikujte autora: Identifikovanje autora je još jedan važan aspekt provere informacija. Uvek je dobro proveriti ko je napisao ili izneo određenu informaciju. Upoznavanje sa autorom, njegovim profesionalnim iskustvom i ugledom može nam pomoći u proceni verodostojnosti informacije. Takođe, treba biti svestan mogućnosti anonimnih izvora informacija koji mogu biti manje pouzdani.

T - Trudite se da usmerite svoje prijatelje na tačne izvore: Trudite se da svoje prijatelje i bliske osobe usmerite na tačne izvore informacija. Deljenje pouzdanih izvora i edukacija o važnosti provere informacija mogu pomoći u sprečavanju širenja lažnih vesti. Budimo odgovorni korisnici interneta i podstičimo druge da razvijaju istu svest o proveri informacija.

E - Evidentno je da je za tačnost informacija bitna njihova provera: Na kraju, evidentno je da je za tačnost informacija bitna njihova provera. Kao pojedinci, imamo moć da se zaštitimo od lažnih informacija. Provera izvora, kritičko razmišljanje i upoređivanje informacija su ključne veštine koje nam omogućavaju da razaznamo istinu od dezinformacija.

Borite se protiv dezinformacija
Živeti u društvu sa istinitim i tačnim informacijama je pravo i obaveza svakog pojedinca. Zato se pridružite borbi protiv širenja dezinformacija i praktikujte proveravanje informacija u svakom trenutku. Time se osiguravate da ne upadnete u zamku propagande, bilo da je ona namerna ili nenamerna. Na taj način, možete uticati na stvaranje svesnog i sigurnog okruženja za sve. Takođe, angažovanjem u ovim praksama provere informacija pomažete u promovisanju odgovornog i tačnog informacionog okruženja na internetu.

OTKRIJTE I IGNORIŠITE LAŽNE INFORMACIJE!

Posetite nas na:

In the digital era, the Internet has become the main source of information for many people. However, as the information availability has increased so has the spread of disinformation. The Oxford English Dictionary defines disinformation as follows: A form of propaganda involving the dissemination of false information with the deliberate intent to deceive or mislead.

VERIFY all Information!

In order to be well informed but to also have a responsible approach to information and to not trumpet inaccurate information that may spread panic or even cause serious damage, it is necessary that we all practice information verification. Therefore, in relation to the information you read or watch on the Internet always remember the word: **VERIFIKO (VERIFY)!**

Information verification steps:

V - Verify the source: Before you accept and share with others a piece of information or a news, check its source. Make sure the source is credible and supported by other credible sources.

E - Eliminate suspicious sources: If you encounter a suspicious source, that brings untruthful, inaccurate, or fake information, eliminate it. Do not share and do not spread any information that is not confirmed by other credible sources as well.

R - Beware of fake information: Fake information may cause harmful outcomes. Do not become a part of the propaganda, conspirative theories, or fake news. Be vigilant and do not accept as true any information that you cannot verify or support with other facts or sources.

I - Check the news accuracy: Before trusting a news story, do a little research. Check if there are other credible reports that confirm or even deny it. Do not trust immediately any bombastic and emotional news that do not provide true facts.

F - Facts! Facts! Facts!: One of the best and surest ways to discover disinformation or fake news is to seek and check the facts. Seek verified information from credible sources. Do not accept gossip, speculation or claims without solid based facts.

I - Identify the author: Check the author and what her/his credentials and

experience are. To identify the author check if the article or information has a clear signature. Authors of credible information usually will be identified by their full name and when possible, with additional information that helps to know them better. This may include additional information to better introduce them. This may also include their links to institutions, organizations and studies conducted in the specific field.

K - Compare information and sources:

one of the most important steps in information verification is to compare it with other credible sources. Check if the data and facts are compatible with other sources. If you find any inconsistencies or contradictions beware and do not accept the said information as true without doing any further research.

O - Direct your friends to accurate sources: The most important part in the fight against disinformation is the positive impact you can have on others. Share with your friends the information verification practices and tell them how they can protect themselves from disinformation. Help them identify accurate sources and how to critically evaluate the information they share with each other.

Fight disinformation

Living in a society with truthful and accurate information is the right of each individual. Therefore, join in the fight against the spread of disinformation and practice information verification at all times. By doing so you ensure to avoid becoming part of the propaganda windmill be it if they are intended or unintended. This way you will help create a safe and responsible environment for all. Moreover, by engaging in such information verification practices, you will help promote a responsible and accurate information environment on the Internet.

DETECT AND DISREGARD DISINFORMATION!

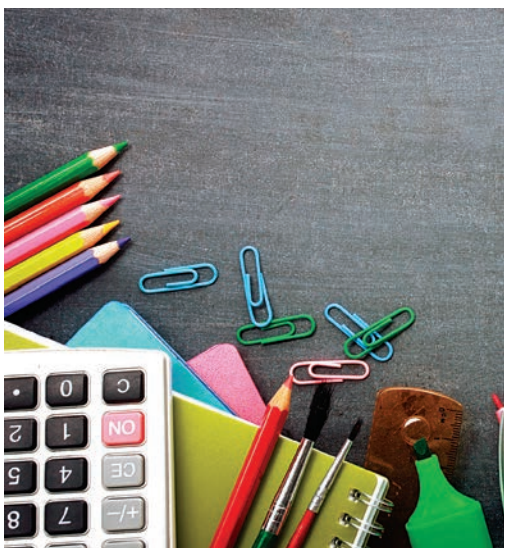

naći one u kojima će vaše piće biti hladno ili toplo tokom celog dana. Mnoge flaše za vodu takođe mogu se pronaći u modernim dizajnim a i lako se čiste, što ih čini i praktičnim i modernim.

Klasični satovi

Klasični ručni sat ne samo da može da doda sofisticirani dodir vašoj odevnoj kombinaciji, već vam takođe može pomoći da efikasno upravljate vremenom. Prilikom odabira sata, najpre vodite računa da odgovara vašem ličnom stilu, bilo da je u pitanju minimalistički dizajn ili hrabar upečatljivi komad. Osim što prikazuju vreme, mnogi satovi dolaze sa dodatnim funkcijama poput tajmera i alarma koji vam mogu pomoći da ostanete u skladu sa svojim rasporedom.

Zapamtite, povratak u školu ne mora biti samo o udžbenicima i zadacima. Uz prave aksesoare, možete izraziti stil i funkcionalnost. Od rančeva i tehničkih geđžeta do modernog pribora, ovi aksesoari će vam pomoći da ostanete organizovani i da sa samopouzdanjem i stilom zakoračite u novu školsku godinu.

Srećan povratak u školu!

BACK TO SCHOOL ACCESSORIES

September. An exciting new school year is lying ahead of you. After the summer vacation, now is the time to get prepared for another school year. In addition to buying notebooks, backpacks and other school supplies, don't forget to stock up on the latest back-to-school accessories. Read below what are the modern and practical accessories which, according to our selection, will help you start the school year with style and which will also help you to be more organized.

Backpack

Something that is a must for every student is a backpack. When choosing a backpack, make sure that it has enough space for your textbooks and accessories, while on the other hand reflecting your personal style. Look for the backpacks that are made of durable materials, have adjustable straps and enough compartments to keep everything organized. Whether you prefer elegant or minimalist design, you can find a backpack for every taste.

Tech gadgets

In today's digital age, the right tech gadgets can improve your productivity and make studying more fun. Therefore, it wouldn't hurt considering investing in a quality laptop or a tablet that will meet your academic needs. When it comes to tablets, there are many that are suitable for both studying and for school, and there is a wide variety of educational apps and content available. When choosing a tablet for studying, it is important to consider factors such as budget, screen size, performance, battery life and the availability of relevant software.

Modern school supplies

Today, there is a wide variety of modern pencils that can facilitate and enhance the writing and note-taking experience, including coloring gel pencils that allow for smooth writing, as well as pens and ballpoint pens. Available you can also find pencils with an eraser that allow you to remove pen ink from paper. Overall, these modern pencils will make your writing stand out and will help you to stay engaged in class. A quality planner or journal is what you need to keep track of assignments, deadlines, and extracurricular activities. Offerings include creative planners that contain space for notes, goals, inspirational quotes, drawings and additional elements that help organize

schoolwork in an interesting way. In addition to traditional paper planners, there are also digital planners. They can be installed on smartphones, tablets or computers and allow organizing schedules, recording tasks, setting reminders and following up on set goals. Digital planners often offer flexibility and the ability to sync between devices, which, you have to admit, makes it easier to keep up with schoolwork.

Practical water bottles

Staying hydrated throughout the day is key to maintaining focus and concentration. Therefore, consider investing in a durable and eco-friendly water bottle that you can carry with you. Offerings includes bottles that will keep your beverage cold or warm throughout the day. Many water bottles come in modern designs and are easy to clean, which makes them both practical and stylish.

Classic watches

A classic wristwatch can not only add a sophisticated touch to your outfit, but it can also help you manage your time effectively. When choosing a watch, first make sure it suits your personal style, whether it has a minimalist design or is a bold statement piece. In addition to telling the time, many watches come with additional features like timers and alarms that can help you stay on schedule.

Remember, going back to school doesn't have to be all about textbooks and assignments. With the right accessories, you can give off style and functionality. From backpacks and tech gadgets to modern school supplies, these accessories will help you stay organized and step into the new school year with confidence and style.

Wish you a happy return to school!

MUSICBOX

S2 I JOVANA

„MUZIKA KOJA NAS SPAJA“

U svetu muzike, svaki novi bend donosi sa sobom obećanje i iščekivanja. Na lokalnoj muzičkoj sceni, poslednjih meseci, jedan takav bend privukao je pažnju publike svojim akustičnim zvukom i snažnim vokalima. Njihove izvedbe obuhvataju različite žanrove i obrade poznatih hitova na autentičan način. Nastao u Priluzju, malom mestu u vučitrnskoj opštini, muzički trio "S2 i Jovana" čine Jovana Andrić, Stevica Stefanović - zvani Steva i Srđan Zdravković. Ime benda "S2 i Jovana" proizilazi iz početnih slova imena dvojice članova i Jovaninog imena. Razgovarali smo sa članovima ovog benda pred njihov nastup u jednom od mitrovačkih kafica. U intervju za 4You Magazin, govorili su o svojim počecima, onome što ih razlikuje od drugih bendova i planovima za budućnost.

Nastanak benda

Jovana, Steva i Srđan odrasli su u mestu poznatom po bogatoj muzičkoj tradiciji. U Priluzju su nekada organizovale poznate igranke, što je verovatno jedan od razloga, zašto je ovo malo mesto rasadnik muzičkih ali i sportskih talenata. Nakon višegodišnjeg poznanstva, trio je počeo da nastupa zajedno u decembru prošle godine. Prvu svirku imali su 16. decembra na Brezovici, precizira Steva. Jovana je vokalni solista a Steva i Srđan sviraju akustične solo gitare, a Srđan je ujedno i vokal. Kako Jovana kaže, savršeno su se uklopili i tako je počela ova muzička priča.

O članovima benda

Jovana je snažan vokal koja u sebi nosi dušu i temperament Balkana. Njena ljubav prema muzici rodila se još u crkvenom horu i muzičkoj školi, gde je razvijala svoj

talent za solo pevanje. Kao apsolvant na katedri za Psihologiju na fakultetu u Mitrovici, kombinuje svoje znanje sa strašću za muzikom i pevanjem.

Steva na akustičnoj gitari donosi toplinu i ritam koji dopunjuje Jovanin vokal na savršen način. Kao učitelj u osnovnoj školi, Steva je oduvek bio okružen muzikom i potiče iz muzičke porodice. Sviranje gitare oduvek mu je bila strast, a sada, zajedno sa Jovanom i Srđanom, stvara magične trenutke na sceni.

Srđan glasom i sviranjem gitare upotpunjuje ovaj trio svojom muzičkom harizmom. Njegov autorski talent i veština pisanja pesama dodaju novu dimenziju bendu i doprinose originalnosti njihovog repertoara.

Nastupi

Tokom letnje sezone, publika je mogla da čuje izvedbe ovog benda u Mitrovici,

Gračanici, Štrpcu i Lešku. Njihov repertoar obuhvata širok spektar žanrova, od zabavne i rok muzike do ex-yu pesama i folka. Omiljeni su među publikom zbog interakcije sa njima i čestog ispunjavanja zahteva za omiljene pesme.

Za kratko vreme postojanja, "S2 i Jovana" su postigli značajan uspeh. Sarađivali su sa poznatim muzičarem Bobom Rakićem i bili su predgrupa na dočeku pravoslavne Nove godine. Snimili su tri obrade pesama koje su naišle na oduševljenje publike na društvenim mrežama i na njihovim nastupima uživo.

Muzika nas spaja

U razgovoru sa bendom, otkrivaju nam njihovu zajedničku strast prema muzici i sviranju. Ipak ono što ih izdvaja od drugih bendova je energija koju poseduju kao i autentičan pristup muzici. Za njih muzika nije samo posao,

S2 I JOVANA

"MUSIC THAT UNITES US"

In the world of music, every new band brings with it promise and anticipation. On the local music scene, in recent months, one such band has attracted the attention of the audience with its acoustic sound and powerful vocals. Their performances include different genres and covers of well-known hits in an authentic way. Formed in Priluzje, a small village in the municipality of Vucitrn, the musical trio "S2 and Jovana" consists of Jovana Andric, Stevica Stefanovic - aka Steva and Srdjan Zdravkovic. The name of the band "S2 and Jovana" comes from the initials of the two members and Jovana's name. We spoke with the members of this band before their performance in one of Mitrovica's cafes. In an interview with 4You Magazine, they talked about their beginnings, what sets them apart from other bands and their plans for the future.

već način života i način da se izraze i povežu sa svetom. "Muzika nas spaja sa drugim ljudima, ta energija se vidi i mi se na neki način povezujemo", naglašava Jovana. Sa druge strane, Srdjan, koji je direktor osnovne škole u Priluzju, ima bogato iskustvo u svetu muzike, a Steva je, posle kraće pauze, pronašao inspiraciju da ponovo svira akustičnu gitaru. Naime, Steva u školi u kojoj radi ima "Malu muzičku školu gitare", gde zajedno sa direktorom i još jednim kolegom uči decu da sviraju gitaru. Zbog sposobnosti da se povežu sa publikom i prenesu emocije kroz nastupe, postali su omiljeni među publikom.

Planovi za budućnost

Bend ima ambiciozne planove za budućnost, uključujući promociju svoje originalne pesme koju su nedavno snimili. Naglašavaju važnost samopouzdanja i interakcije sa publikom kao ključa uspeha. Otvorena i iskrena komunikacija među članovima doprinosi njihovoj jedinstvenosti.

"S2 i Jovana" poručuju mladima na Kosovu da slede svoje snove i strasti, bez obzira na to da li je to muzika ili bilo koji drugi oblik umetnosti. Muzika je za njih način života i način da se povežu sa svetom. Njihova strast prema muzici spaja ih sa publikom i čini da svaki nastup bude poseban i nezaboravan.

The origin of the band

Jovana, Steva and Srdjan grew up in a place known for its rich musical tradition. Famous dance parties were once organized in Priluzje, which is probably one of the reasons why this small place is a hotbed of musical and sports talents. After many years of acquaintance, the trio started performing together in December last year. They had their first gig on December 16 in Brezovica, Steva specifies. Jovana is the vocal soloist and Steva and Srdjan play acoustic solo guitars, and Srdjan is a vocalist too. As Jovana says, they fit perfectly and that's how this musical story began.

About the band members

Jovana is a strong vocalist who carries the soul and temperament of the Balkans. Her love for music was born in the church choir and music school, where she developed her talent for solo singing. As a graduate student in the Department of Psychology at the Faculty of Mitrovica, she combines her knowledge with her passion for music and singing. Steva on the acoustic guitar brings warmth and rhythm that complements Jovana's vocals in a perfect way. As a primary school teacher, Steva has always been surrounded by music and comes from a musical family. Playing the guitar has always been his passion, and now, together with Jovana and Srdjan, he creates magical moments on stage. Srdjan with his voice and playing the guitar completes this trio with his musical charisma. His authorial talent and songwriting skills add a new dimension to the band and contribute to the originality of their repertoire.

Performances

During the summer season, the audience could hear the performances of this band in Mitrovica, Gracanica, Strpcce and Lesak. Their repertoire covers a wide range of genres, from fun and rock music to ex-yu songs and folk. They are a crowd favorite for interacting with them and frequently fulfilling requests for favorite songs. In the short time of its existence, "S2 and Jovana" achieved significant success. They collaborated with the famous musician Boba Rakić and were the opening act at the

Orthodox New Year's Eve. They recorded three covers of songs that met with the enthusiasm of the audience on social networks and at their live performances.

Music brings us together

In a conversation with the band, they reveal to us their shared passion for music and playing. However, what sets them apart from other bands is their energy and authentic approach to music. For them, music is not just a job, but a way of life and a way to express themselves and connect with the world. "Music brings us together with other people, the energy is visible and we connect in some way", emphasizes Jovana. On the other hand, Srdjan, who is the principal of the elementary school in Priluzje, has rich experience in the world of music, and Steva, after a short break, found inspiration to play the acoustic guitar again. However, in the school where he works, Steva has a "Little Guitar Music School", where together with the director and another colleague, he teaches children to play the guitar. Due to their ability to connect with the audience and convey emotions through their performances, they have become a favorite among the audience.

Plans for the future

The band has ambitious plans for the future, including promoting their recently recorded original song. They emphasize the importance of self-confidence and interaction with the audience as the key to success. Open and honest communication between members contributes to their uniqueness. "S2 and Jovana" tell young people in Kosovo to follow their dreams and passions, regardless of whether it is music or any other form of art. For them, music is a way of life and a way to connect with the world. Their passion for music unites them with the audience and makes every performance special and unforgettable.

DEFY THEM:

SPAJANJE ZAJEDNICA KROZ MUZIKU I UMETNOST

U društvu u kojem međuetnička komunikacija može biti izazovna, nevladina organizacija pod nazivom „Defy Them“ pravi talase na alternativnoj umetničkoj i muzičkoj sceni. Koristeći višeslojni pristup, „Defy Them“ ima za cilj da podrži i osnaži umetnike dok neguje veze među zajednicama. Kroz svoje različite inicijative, ova organizacija ruši barijere i promovise inkluzivnost u društvu često podeljenom po etničkim i društvenim linijama.

Centar kreativnosti i saradnje

U srcu „Defy Them“ je „Defy Them Records“, studio za snimanje u kojem ambiciozni umetnici iz bendova u nastajanju sa različitim pozadinama oživljavaju svoju muziku. Organizacija takođe vodi muzičku školu koja nudi kurseve gitare, bubnjeva, udaračkih instrumenata, basa i vokala. Nedavno su uveli kurs inženjeringa zvuka i produkcije kako bi dodatno proširili svoju ponudu. Pored toga, „Defy Them“ je domaćin kulturnog centra koji se fokusira na projekte koji se bave svim etničkim zajednicama koje žive na Kosovu, veštačkoj inteligenciji, umetnosti, novinarstvu i medijima. Ljira Bljakaj (Lira Blakaj), izvršna direktorka „Defy Them“, istakla je važnost uključivanja mladih u vannastavne aktivnosti. Ona je ohrabrila mlade ljude da istražuju različita umetnička interesovanja, prošire svoje vidike i prevaziđu etničke, rodne i rasne granice. Bljakaj je naglasila da kroz odgovarajuće aktivnosti ljudi mogu bolje razumeti jedni druge i kolektivno prevazići društvene izazove, negujući uspešnije i ujedinjenije Kosovo.

Slavimo različitost kroz muziku

Jedan od nedavnih događaja organizacije Defy Them, koji je podržao

USAID i kojim rukovodi YIHR (Inicijativa mladih za ljudska prava) na Kosovu, imao je za cilj da okupi muzičare, horove i umetnike iz različitih zajednica koje žive na Kosovu. U prisustvu preko stotinu mladih različitih nacionalnosti, program dana je započeo recitovanjem pesme srpske devojke, prevedene na romski i albanski jezik. Pesma je naglasila važnost pomirenja i mira među zajednicama. Usledili su muzički nastupi, počevši od muzičkog centra

„Music For All“ (Muzika za sve) koji je predstavio svoj hor i instrumentaliste iz Plemetine. Nastup bubnjeva predvođen talentovanim učenicima instruktora Taumana Ukče dao je ritmički čar ovom događaju. Konačno, bina je dočekala 'Nuclear Doom', grupu mladih muzičara uzrasta 13-14 godina iz 'Defy Them', koji su zatvorili koncert energičnim notama.

Džemajl Mustafa (Xhemajl), mentor u 'Music For All', izrazio je zadovoljstvo što su deca uključena u događaj. On je napomenuo da muzika ima moć da zbliži ljude, bez obzira na njihovu etničku pripadnost, i naglasio napredak koji se napravljen u ujedinjenju kosovskog društva. Njegovo mišljenje je dodatno podržao Dimitrije Obrenović, stipendista i projektni asistent u

YIHR. On je naglasio značaj ovakvih događaja u promovisanju međuetničke komunikacije i razumevanja. Zahvalio se donatorima i poreskim obveznicima iz EU i SAD koji podržavaju ovakve inicijative, omogućavajući pozitivne promene u životima mladih. Hana Beriša (Berisha) iz YIHR, i jedan od glavnih organizatora prethodnog događaja, istakla je važnost uključivanja i potrebu da se razbije narativ isključenosti uključivanjem svih zajednica u slične zajedničke aktivnosti.

Korak ka većim inicijativama

Iako je ovaj događaj služio kao ad hoc aktivnost, gospođa Bljakaj nam je rekla da je „Defy them“ u procesu razvoja sveobuhvatnog programa koji ima za cilj da angažuje nevećinske zajednice na Kosovu. Ovaj dugoročni program obuhvatiće radionice, časove instrumenata, kompoziciju muzike i formiranje međuetničkih bendova. Negujući umetničke talente i promovišući saradnju, „Defy Them“ nastoji da stvori harmoničnije društvo i ubrza rast Kosova.

Poruka mladima: Snovi, jedinstvo i napredak

Organizatori i mentori su zajedničkim snagama preneli odjekujuću poruku omladini Kosova. Ohrabрили su ih da ostvare svoje snove, ostanu radoznali i rade na zajedničkoj budućnosti. Oni su istakli transformativnu moć umetnosti i muzike kao sredstva za postizanje društvenih promena i povezivanja. Uključujući se u kreativne poduhvate, mladi ljudi imaju priliku da izazovu stereotipe, grade mostove i neguju empatiju i razumevanje među različitim zajednicama.

DEFY THEM - (Prkosi im) je nevladina organizacija koja podržava alternativnu umetnost i muzičku scenu na Kosovu. Sastoji se od nekoliko stubova, uključujući:

- **Defy Them Records - studio za snimanje gde mladi muzičari i bendovi mogu da snimaju svoje pesme,**
- **Defy Them Music School - koja sprovodi kurseve raznih muzičkih instrumenata i vokalnu obuku i**
- **The Alternative Culture Center (Alternativni kulturni centar)- koja je posvećena osnaživanju umetnika i stvaranju projekata koji koriste svim etničkim zajednicama na Kosovu.**

Njihov glavni cilj je da prevaziđu barijere i neguju mir, sreću i saradnju kroz muziku i umetnost.

DEFY THEM:

UNITING COMMUNITIES THROUGH MUSIC AND ART

In a society where interethnic communication can be challenging, a non-governmental organization named 'Defy Them' is making waves in the alternative arts and music scene. With a multi-faceted approach, 'Defy Them' aims to support and empower artists while fostering intercommunity connections. Through their diverse initiatives, this organization is breaking down barriers and promoting inclusivity in a society often divided by ethnic and social lines.

A Hub of Creativity and Collaboration

At the heart of 'Defy Them' is 'Defy Them Records', a recording studio where aspiring artists from different backgrounds and emerging bands can bring their music to life. The organization also operates a music school that offers courses in guitar, drums, percussion, bass, and vocals. Recently, they have introduced a sound engineering and production course to further expand their offerings. Additionally, 'Defy Them' hosts a cultural center that focuses on projects addressing all ethnic communities living in Kosovo, artificial intelligence, art, journalism, and media. Lira Blakaj, the Executive Director of 'Defy Them', highlighted the importance of engaging youth in extracurricular activities. She encouraged young people to explore different artistic pursuits, broaden their horizons, and transcend ethnic, gender, and racial boundaries. Blakaj emphasized that through appropriate activities, people can better understand each other and collectively overcome social challenges, fostering a more successful and united Kosovo.

Celebrating Diversity through Music

One of Defy Them's recent events, supported by USAID and managed by YIHR Kosovo, aimed to bring together musicians, choirs, and artists from various communities residing in Kosovo. In the presence of over a hundred youngsters of different ethnicities, the day's program commenced with the recitation of a poem written by a Serbian girl, translated into Romani and Albanian. The poem emphasized the importance of reconciliation and peace among communities. Music performances followed, starting with 'Music For All' music center that showcased their choir and instrumentalists from Plemetina. A drum performance led by instructor Tauman Ukça's talented students added rhythmic flair to the event. Finally, the stage welcomed 'Nuclear Doom', a group of young musicians aged 13-14 from 'Defy Them', closing the concert on an energetic note.

Xhemajl Mustafa, a mentor at 'Music For All', expressed his delight in having children involved in the event. He noted that music has the power to bring people together, regardless of their ethnicity, and emphasized the progress being made in unifying Kosovo's society. His sentiment was further supported by Dimitrije Obrenovic, a peace fellow and project assistant at YIHR. The latter emphasized the significance of events like these in promoting interethnic communication and understanding. He expressed gratitude to donors and taxpayers from the EU and US who support such

initiatives, enabling positive changes in the lives of young people. On the other hand, his colleague from YIHR Hana Berisha, and one of the main organizers of the foregoing event, emphasized the importance of inclusivity and the need to dispel the narrative of exclusion by involving all communities in similar joint activities.

A Steppingstone Towards Greater Initiatives

While this event served as an ad hoc activity, Ms. Blakaj told us that 'Defy Them' is in the process of developing a comprehensive program that aims to engage non-majority communities in Kosovo. This long-term program will include workshops, instrument classes, music composition, and the formation of interethnic bands. By nurturing artistic talents and promoting collaboration, 'Defy Them' strives to create a more harmonious society and facilitate the growth of Kosovo.

A Message to the Youth: Dreams, Unity, and Progress

Collectively, the organizers and mentors conveyed a resounding message to the youth of Kosovo. They encouraged them to pursue their dreams, stay curious, and work towards a common future. They highlighted the transformative power of art and music as a means to achieve social change and cohesion. By engaging in creative endeavors, young people have the opportunity to challenge stereotypes, build bridges and foster empathy and understanding among different communities.

DEFY THEM - is a non-governmental organization that supports the alternative arts and music scene in Kosovo. Comprised of several pillars, including:

- **Defy Them Records - a recording studio where young musicians and bands can record their songs,**
- **Defy Them Music School - which conducts courses in various instruments and vocal training, and**
- **The Alternative Culture Center - which is dedicated to empowering artists and creating projects that benefit all ethnic communities in Kosovo.**

Their main goal is to transcend barriers and foster peace, happiness, and cooperation through music and art.

UPOZNAJMO PET NAJBOLJIH SVETSKIH UNIVERZITETA

Bez obzira na to da li ste student koji razmatra svoje buduće obrazovanje ili jednostavno želite da proširite svoje znanje o vodećim svetskim univerzitetima, ovo putovanje kroz akademsku elitu, pružiće vam uvid u izuzetnost i raznolikost obrazovanja na globalnom nivou.

U današnjem društvu, obrazovanje ima ključnu ulogu u oblikovanju i razvoju naprednih društava. Univerziteti su postali žarišta intelektualnog napretka, inovacija i istraživanja koja oblikuju buduće generacije lidera, naučnika i preduzetnika. Među mnogobrojnim obrazovnim institucijama širom sveta, određeni univerziteti se ističu kao vrhunski centri akademske izvrsnosti. Svaki od ovih univerziteta nosi svoju jedinstvenu istoriju, akademsku tradiciju i kulturni uticaj koji ih čini posebnim u globalnom obrazovnom pejzažu. Od Sjedinjenih Američkih Država do Ujedinjenog Kraljevstva, ovi univerziteti privlače studente iz celog sveta i stvaraju atmosferu intelektualne raznolikosti.

Svaki od njih donosi ne samo izvanrednu akademsku reputaciju, već i bogatu istoriju dostignuća, koja su oblikovala svet na mnoge načine. Rangiranje univerziteta može varirati u zavisnosti od izvora i metode koju koristi određeni izvor, međutim ovih pet univerziteta imaju konstantni visok rang na mnogim međunarodnim listama. Izdvaja ih bogata istorija, ugled i uticaj u akademskom svetu, ali su i središta inovacija i brojnih dostignuća u raznim poljima. TO SU:

Univerzitet Harvard

Harvard je osnovan 1636. godine i jedan je od najstarijih univerziteta u Sjedinjenim Američkim Državama. Na Harvardu se nalazi najveća univerzitetska biblioteka u Severnoj Americi, Harvardova biblioteka, koja ima preko 20 miliona knjiga. Mnogi poznati političari, naučnici, pisci i poslovni lideri su studirali na Harvardu, uključujući bivše američke predsednike Baraka Obamu, Džona F. Kenedija i Džordža Buša.

Univerzitet Stanford

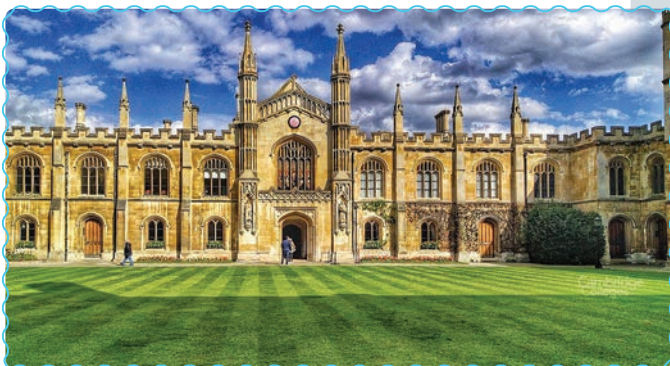

Stanford se nalazi u Silicijumskoj dolini u Kaliforniji, poznatiji po tehnološkom razvoju. Univerzitet je osnovan 1885. godine i jedan je od najprestižnijih univerziteta u SAD-u. Na Stanfordu se nalazi Stanfordova bolnica, jedna od najcenjenijih medicinskih ustanova u SAD-u. Stanford je poznat po svom fokusiranju na preduzetništvo i tehnološki razvoj. Mnoge tehnološke kompanije, poput Google-a, Yahoo-a i Hewlett-Packard-a, osnovali su bivši studenti Stanforda.

Univerzitet Kembridž

Kembridž (Cambridge) je jedan od najstarijih univerziteta u engleskom govornom svetu, osnovan 1209. godine. Na univerzitetu su studirali poznati naučnici poput Isaka Njutna, Čarlsa Darvina i Stivena Hokinga. Univerzitet Kembridž sastoji se od 31 koledža, od kojih svaki ima sopstvenu tradiciju i karakterističnu arhitekturu.

Univerzitet MIT

MIT je osnovan 1861. godine i fokusiran je na nauku, tehnologiju, inženjering i matematiku. Na MIT-u se nalazi slavna Kupola, koja je postala simbol univerziteta. MIT ima reputaciju inovacija i istraživanja. Njegovi su diplomci osnovali veliki broj tehnoloških startapa i kompanija.

Univerzitet Oksford

Oksford je jedan od najstarijih univerziteta na svetu, osnovan u 12. veku. Na univerzitetu su studirali mnogi poznati pisaci poput J.R.R. Tolkiena, C.S. Luisa i Oskara Vajlda. Oksford ima jedinstven sistem koledža, gde studenti žive i uče u manjim zajednicama unutar šireg univerziteta. Univerzitet je poznat po svojim tradicionalnim ceremonijama, kao što je dodela diploma u prepoznatljivim svečanim odelima i kapama.

Univerziteti se rangiraju na osnovu različitih kriterijuma koji mogu varirati zavisno o izvoru i metodologiji rangiranja. Neki od uobičajenih faktora koji se uzimaju u obzir prilikom rangiranja univerziteta uključuju:

Akademski ugled: Ocenjuje se kvalitet nastavnog osoblja, istraživačkih rezultata i naučnih publikacija univerziteta. Ova ocena se često vrši putem anketa među profesorima, istraživačima i stručnjacima iz određenih oblasti.

Kvalitet istraživanja: Procenjuje se produktivnost i uticaj univerziteta u oblasti istraživanja, uključujući broj objavljenih radova, citiranost istraživača i angažman u velikim istraživačkim projektima.

Studenti: Uzimaju se u obzir faktori kao što su prosečan broj prijava po raspoloživom mestu, kvalitet prijave, uspeh studenata, stopa diplomiranja, zadovoljstvo studenata i uspeh u karijeri nakon diplomiranja.

Kvalitet nastave: Ocenjuje se kvalitet nastave, uključujući odnos između nastavnika i studenata, inovativne metode poučavanja, pristup resursima i infrastrukturi za učenje.

Međunarodna reputacija: Uzima se u obzir globalna percepcija univerziteta među akademskom zajednicom, poslodavcima i studentima širom sveta.

Finansijska podrška: Procenjuje se finansijska stabilnost univerziteta, ulaganja u istraživanje i infrastrukturu, dostupnost stipendija i podrška za studente.

LET'S GET TO KNOW TOP FIVE UNIVERSITIES IN THE WORLD

Whether you are a student considering your future education or simply want to expand your knowledge about the world's leading universities, this journey through the academic elite will give you an insight into the excellence and diversity of education on a global level.

In today's society, education plays a key role in shaping and developing progressive societies. Universities have become hotbeds of intellectual progress, innovation and research that shape future generations of leaders, scientists and entrepreneurs. Among the many educational institutions around the world, certain universities stand out as top centers of academic excellence. Each of these universities carries its own unique history, academic tradition and cultural influence that makes them special in the global educational landscape. From the United States of America to the United Kingdom, these universities attract students from all over the world and create an atmosphere of intellectual diversity.

Each of them brings not only an outstanding academic reputation, but also a rich history of achievements, which have shaped the world in many ways. University rankings may vary depending on the source and the method used by a particular source, however these five universities hold a consistently high ranking on many international lists. They stand apart for their rich history, good reputation and influence in the academic world, but they are also the centers of innovation and numerous achievements in various fields. THOSE ARE:

Harvard University

Harvard was founded in 1636 and is one of the oldest universities in the United States of America. Harvard is home to the largest university library in North America, the Harvard Library, which has over 20 million books. Many famous politicians, scientists, writers and business leaders have studied at Harvard, including former US presidents Barack Obama, John F. Kennedy and George W. Bush.

Stanford University

Stanford is located in California's Silicon Valley, known for its technological development. The university was founded in 1885 and is one of the most prestigious universities in the USA. Stanford is home to Stanford Hospital, one of the most esteemed medical institutions in the US. Stanford is known for its focus on entrepreneurship and technological development. Many tech companies, such as Google, Yahoo, and Hewlett-Packard, were founded by Stanford alumni.

University of Cambridge

Cambridge is one of the oldest universities in the English-speaking world, founded in 1209. Famous

scientists like Isaac Newton, Charles Darwin and Stephen Hawking studied at the university. The University of Cambridge consists of 31 colleges, each with its own tradition and distinctive architecture.

MIT University

MIT was founded in 1861 and is focused on science, technology, engineering and mathematics. MIT is home to the famous Dome, which has become the symbol of the university. MIT has a reputation for innovation and research. Its alumni have founded many tech startups and companies.

University of Oxford

Oxford is one of the oldest universities in the world, founded in the 12th century. Many famous writers studied at the university, including J.R.R. Tolkien, C.S. Lewis and Oscar Wilde. Oxford has a unique system of colleges, where students live and study in smaller communities within the wider university. The university is known for its traditional ceremonies, such as the graduation ceremony in distinctive formal gowns and caps.

Universities are ranked based on different criteria that may vary depending on the source and ranking methodology. Some of the common factors considered when ranking universities include:

Academic reputation: The quality of teaching staff, research results and scientific publications of the university are being evaluated. This assessment is often done through surveys ran among professors, researchers and experts in certain fields.

Research quality: The productivity and impact of the university in the field of research is assessed, including the number of published papers, citations of researchers and engagement in major research projects.

Students: Factors such as average number of applications per available place, quality of applications, student success, graduation rate, student satisfaction and career success after graduation are looked at.

Quality of teaching: The quality of teaching is evaluated, including the relationship between teachers and students, innovative teaching methods, access to learning resources and infrastructure.

International reputation: The global perception of the university in the academic community, among employers and students around the world is examined.

Financial support: The University's financial stability, investment in research and infrastructure, availability of scholarships and student support are assessed.

DO IT YOURSELF

KAKO DA NAPRAVITE UNIKATNU PERNICU ZA ŠKOLU?

Škola je počela i svaki dan ulice su preplavljene školarcima. Pred vama su novi predmeti, knjige, časovi, lekcije, domaći zadaci... Povratak u školske klupe možete učiniti zanimljivijim i kreativnijim uz samo malo mašte! Stoga vam mi predlažemo kako da svoj školski pribor - učinite originalnim i upečatljivim! Ovog puta odlučili smo se za pernicu, koja je svakako važan predmet za školu.

Od materijala će vam biti potrebno:

- komad tvrdog materijala (na primer filca)
- skalpel
- ukrasna traka
- i kopče bilo koje vrste.

I to je to, vaša unikatna pernica je gotova. Brzo, lako i lepo! Zabavite se dok pravite ovu pernicu i uživajte u korišćenju! Ova jednostavna minimalistička ali vrlo unikatna pernica, svima će zapasti za oko i vama će biti još veće zadovoljstvo da je koristite. Takođe, možete je personalizovati bojama, ukrasima, nalepnicama ili svojim imenom, što svakako čini pernicu jedinstvenom i prepoznatljivom.

Neka vam učenje postane zabava!

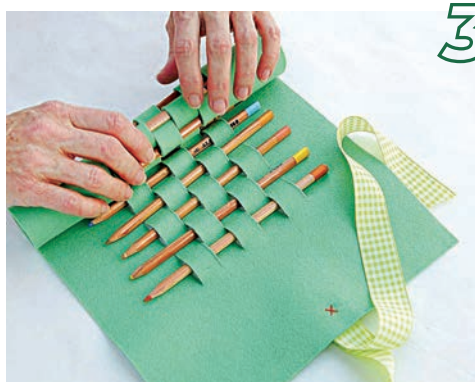

Pernica omogućava da školski pribor, poput olovaka, gumica, lenjira, bojica i drugih sitnica, bude na jednom mestu. To olakšava pristup određenom priboru bez pretrage džepova ili torbe. Takođe, pernica pruža zaštitu školskom priboru od spoljnih uticaja. Tkanina pernice štiti oštre ivice olovaka od lomljenja, a rajfešlus sprečava da pribor ispadne ili se izgubi. Još jedna od prednosti pernice je ta, što je kompaktna i prenosiva i što omogućava da se školski pribor lako nosi iz jednog mesta u drugo. Možete je staviti u torbu ili ranac i nositi sa sobom u školu, časove ili bilo koju drugu aktivnost.

U nastavku pročitajte kako da napravite interesantnu pernicu za školu na jednostavan i lak način.

Postupak izrade:

1. Na početku da vam napomenemo da je jedna od prednosti pravljenja ove pernice - ta što uopšte ne treba da budete profesionalni u šivenju, već samo treba da seckate. Najpre komad materijala po sredini isecite skalpelom nekoliko puta, uz pomoć lenjira tako da dobijete trakice koje su jednake veličine.
2. Potom je potrebno da kopče pričvrstite na spoljašnju stranu pernice kao što je prikazano na slici.
3. Zatim, možete da poređajte vaše olovke jednu do druge po trakicama.
4. Sada kada ste već poređali olovke, neophodno je da urolate pernicu kao palačinku.
5. Iskoristite ukrasnu traku da je zavežete kako se ne bi stalno otvarala, a i da još lepše izgleda.

HOW TO MAKE A UNIQUE PENCIL CASE FOR SCHOOL?

School has started and every day the streets are flooded with schoolchildren. You have new subjects, books, classes, lessons, homework... You can make your return to school more interesting and creative with just a little imagination! Therefore, we have a suggestion on how you can make your school supplies - original and memorable! This time we decided to go for a pencil case, which is certainly an important item for school.

Material needed

- a piece of harder material (for example felt)
- scalpel
- decorative tape
- and snap buttons of any kind.

A pencil case allows you to keep your school supplies, such as pencils, erasers, rulers, crayons, and other small things, in one place. This makes it easier to access certain supplies without searching pockets or bags. Also, a pencil case provides protection for your school supplies from external influences. The fabric of the pencil case protects the sharp edges of pencils from breaking, and the zipper prevents the supplies from falling out or getting lost. Another advantage of a pencil case is that it is compact and portable and allows you to easily carry your school supplies from one place to another. You can put it in your bag or backpack and take it with you to school, classes, or any other activity.

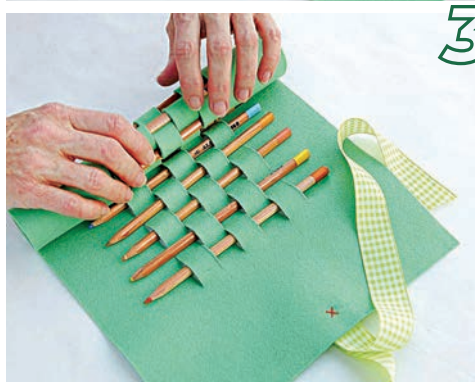

Read on to find out how to make a unique pencil case for school without sewing, in a simple and easy way.

The making process:

1. At the beginning, let us tell you that one of the advantages of making this pencil case is that you don't need to be a sewing professional at all, you just need to chop. First, cut the piece of material in the middle with a scalpel several times, with the help of a ruler, so that you get equal-sized strips.
2. Then you need to attach the snap buttons to the outside of the pencil case as shown in the picture.
3. Next, you can arrange your pencils next to each other on the strips.
4. Now that you have arranged the pencils, it is necessary to roll the pencil case like a pancake.
5. Use the decorative tape to tie it so that it doesn't keep opening and it looks even more beautiful.

And that's it, your unique pencil case is ready. Fast, easy, and beautiful! Have fun making this pencil case and enjoy using it! This simple minimalist but very unique pencil case will catch everyone's eye and you will be even more pleased to use it. Also, you can personalize it with colors, decorations, stickers, or your name, which certainly makes the pencil case unique and recognizable. **Make learning fun!**

SLAVIMO NEZAVISNI FILM: FILMSKI FESTIVAL SANDENS

Jednom godišnje, filmska industrija se okuplja u živopisnom gradu Park Siti u Juti, na proslavi kreativnosti, pripovedanja i nezavisne kinematografije. Filmski festival Sandens, koji je osnovao Robert Redford 1978. godine, postao je jedan od najprestižnijih i najuticajnijih filmskih festivala na svetu.

Posvećenost nezavisnoj produkciji

Ova manifestacija, koja se organizuje svakog januara u trajanju od deset dana, prikazuje raznovrsnu selekciju filmova koji podstiču na razmišljanje, pokreću karijere novih filmskih stvaralaca i neguje živu zajednicu umetnika i filmskih entuzijasta. Filmski festival Sandens poznat je po svojoj posvećenosti nezavisnoj kinematografiji, pružajući platformu u okviru koje filmski stvaraoci mogu da podele svoje jedinstvene vizije i glasove sa globalnom publikom. Od ubedljivih dokumentarnih filmova i inovativnih narativa do eksperimentalnih filmova i iskustava virtuelne stvarnosti, program festivala odražava širok spektar kinematografskog stvaralaštva.

Otkrivanje i negovanje novih talenata

Jedna od osnovnih karakteristika festivala je njegov naglasak na otkrivanju. Sandens

je poznat po otkrivanju skrivenih dragulja i lansiranju karijera. Kulturni filmovi kao što su "Ulični psi" (Reservoir Dogs), "Mala mis Sanšajn" (Little Miss Sunshine) i "Ritam ludila" (Whiplash) su debitovali na Sandens festivalu, i vinuli svoje reditelje, Kventina Tarantina, Džonatana Dejtona, Valeri Faris i Demijena Šazela, u zvezde. Posvećenost festivala negovanju novih talenata odigrala je

ključnu ulogu u oblikovanju pejzaža savremenog filmskog stvaralaštva.

Sandens laboratorije

Najiščekivaniji događaji na festivalu su Sandens laboratorije, koje filmskim stvaraocima pružaju podsticajno okruženje u kojem mogu da razvijaju svoje projekte. Laboratorije filmskim stvaraocima pružaju neprocenjivo vredno mentorstvo, resurse i savete od iskusnih profesionalaca. Ovakvo podsticajno okruženje ohrabruje na preuzimanje rizika i eksperimentisanje, omogućavajući filmskim stvaraocima da pomeraju granice i istražuju nove tehnike pripovedanja.

Promovisanje glasova i priča koji se ne čuju

Filmski festival Sandens nije samo proslava kinematografije; on je takođe i platforma za unapređenje važnih društvenih i kulturnih dijaloga. Festival ima dugu istoriju promovisanja različitih glasova i priča koje se često ne čuju u mejnstrim kinematografiji. Sandens je bio ključan u pokretanju karijera nedovoljno zastupljenih filmskih stvaralaca, uključujući žene, ljude drugih rasa i pripadnike LGBTQ+ zajednice. Kroz svoje filmove, ovi umetnici bacaju svetlo na goruća društvena pitanja, preispituju preovlađujuće narative i pokreću smislen dijalog.

Sandens "New Frontier" program

Poslednjih godina, festival je takođe prihvatio i tehnologiju i nove medije. Sandens program "New Frontier" prikazuje inovativne radove koji eksperimentišu sa

imerzivnim pripovedanjem, virtuelnom realnošću, proširenom stvarnošću i drugim medijima u povozu. Ovo istraživanje ukrštanja umetnosti i tehnologije pomera granice tradicionalnog filmskog stvaralaštva i pruža platformu za revolucionarna iskustva pripovedanja.

Uticao Sandens festivala

Uticao filmskog festivala Sandens seže daleko dalje od njegovog desetodnevog trajanja. Filmovi koji se premijerno prikazuju na Sandensu često dobijaju pohvalne kritike, osvajaju nagrade i dobijaju ugovore o distribuciji koji omogućavaju da ovi nezavisni glasovi dopru do šire publike. Uticao festivala na filmsku industriju ne može se preceniti, jer on nastavlja da se zalaže za nezavisne filmske stvaraoce, podstiče na kreativnost i oblikuje budućnost kinematografije.

Nezaboravno iskustvo

Za filmske entuzijaste i profesionalce iz sveta filma, učestvovanje na Sandens filmskom festivalu predstavlja nezaboravno iskustvo. Od opipljive energije i uzbudljive atmosfere do mogućnosti otkrivanja revolucionarnih filmova i druženja sa vizionarskim umetnicima, Sandens nudi jedinstvenu i impresivnu proslavu filmske umetnosti.

Dom umetničke slobode, različitosti i nezavisnog pripovedanja
Sandens filmski festival nastavlja da evoluira i prilagođava se promenljivom pejzažu filmske industrije i Sostaje posvećen svojim osnovnim vrednostima umetničke slobode, raznolikosti i nezavisnog pripovedanja. On nastavlja da bude svetionik inspiracije, osvetljavajući moć bioskopa da zabavi, obrazuje i podstakne na razmišljanje.

CELEBRATING INDEPENDENT CINEMA: THE SUNDANCE FILM FESTIVAL

Every year, the film industry converges in the picturesque town of Park City, Utah, for a celebration of creativity, storytelling, and independent cinema. The Sundance Film Festival, founded by Robert Redford in 1978, has become one of the most prestigious and influential film festivals in the world.

Commitment to Independent Cinema

Spanning over ten days each January, this annual event showcases a diverse selection of thought-provoking films, launches the careers of emerging filmmakers, and fosters a vibrant community of artists and film enthusiasts. The Sundance Film Festival is renowned for its commitment to independent cinema, providing a platform for filmmakers to share their unique visions and voices with a global audience. From compelling documentaries and innovative narratives to experimental films and virtual reality experiences, the festival's programming reflects the wide spectrum of cinematic artistry.

Discovering and Nurturing Emerging Talent

One of the festival's defining characteristics is its emphasis on discovery. Sundance has a track record of unearthing hidden gems and launching careers. Iconic films like "Reservoir Dogs," "Little Miss Sunshine," and "Whiplash" all made their debut at Sundance, propelling their respective directors, Quentin Tarantino, Jonathan Dayton, Valerie Faris, and Damien Chazelle, into the spotlight. The festival's dedication to nurturing emerging talent has played a vital role in shaping the landscape of contemporary filmmaking.

Sundance Labs

The festival's most anticipated events are the Sundance Labs, which provide a supportive environment for filmmakers to develop their projects. The Labs offer filmmakers invaluable mentorship, resources, and feedback from experienced professionals. This nurturing environment encourages risk-taking and experimentation, allowing filmmakers to push boundaries and explore new storytelling techniques.

Promoting Unheard Voices and Stories

The Sundance Film Festival is not just a celebration of cinema; it is also a platform for advancing important social and cultural conversations. The festival has a long history of promoting diverse voices and stories that often go unheard in mainstream cinema. Sundance has been instrumental in launching the careers of underrepresented filmmakers, including women, people of color, and members of the LGBTQ+

community. Through their films, these artists shed light on pressing social issues, challenge prevailing narratives, and spark meaningful dialogue.

The Sundance New Frontier Program

In recent years, the festival has also embraced technology and new media. The Sundance New Frontier program showcases innovative works that experiment with immersive storytelling, virtual reality, augmented reality, and other emerging mediums. This exploration of the intersection between art and technology pushes the boundaries of traditional filmmaking and provides a platform for groundbreaking storytelling experiences.

The Sundance Influence

The Sundance Film Festival's influence extends far beyond its ten-day duration. The films that premiere at Sundance often go on to receive critical acclaim, garner awards, and secure distribution deals, ensuring that these independent voices reach a wider audience. The festival's impact on the film industry cannot be overstated, as it continues to champion independent filmmakers, inspire creativity, and shape the future of cinema.

An Unforgettable Experience

For film enthusiasts and industry professionals alike, attending the Sundance Film Festival is an unforgettable experience. From the palpable energy and excitement in the air to the opportunity to discover groundbreaking films and engage with visionary artists, Sundance offers a unique and immersive celebration of the art of cinema.

Home to Artistic Freedom, Diversity, and Independent Storytelling

As the Sundance Film Festival continues to evolve and adapt to the ever-changing landscape of the film industry, it remains committed to its core values of artistic freedom, diversity, and independent storytelling. It continues to be a beacon of inspiration, shining a spotlight on the power of cinema to entertain, educate, and provoke thought.

MILOŠ KRASIĆ: FUDBALSKI AS

Miloš Krasić je poznat srpski fudbaler koji je tokom svoje karijere stekao reputaciju talentovanog i uspešnog igrača. Rođen je 1. novembra 1984. godine u Mitrovici. Igrao na poziciji krilnog igrača i poznat je po svojoj brzini, driblingu i odličnom udarcu desnom nogom. Krasić je započeo svoju profesionalnu karijeru u Srbiji, a igrao je i za slavni Juventus, CSKA Moskva, Fenerbahçe, francusku Bastiju i poljsku Lehiju. Danas, nakon završetka karijere, Miloš uživa u miru i sećanjima koja je ostavio za sobom.

VOŠA U SRCU, ALI I PARTIZAN!

Mnogi se sećaju kako se viorila Miloševa plava kosa kada hita po krilu, a ona je i danas zaštitni znak Krasića. Bio je fenomenalan fudbaler, a nakon što ga više nema na terenima - slabo ga srećemo i u javnosti. Imao je samo 14 godina kada se iz Kosovske Mitrovice preselio u Novi Sad. Odjednom sve novo. Grad, okruženje, način života. Bio je otkrovenje sezone. Tajni adut mlade reprezentacije na putu ka Evropskom prvenstvu u Nemačkoj. Kaže nam da je kao dete, navijao za Partizan:

"Ovo niko ne zna, ali ja sam kao mali navijao za Partizan. Ipak, čim sam došao u Novi Sad, zavoleo sam grad, klub, navijače i moje srce je počelo da kuca samo za Vojvodinu. Bila je to ljubav na prvi pogled. Svi su me prihvatili kao svoje dete, pomogli mi da se afirmišem kao fudbaler i da postanem čovek. U tom periodu, pominjala se i kombinacija sa Crvenom zvezdom. Muslin je bio trener, ali nije došlo do konkretnog razgovora. CSKA mi u prvi mah nije delovala primamljivo, jer ruska liga u to vreme nije bila na nekom visokom nivou. Ipak Bojan i Lane su me ubedili da je to idealna sredina za dalji razvoj karijere, ja sam ih poslušao i odleteo za Moskvu", priseća se Krasić.

Dodaje i da mu je i tada sve bilo čudno:

"Nestvarno. Dva meseca nakon dolaska iz Vojvodine, igrao sam na Stamford Bridžu protiv Čelzija. Mislio sam da sanjam. Kao da su me ubacili u neku ogromnu loptu i šutnuli na Mars. Imao sam sreću da upoznam dva divna momka, Ivicu Olića i Elvira Rahimića. Njihove porodice su me prihvatile

kao najrođenijeg, pomogle mi da se snađem i adaptiram na novu sredinu. Osećao sam se kao kod svoje kuće, imao sam utisak da sam se iz Novog Sada preselio u Indiju, a ne u daleku Moskvu".

Prema njegovim rečima u najvećoj uspomeni mu je ostalo igranje sa igračim koji su osvajali titulu svetskog šampiona poput Bufona, Groso, Del Pjera, Tonia, Jakvinta, Pirla, jer su svi su zračili nekom posebnom energijom.

Karijera Miloša Krasića bila je ispunjena usponima i padovima, ali bez sumnje je ostavio trajan pečat na fudbalskoj sceni i

srpskom sportu. I dok navijači i dalje pamte njegove neverovatne poteze i brzinu na terenu, Miloš Krasić danas uživa u privatnosti i zahvalan je na svemu što mu je fudbal pružio.

Na pitanje o daljim planovima, Miloš je sa osmehom rekao da veruje da je njegova sportska karijera završena, ali da nikada ne zna šta donosi budućnost. Sa ponosom ističe da je među najmlađim penzionerima među bivšim reprezentativcima Srbije i da će se videti šta donosi naredni period.

"Za sada samo kafica i ponekad mali fudbal. Za šah i domine ima vremena", kazao nam je on na kraju.

MILOS KRASIC: A FOOTBALL STAR

Milos Krasic is a well-known Serbian football player who gained a reputation as a talented and successful player during his career. He was born on November 1, 1984 year in Mitrovica. Played as a winger and is known for his speed, dribbling and excellent right foot shot. Krasic started his professional career in Serbia, and he also played for Juventus, CSKA Moscow, Fenerbahce, French Bastia and Polish Lechia. Today, after the end of his career, Milos enjoys the peace and memories he left behind.

Krasić je svoje fudbalske korake započeo u svom rodnom mestu, Kosovskoj Mitrovici, a već sa četrnaest godina prešao je u Novi Sad i zaigrao za Vojvodinu, gde se istakao svojim raskošnim talentom. Nakon sjajnih igara, CSKA Moskva je prepoznala njegov potencijal i 2004. godine ga dovela u redove svog tima. Miloš je za ruski klub igrao šest sezona, odigrao čak 150 utakmica i postigao 26 golova. Svoj uspeh u CSKA-u nastavio je i u reprezentaciji Srbije, gde je postao ključni igrač u generaciji koju je predvodio selektor Radomir Antić.

Najuspešniji period njegove karijere bio je u CSKA Moskvi, gde je igrao od 2004. do 2010. godine. Tokom tog perioda, CSKA Moskva je osvojila nekoliko važnih trofeja, uključujući UEFA Kup 2004-2005. Krasić je imao ključnu ulogu u tim uspesima i stekao je reputaciju jednog od najboljih krilnih igrača u Evropi.

Nakon kratkotrajnog boravka u Juventus, Krasić je 2012. godine prešao u francuski klub Bastia, a kasnije je igrao za Fenerbahçe u Turskoj. Pored klupskih nastupa, Krasić je takođe bio redovan član srpske reprezentacije, za koju je igrao od 2006. do 2012. godine. Učestvovao je na Evropskom prvenstvu 2008. i Svetskom prvenstvu 2010. godine.

VOSA IN HEART, AS WELL AS PARTIZAN!

Many people remember how Milos's blond hair fluttered when he ran on the wing, and it is still Krasic's trademark today. He was a phenomenal football player, and after he is no longer on the field - we rarely see him in public. He was only 14 years old when he moved from Kosovska Mitrovica to Novi Sad. Suddenly everything is new. City, environment, way of life. He was the revelation of the season. The secret asset of the young national team on the way to the European Championship in Germany. He tells us that as a child, he supported Partizan: "No one knows this, but I was a fan of Partizan as a child. However, as soon as I came to Novi Sad, I fell in love with the city, the club, the fans and my heart started beating only for Vojvodina. It was love at first sight. Everyone accepted me as their own child, helped me assert myself as a footballer and become a man. During that period, a combination with Red Star was also mentioned. Muslin was the coach, but there was no concrete conversation. CSKA did not seem tempting to me at first, because the Russian league was not at a high level at the time. However, Bojan and Lane convinced me that it was an ideal environment for further career development, so I listened to them and flew to Moscow," recalls Krasic.

He adds that even then everything was strange to him:

"Unreal. Two months after arriving from Vojvodina, I played at Stamford Bridge against Chelsea. I thought I was dreaming. It was as if I had been thrown into a huge ball and kicked to Mars. I was lucky enough to meet two wonderful guys, Ivica Olic and Elvir Rahimic. Their families accepted me as the youngest, helped me to find my way and adapt to the new environment. I felt like I was at home, I had the impression that I had moved from Novi Sad to Indija, but not to a distant Moscow". According to his words, his greatest memory is playing with players who won the World Champion title such as Buffon, Grosso, Del Piera, Toni, Gaiquinto, Pirlo, because they all radiated a special energy.

Milos Krasic's career was filled with ups and

downs, but without a doubt he left a lasting impression on the football scene and Serbian sports. While the fans still remember his incredible moves and speed on the field, Milos Krasic today enjoys his privacy and is grateful for everything that football has given him. When asked about his future plans, Milos said with a smile that he believes his sports career is over, but that he never knows what the future brings. He proudly points out that he is among the youngest retirees among former Serbian national team players and that it will be seen what the next period brings. "For now, only coffee and sometimes indoor soccer. There is still time for chess and dominoes," he told us at the end.

Krasic started his football career in his hometown, Kosovska Mitrovica, and already at the age of fourteen moved to Novi Sad and played for Vojvodina, where he stood out with his magnificent talent. After great games, CSKA Moscow recognized his potential and brought him to their team in 2004. Milos played for the Russian club for six seasons, he played as many as 150 games and scored 26 goals. He continued his success in CSKA in the Serbian national team, where he became a key player in the generation led by coach Radomir Antić.

The most successful period of his career was in CSKA Moscow, where he played from 2004 to 2010. During that period, CSKA Moscow won several important trophies, including the 2004-2005 UEFA Cup. Krasic played a key role in those successes and earned a reputation as one of the best wing players in Europe. After a short stay at Juventus, Krasic moved to the French club Bastia in 2012, and later played for Fenerbahçe in Turkey. In addition to club performances, Krasic was also a regular member of the Serbian national team, for which he played from 2006 to 2012. He participated in the European Championship in 2008 and the World Championship in 2010.

ISTRAŽIVAJUĆI EPLOVE PAMETNE NAOČARE PROŠIRENE STVARNOSTI: EVO ŠTA ZNAMO DO SADA

O Eplovim naočari-
ma se već neko vreme
spekuliše, i dok su de-
talji još uvek ograniče-
ni, potencijal ovih
pametnih naočara
proširene stvarnosti da
redefinišu uređaje koji
se nose na telu je zaok-
upio maštu tehnoloških
entuzijasta. Iako se
zvanično lansiranje
očekuje tek za nekoliko
godina, nedavni pomaci
u razvoju Apple Vision
Pro naočara daju na-
goveštaje šta možemo
očekivati od budućih
Eplovih naočara.

Nagađanja o datumu izlaska: Strpljenje je ključno

Na žalost, izgleda da ćemo morati još neko vreme da pričekamo dok se Eplove naočare ne nađu na tržištu. Nedavno predstavljanje Vision Pro VR/AR naočara na WWDC konferenciji (Apple Worldwide Developers Conference) 2023 je izazvalo uzbuđenje, ali nije bilo pomena Eplovih naočara. Neki analitičari predviđaju potencijalno puštanje u prodaju 2026. godine, imajući u vidu vreme neophodno za proizvodnju naprednih meta sočiva za koje se očekuje da će biti ključna komponenta. Drugi pak imaju optimističnija predviđanja, sugerišući potencijalan datum izlaska do kraja 2025.

Očekivane cene: Pristupačna dostupnost

Kruže nagađanja o ceni Epl naočara, a prema glasinama cena bi mogla biti 499 dolara (bez troškova za izdavanje recepta). U poređenju sa konkurentskim naočarima proširene stvarnosti kao što su Microsoft HoloLens 2 ili same Eplove Vision Pro, ova cena deluje relativno nisko. Pošto će se Epl naočare prilikom obrade podataka oslanjati na prateći iPhone, imaće manje delova i biće manje složene od samostalnih naočara.

Ovaj pristup je sličan Vuzix Blade pametnim naočarima, koje dolaze sa ugrađenom kamerom i integrisanom Alexom. Međutim, važno je napomenuti da su ove potencijalne cene podložne promenama kako bude stizalo više informacija.

Karakteristike i sposobnosti: proširivanje mogućnosti

Očekuje se da će Eplove naočare prenositi informacije sa vašeg telefona direktno u vaše vidno polje, sinhronizujući se sa vašim iPhone-om za prikaz tekstova, e-mailova, mapa, igara i još mnogo toga. Epl planira da podrži aplikacije trećih strana a moguće je i da će uvesti namensku prodavnicu aplikacija, sličnu Epl TV i Epl Watch ekosistemima. Na osnovu patenata može se zaključiti da se Epl naočare mogu automatski prilagoditi osobama sa narušenim vidom, što potencijalno može eliminisati potrebu za sočivima na recept. A tu je i još jedan intrigantan patent

koji nagoveštava sistem zasnovan na projekciji koji emituje slike direktno u oko korisnika, eliminišući potrebu za transparentnim ekranom.

Dizajn i udobnost: kombinacija stila i funkcionalnosti

Prema navodima, trenutni prototip Epl naočara ima skroman par plastičnih naočara, sa marketinškim materijalima koji podsećaju na dizajn naočara Klarka Kenta (aka Supermana). Naočare dolaze sa skenerom LiDAR (detekcija i domet svetlosti) na desnoj slepoočnici, dok su dodatne kamere uklonjene usled brige o privatnosti. Epl nastoji da kreira udoban dizajn pogodan za svakodnevnu upotrebu, iako naočare možda neće biti

tako lagane kao modne naočare za sunce. Trenutno ne postoje planovi za različite boje, ali kako se proizvod bude razvijao, Epl može proširiti svoju ponudu kako bi uključio različite stilove.

Privatnost i patenti: zaštita korisničkog iskustva

Epl aktivno istražuje različite pristupe kako bi osigurao privatnost i transparentnost u vezi sa mogućnostima snimanja Epl naočarima. Patenti predlažu opcije kao što su uklonjivi moduli kamere, lampica koja se upali kada kamera snima i obrasci šifrovanja za onemogućavanje snimanja ukoliko nisu ispunjeni određeni uslovi. Eplova posvećenost zaštiti privatnosti korisnika i rešavanju zabrinutosti oko snimanja na javnim prostorima je očigledna u njihovim podnescima patenata.

Nestrpljivo iščekujući budućnost Epl naočara

Iako se zvanični izlazak Epl naočara očekuje za još nekoliko godina, glasine i patenti pružaju uvid u potencijal ovih futurističkih pametnih naočara. Sa različitim mogućnostima proširene stvarnosti, elegantnim dizajnom i funkcijama koje vode računa o privatnosti, Epl naočare imaju potencijal da revolucionišu tehnološke uređaje koji se nose na telu. Dok željno iščekujemo više informacija, očigledno je da Epl marljivo radi na stvaranju ubedljivog i inovativnog proizvoda koji se neprimetno integriše u naše digitalne živote.

EXPLORING APPLE'S AUGMENTED REALITY SMART GLASSES: WHAT WE KNOW SO FAR

Apple Glasses have been a subject of speculation for some time, and while details are still limited, the potential for these augmented reality smart glasses to redefine wearable computing has captured the imagination of tech enthusiasts. Although the official launch is still a few years away, recent developments surrounding the Apple Vision Pro headset provide hints about what we can expect from the future Apple Glasses.

Release Date Speculations: Patience is Key

Unfortunately, it appears that we have a significant wait ahead before the Apple Glasses hit the market. The recent unveiling of the Vision Pro VR/AR headset at WWDC 2023 (Apple Worldwide Developers Conference) generated excitement, but there was no mention of the Apple Glasses. Some analysts predict a potential release in 2026, considering the production timeline for the advanced metalenses that are expected to be a key component. However, others offer a more optimistic outlook, suggesting a potential release by the end of 2025.

Price Expectations: Affordable Accessibility

Speculations about the price of Apple Glasses have been circulating, with rumors suggesting a price point of \$499 (excluding prescription fees). Compared to competing augmented reality headsets like the Microsoft HoloLens 2 or Apple's own Vision Pro, this price seems relatively low. Since the Apple Glasses will rely on a companion iPhone for processing, they will have fewer parts and less complexity than standalone headsets. This approach is similar to the Vuzix Blade smart glasses, which come with a built-in camera and Alexa integration. However, it's important to note that these price speculations are subject to change as more information becomes available.

Features and Capabilities: Expanding Possibilities

Apple Glasses are expected to bring information from your phone directly into your field of vision, synchronizing with your iPhone to display texts, emails, maps, games, and more. Apple plans to support third-party apps and may introduce a dedicated app store, similar to the Apple TV and Apple Watch ecosystems. Patents suggest that Apple Glasses may automatically adjust for people with poor eyesight, potentially eliminating the need for prescription lenses. Another intriguing patent hints at a projection-based system that beams images directly into the user's

eye, removing the necessity for a transparent display.

Design and Comfort: Blending Style and Function

Reports indicate that the current Apple Glasses prototype features an unassuming pair of plastic glasses, with marketing materials suggesting a design reminiscent of Clark Kent's (aka Superman) glasses. The glasses come with a LiDAR (Light Detection and Ranging) scanner on the right temple, while privacy concerns have led to the exclusion of additional cameras. Apple aims to create a comfortable design suitable for everyday use, although the glasses may not be as lightweight as fashion sunglasses. Currently, there are no plans for tinted variations, but as the product evolves, Apple may expand its offerings to include different styles.

Privacy and Patents: Protecting User Experience

Apple has been actively exploring various approaches to ensure privacy and transparency regarding the recording capabilities of Apple Glasses. Patents suggest options such as removable camera modules, lights indicating recording status, and encryption patterns to disable recording when specific conditions are not met. Apple's commitment to protecting user privacy and addressing concerns about recording in public spaces is evident in their patent filings.

Eagerly Awaiting the Future of Apple Glasses While the official release of Apple Glasses is still a few years away, the rumors and patents provide a glimpse into the potential of these futuristic smart glasses. With their blend of augmented reality capabilities, sleek design, and privacy-focused features, Apple Glasses have the potential to revolutionize wearable technology. As we eagerly await more information, it's evident that Apple is diligently working to create a compelling and innovative product that seamlessly integrates with our digital lives.

DOKUFEST I PROJEKAT "KAKO TE VIDIM" - SPAJANJE KROZ UMETNOST I KULTURU NA BALKANU

Ismailj Murselji i Milica Brzaković

U srcu Balkana, grad Prizren svake godine u avgustu postaje epicentar svetskog filmskog i muzičkog zbivanja. To je vreme kada se održava DokuFest, Međunarodni festival dokumentarnog i kratkometražnog filma, koji s ponosom nosi titulu najvećeg filmskog festivala na Kosovu. DokuFest je mnogo više od običnog filmskog festivala. To je doživljaj, spoj umetnosti, kulture, edukacije i zabave koji privlači filmske entuzijaste, umetnike i posetioce iz celog sveta. Prepoznat je kao jedan od najboljih filmskih i muzičkih događaja u jugoistočnoj Evropi, pa privlači pažnju svojom raznovrsnom i kvalitetnom selekcijom kratkih filmova.

Ipak, DokuFest nije samo festival o filmovima. On nosi sa sobom bogat i raznovrstan program koji uključuje izložbe dokumentarnih fotografija, debate, radionice i koncerte. Atmosfera tokom festivala je jedinstvena -

organizovane izložbe i radionice, čime je stvoren prostor za dijalog i razmenu između učesnika. "DokuFest je centralna tačka projekta, sa organizacijom kampova i izložbi kako na Kosovu, tako i u Srbiji. Učesnici su imali priliku da se povežu, razmene iskustva i stvaraju video portrete o svojim vršnjacima. Ova kreativna razmena je doprinela identifikaciji zajedničkih tačaka i širenju razumevanja među mladima", kazala je Dželjadini. Ona dodaje da su umetnost i kultura pokazale kao snažni alati za iprevaziženje predrasuda. Prema njenim rečima, projekat "Kako te vidim" je svetla tačka na Balkanu, koji ukazuje na važnost kreativnog pristupa za postizanje mira i saradnje među zajednicama.

Zana Arapi Dželjadini

ulice Prizrena preplavljaju posetioci, umetnici i muzičari, a čitav grad postaje umetnička scena. DokuFest je više od događaja - to je kulturni fenomen, simbol jedinstva i kreativnosti. Njegova važnost prevazilazi granice umetnosti i filma, ostavljajući neizbrisivi trag i put ka razumevanju, inspiraciji i promeni.

Zana Arapi Dželjadini (Xheladini), rukovodilac projekta "Kako te vidim", podelila je sa Magazinom 4You, inspirativnu priču o trogodišnjem projektu koji je sproveden u saradnji sa DokuFestom, fondom B92 i Festivalom Slobodna zona u Srbiji, a finansiran od strane Kancelarije Evropske unije na Kosovu.

Projekat je započeo 2020. godine i njegova suština leži u organizaciji četiri interkulturalna kampa, sa ciljem povezivanja mladih sa Kosova i iz Srbije. Kroz ove kampove su

Povezivanje kroz dijalog i razumevanje

Fjola Muharremi je iz Mitrovice, ali trenutno živi u Londonu. Učesnik je projekta "Kako te vidim". Ističe svoje

iskustvo života u inostranstvu, gde je navikala na interakciju s ljudima različitih porekla i kultura. Kroz učešće u ovom projektu, Fjola je imala priliku da razgovara sa svojim vršnjacima iz Srbije, da čuje njihove priče i da razbije predrasude koje su često prisutne u medijima. "Umetnost nema granica. Ona nas spaja i uči nas da međusobno poštujemo druge i da ih prihvatamo. DokuFest je odlična prilika da upoznate nove ljude i doživite međuetničko iskustvo", istakla je. Projekat "Kako te vidim" je za nju je otvorio vrata ka otvorenom dijalogu, gde mladi mogu da razgovaraju bez osuđivanja i da stvore prostor za razumevanje i toleranciju.

Putevi ka boljem razumevanju

Poput Fjole i Ismailj Murselji (Ismail Murseli), podelio je sa Magazinom 4You svoje razmišljanje o umetnosti i kulturi i njihovoj moći da transformišu društvo na bolje.

On ističe važnost pričanja priča i komunikacije, kao ključnih elemenata za smanjenje distanci među ljudima. Kazao nam je da mu je učestvovanje u događaju poput DokuFesta obogatilo život, omogućivši mu da upozna ljude iz različitih zajednica. "Dijalog, razmena priča i međusobno razumevanje su ključni koraci ka stvaranju zdravijeg i povezanijeg društva. Umetnost nas spaja i podučava o međusobnom poštovanju i prihvatanju" istakao je Murselji.

Otkrivanje lepote umetnosti i prijateljstva

Milica Brzaković iz Beograda takođe je sa nama podelila svoje oduševljenje kroz učešće u ovom projektu. Naglašava da su se njeni stavovi menjali kroz interakciju sa ljudima i udaljavanje od medijskih narativa i politike. Umesto toga, usmerila se ka umetnosti i filmu kao sredstvima izražavanja osećanja, problema i mišljenja. Njeno iskustvo na DokuFestu, gde je upoznala ljude različitog porekla i osetila snagu zajedništva, dodatno potvrđuje moć umetnosti i kulture u spajanju i učenju o međusobnom poštovanju. Iz tog razloga poručila je mladima da pristupaju ljudima s otvorenim srcem, ističući vrednost poverenja prema svetu oko sebe.

"Moja poruka mladima je da budu hrabri i da budu radoznali i da budu nežniji prema drugima, nežniji prema prema sebi i da otvorenog srea pristupaju ljudima, kao i da imaju više poverenja u svet koji ih okružuje", istakla je Brzaković. Ovom porukom, ona nas podseća na važnost otvorenosti, hrabrosti i poverenja i doprinosi podržavanju boljeg i raznolikijeg sveta, a mi smo se uverili da u Prizrenu, tokom DokuFest-a takav svet može da stvarno i postoji.

DOKUFEST AND "HOW I SEE YOU" PROJECT - CONNECTION THROUGH ART AND CULTURE IN THE BALKANS

Every year in August, in the heart of the Balkans, the city of Prizren becomes the global film and music hub. This is the time when DokuFest, International Festival of Documentary and Short Films, which proudly holds the title of the largest film festival in Kosovo, takes place. DokuFest is much more than just an ordinary festival. It is an experience, a fusion of art, culture, education, and entertainment that attracts film enthusiasts, artists, and visitors from all over the world. It has been recognized as one of the top film and music events in southeast Europe, therefore it draws attention with its diverse and high-quality selection of short films.

Nevertheless, DokuFest is not just a film festival. It features a rich and diverse program, including documentary photography exhibitions, debates, workshops, concerts. There is a unique atmosphere during the festival – Prizren's streets are flooded with visitors, artists and musicians, and the entire city becomes an art scene. DokuFest is more than an event - it is a cultural phenomenon, a symbol of unity and creativity. Its importance goes beyond the boundaries of art and film, leaving an indelible mark and a path towards understanding, inspiration and change.

Zana Arapi Xheladini, manager of the "How I See You" project, shared with the 4You Magazine an inspiring story about a three-year project that was implemented in cooperation with the DokuFest, the B92 fund and the Free Zone Festival in Serbia, which was funded by the European Union Office in Kosovo.

The project that began in 2020 has at the heart four intercultural camps, organized with the aim of connecting young people from Kosovo and Serbia. Exhibitions and workshops were organized as part of these camps, thereby creating the space for dialogue and exchange between the participants. Xheladini stated, "DokuFest is the focal part of the project, with the organization of camps and exhibitions both in Kosovo and in Serbia. The participants had the opportunity to connect, share experiences and create video portraits of their peers. This creative exchange helped identify the common points and spread understanding between the youth." She added that art and culture have proven to be powerful tools for overcoming prejudices. According to her, the "How I See You" project is a bright spot in the Balkans, which indicates the importance of a creative approach to achieving peace and cooperation between the communities.

Connecting through dialogue and understanding

Fjolla Muharremi is a native of Mitrovica, but she currently lives in London. She is a participant of the "How I See You" project. She highlights her experience of living abroad, where she is accustomed to interacting with people of different backgrounds and cultures. Through participation in this project, Fjolla had the opportunity to speak with her peers from Serbia, to hear their stories and to disregard the prejudices that are often

present in the media. "Art has no boundaries. It brings us together and teaches us to respect and accept each other. DokuFest is a great opportunity to meet new people and have an inter-ethnic experience," she said. For her, the "How I See You" project opened the door to an open dialogue, where young people can talk without judgment and create space for understanding and tolerance.

Roads towards better understanding

Like Fjolla, Ismail Murseli also shared with the 4You Magazine his thoughts on art and culture and their power to transform the society for the better. He highlights the importance of telling stories and communicating as key elements for reducing the distance between people. He told us that participating in an event like DokuFest has enriched his life, allowing him to meet people from different communities. Murseli underscored that "Dialogue, sharing stories and mutual understanding are key steps towards creating a healthier and more cohesive society. Art brings us together and teaches us about mutual respect and acceptance."

Discovering beauty of art and friendship Milica Brzakovic from Belgrade also shared with us her enthusiasm for participating in this project. She noted that her attitudes have changed through interaction with people and moved away from media narratives and politics. Instead, she focused on art and film as means of expressing feelings, problems, and opinions. Her experience at DokuFest, where she met people of different backgrounds and felt the power of community, further confirms the power of art and culture in bringing people together and learning about mutual respect. Therefore, she told the youth to approach people with an open heart, emphasizing the value of trust in the world around them.

Brzakovic stated, "My message to young people is to be brave and to be curious and to be gentler towards others, gentler towards themselves and to approach people with an open heart, as well as to have more confidence in the world around them." With this message, she reminds us of the importance of frankness, courage, and trust in contributing to support a better and more diverse world, and we saw for ourselves that in Prizren, during DokuFest, such a world can really exist.

VAŠE MIŠLJENJE O VOĆU?

GABRIJELA RODIĆ

Šta mislite o voću i zašto je voće važno?

Ja uopšteno volim da jedem voće, prvenstveno zbog ukusa ali i zbog vitamina kojih ima u voću. Vitamini su potrebni našem organizmu, zato je potrebno da imamo raznovrsnu ishranu. Voće i povrće su svakako važni zbog toga.

Koje voće najviše volite i zašto?

Moje omiljeno voće su jagode. Obožavam ukus prvih jagoda, imaju sladak ukus i zato su meni omiljene. Takođe, ovo sočno, crveno voće bogato je vlaknima, vodom i mnogim vitaminima. Sa druge strane, moje omiljeno povrće je brokoli.

Koje voće najmanje volite i zašto?

Najmanje od voća volim da jedem grožđe. Mogu slobodno da kažem da ga uopšte ne volim, nikako. Bilo koje grožđe, ni belo ni crno. Ne volim grožđe zbog onih sitnih semenka koje se mogu naći u grozdovima.

What do you think about fruits and why are fruits important?

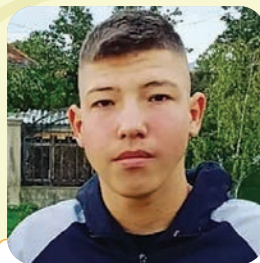

In general, I like to eat fruits, primarily because of the taste, but also because of the vitamins that are in them. Our body needs vitamins, that's why we need to have a varied diet. Fruits and vegetables are certainly important for that.

Which fruit do you like the most and why?

My favorite fruit are strawberries. I love the taste of the first strawberries, they have a sweet taste and that's why they are my favorite. Also, this juicy, red fruit is rich in fiber, water and many vitamins. On the other hand, my favorite vegetable is broccoli.

What fruit do you like least and why?

I like to eat grapes the least of the fruits. I can freely say that I do not like it at all, not at all. Any grape, neither white nor black. I don't like grapes because of those tiny seeds that can be found in bunches.

ANDRIJA AKSIĆ

Šta mislite o voću i zašto je voće važno?

Mislim da je voće vrlo zdravo. Ja jedem voće svakodnevno. U samom voću nalaze se hranljive materije. Takođe, voće sadrži vitamine i minerale koju su nam neophodne za održavanje zdravlje. Samo voće je izuzetno važno kao i njegova uloga u zdravoj i balansiranoj ishrani.

Koje voće najviše volite i zašto?

Najviše volim da jedem jabuke. To mi je nekako domaće voće, koje me uvek zasladi. Volim razne vrste jabuke, volim i zelene i zrele. Volim i one koje imaju kiselkast ukus ali i one slatke. Ovu ljubav prema jabukama sam nasleđio od svoje bake.

Koje voće najmanje volite i zašto?

Najmanje volim da jedem limun. Ovaj citrus je sa sigurnošću moje najneomiljenije voće. Posebno zbog svog kiselog ukusa. Mada, moram da budem iskren, da se po nekada desi da popijem limunadu ali zasladeću šećerom. Limun ne volim nikako drugačije.

What do you think about fruits and why are fruits important?

I think fruits are very healthy. I eat fruit every day. There are nutrients in fruits. Also, fruits contain vitamins and minerals that are necessary for us to maintain health. Fruit itself is extremely important as is its role in a healthy and balanced diet.

Which fruit do you like the most and why?

I like to eat apples the most. It's kind of my native fruit, which always sweetens me. I like different kinds of apples; I like both green and ripe ones. I like those that have a sour taste as well as sweet ones. I inherited this love for apples from my grandmother.

What fruit do you like least and why?

I like eating lemons the least. This citrus is definitely my least favorite fruit. Especially because of its sour taste. Although, I have to be honest, sometimes I drink lemonade, but sweetened with sugar. I don't like lemon any other way.

Molimo vas šalžite vaša razmišljanja o voću na email:
magazineforyou2003@gmail.com

YOUR OPINION ABOUT FRUITS?

MARIJA BRKIĆ

Šta mislite o voću i zašto je voće važno?

Ja mislim da je konzumiranje voća važno za sve ljude. Što se mene lično tiče, ja kao neko ko se bavi sportom, trudim se da imam raznovrsnu ishranu, u koju su uključeni i voće i povrće. Voće je važno zbog minerala i vitamina.

Koje voće najviše volite i zašto?

Najviše volim da jedem banane i jabuke. To je uglavnom zbog ukusa, ali naravno i zbog vitamina i ostalih hranljivih materija koje se nalazi u samom voću. Banane na primer poznate kao voće koje daje puno energije, dok su sa druge strane, jabuke imaju visok udeo vlakana.

Koje voće najmanje volite i zašto?

Ne volim dinje. Mnoge ljude to iznenadi ali iako se kod nas uzgaja nekoliko vrsta dinja, ja ne volim nijednu. Probala sam nekoliko puta i jednostavno taj ukus mi ne prija. Ja čak ni ne volim ni sladoled sa ukusom dinje.

What do you think about fruits and why are fruits important?

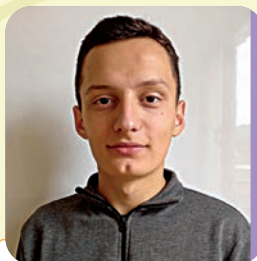

I think that eating fruit is important for all people. As for me personally, as someone who does sports, I try to have a varied diet, which includes fruits and vegetables. Fruit is important for minerals and vitamins.

Which fruit do you like the most and why?

I like to eat bananas and apples the most. This is mainly because of the taste, but of course also because of the vitamins and other nutrients found in these fruits. Bananas, for example, are known as a fruit that gives a lot of energy, while on the other hand, apples have a high proportion of fiber.

What fruit do you like least and why?

I don't like melons. Many people are surprised by this, although there are several types of melons grown here, I don't like any of them. I've tried it several times and I just don't like the taste. I don't even like melon flavored ice cream.

GLIGORIJE TOMAŠEVIĆ

Šta mislite o voću i zašto je voće važno?

Ja mislim da voće izuzetno važno. Posebno zbog svih vitamina, minerala i vlakana koje se nalaze u samom voću. Posebno je važno voće u svakodnevnoj ishrani ljudi i deca, ali je važno i za razvijanje zdravih prehrambenih navika od malena.

Koje voće najviše volite i zašto?

Moje omiljeno voće je trešnja. Volim je od kada sam bio mali. Čak smo imali svoju trešnju u dvorištu do pre par godina. Volim zrele trešnje, njihov sladak i osvežavajući ukus. Jedino ne volim to, što sezona trešanja traje kratko pa ih ne mogu jesti tokom cele godine.

Koje voće najmanje volite i zašto?

Ja najmanje volim da jedem pomorandže i mandarine. Ne volim tu vrstu voća, kao ni njihov ukus. Znam da one obiluju vitaminom C, ali čak ni tada ne mogu da nateram sebe da pojedem po neku. Takođe, kore pomorandže i mandarine su teške za ljuštenje.

What do you think about fruits and why are fruits important?

I think that fruit is extremely important. Especially because of all the vitamins, minerals and fiber found in fruits. Fruit is especially important in the daily diet of people and children, but it is also important for developing healthy eating habits from a young age.

Which fruit do you like the most and why?

My favorite fruit is cherry. I've loved it since I was little. We even had our own cherry tree in the yard until a couple of years ago. I love ripe cherries, their sweet and refreshing taste. The only thing I don't like is that the cherry season is short, so I can't eat them all year round.

What fruit do you like least and why?

I like eating oranges and tangerines the least. I don't like that kind of fruit, and I don't like their taste either. I know they are high in vitamin C, but still I can't force myself to eat some. Also, both of oranges and tangerines are difficult to peel.

Please send us your thoughts on fruits to the following email: magazineforyou2003@gmail.com

IZAZOVI I MOGUĆNOSTI KOJE DONOSI SEPTEMBAR I NOVA ŠKOLSKA GODINA

Neispisane sveske, šarene olovke, miris novih knjiga i uzbuđenje koje lebdi u vazduhu - to su neki od karakterističnih elemenata koji označavaju početak nove školske godine. Dok sunce polako postaje sve slabije, đaci se suočavaju s novim izazovima, ali i prilikama za rast i razvoj. Škola je mesto gde se stiču znanja, grade prijateljstva i oblikuju budući putevi. U ovom članku, istražićemo neke od najčešćih izazova s kojima se vi, naši dragi čitaoci suočavate pri početku nove školske godine, kao i na koji način da ih hrabro prevaziđete...

Septembar je uveliko tu, nova školska godina je počela, mnogi od vas su uzbuđeni, možda i pomalo nervozni zbog promena koje ona donosi. Kako bi se što bolje pripremili i ostvarili uspeh u nadolazećim mesecima, važno je da imate na umu nekoliko praktičnih saveta. Verovatno ste ih već milion puta čuli od vaših nastavnika, profesora i roditelja, ali i mi smo tu da vam ponovimo najvrednije savete, koji će vam pomoći da se najbolje suočite sa novom školskom godinom i iskoristite sve svoje potencijale za što bolje učenje i što veći uspeh u školi.

Organizacija vremena

Jedan od ključnih faktora za uspeh u školi je dobra organizacija vremena. Napravite raspored svakodnevnih aktivnosti koje uključuju vreme za učenje, vežbanje, odmor i druge obaveze. Planiranje pomaže

u održavanju fokusa i sprečavanju stresa.

Postavljanje ciljeva

Tokom početka nove školske godine, postavite realne ciljeve za svaki predmet ili oblast koju želite

koji mu najviše odgovara. Važno je istražiti različite tehnike učenja poput pravljenja beležaka, korišćenja vizuelnih pomagala, grupnog učenja itd. Otkrijte koja tehnika najbolje odgovara vašem stilu učenja i primenite je kako biste efikasno savladali gradivo.

Zdrav životni stil

Fizičko i mentalno zdravlje su od suštinske važnosti za uspeh u školi. Vodite računa o svom zdravlju kroz redovnu fizičku aktivnost, zdravu ishranu i dovoljno sna. Održavanje zdravog životnog stila pruža vam energiju i koncentraciju potrebnu za

poboljšati. Definisane ciljeve pomaže u održavanju motivacije i usmerava vas ka postizanju napretka.

Efikasne tehnike učenja

Svaki đak ima svoj način učenja

uspeh u školi!

Traženje pomoći

Nikada se ne ustručavajte tražiti pomoć kad je potrebna. Nastavnici, roditelji, vršnjaci i ostali, mogu vam pružiti do-

CHALLENGES AND OPPORTUNITIES BROUGHT BY SEPTEMBER AND NEW SCHOOL YEAR

Unwritten notebooks, colorful pencils, the smell of new books and the air of excitement - these are some of the characteristic elements that mark the beginning of a new school year. As the sun slowly gets weaker, the students face new challenges, but also opportunities for growth and development. School is a place where they gain knowledge, build friendships and shape their future paths. In this article, we will explore some of the most common challenges that you, our dear readers, face at the beginning of the new school year, as well as how to bravely overcome them...

datnu podršku i objašnjenja gradiva. Naučite kako da postavljate pitanja i aktivno tražite pomoć kad god vam je potrebna.

Balans između škole i slobodnog vremena

Važno je pronaći ravnotežu između školskih obaveza i slobodnog vremena. Trebate odvojiti vreme za odmor, hobije i društvene aktivnosti kako bi izbegli sagorevanje i održali dobar mentalni balans.

Pozitivan stav

Važno je da zadržite pozitivan stav prema učenju i novim izazovima. Verovanje u sebe i optimizam mogu biti ključni faktori koji će vas motivisati i izgraditi samopouzdanje.

Ukratko, početak nove školske godine donosi vam mnoge mogućnosti za rast i razvoj. Kroz dobru organizaciju vremena, postavljanje ciljeva, korišćenje efikasnih tehnika učenja, brigu o zdravlju, traženje pomoći i održavanje ravnoteže između obaveza i slobodnog vremena, možete postići uspeh i ostvariti svoj puni potencijal. Neka VAM ova školska godina bude vreme za ispunjenje ciljeva, sticanje novih znanja i nezaboravnih iskustava! I naravno želimo vam puno petica, a za sve nedoumice i probleme sa kojima se suočavate, pišite nam na magazineforyou2003@gmail.com!

September is already here, the new school year has started, many of you are excited, maybe even a little nervous about the changes it brings. In order to be best prepared and to succeed in the coming months, it is important to keep a few practical tips in mind. You have probably already heard it a million times from your teachers, professors and parents, but we are also here to repeat the most valuable advice that will help you face the new school year in the best possible way and use all your potentials for better learning and greater achievements in school.

Time management

One of the key factors for success at school is good time management. Create a schedule of daily activities including the time for studying, exercising, rest, and other responsibilities. Planning helps maintain focus and prevent stress.

Goal setting

As the new school year begins, set realistic goals for each subject or field you wish to improve. Defining goals helps keep you motivated and steers you towards making progress.

Effective learning techniques

Every student has their own way of studying that suits them best. It is important to explore different learning techniques such as note-taking, using visual aids, group learning, etc. Find out which technique best suits your learning style and apply it to effectively learn the curriculum.

Healthy lifestyle

Physical and mental health are essential to success at school. Take care of your health

through regular physical activity, a healthy diet and enough sleep. Maintaining a healthy lifestyle gives you the energy and focus you need to succeed in school!

Asking for help

Never hesitate to ask for help when you need it. Teachers, parents, peers and others can give you additional support and explanations of the schoolwork. Learn to ask questions and actively seek help whenever you need it.

Balance between school and leisure

It is important to find balance between schoolwork and leisure. You need to set aside time for rest, hobbies and social activities to avoid burnout and maintain a good mental balance.

A positive attitude

It is important to maintain a positive attitude towards studying and new challenges. Believing in your own ability and optimism can be key factors that will motivate you and build your self-confidence.

In short, the beginning of a new school year brings you many opportunities for growth and development. With good time management, setting goals, using effective study techniques, taking care of your health, seeking help, and maintaining a balance between work and free time, you can achieve success and reach your full potential. May this school year be a time for achieving your goals, acquiring new knowledge and unforgettable experiences! And of course we wish you lots of A's, and for any doubts and problems you face, write to us at magazineforyou2003@gmail.com!

Školska tabla	Tabelë e shkollës
Kreda	Shkumës
Sunder	Shpuzë

Did you
know?

“Obrazovanje je pasoš
za budućnost, jer sutra
pripada onima koji se
za to pripremaju već
danas.”

- Malcom X
