Uvodnik

Dragi čitaoci,

Dok ulazimo u praznični decembar, naša srca su ispunjena toplinom, uzbuđenjem i obećanjem novih početaka. Ovo magično doba godine ne čine samo svetlucavi i svećani ukrasi; to je vreme za razmišljanje, zahvalnost i širenje radosti onima oko nas.

Praznični pozdrav za vas sve! Decembar sa sobom donosi osećaj zajedništva, podsetnik da negujemo veze koje delimo sa porodicom i prijateljima. Vreme je da izrazimo svoju ljubav i zahvalnost, da cenimo trenutke koji su nas oblikovali tokom cele godine. Dok razmenjujemo poklone i smeh, ne zaboravimo da pravi duh ovog doba godine leži u radosti davanja i toplini ljudske povezanosti.

U svetu koji je često ubrzan i haotičan, decembar nam nudi priliku da zastanemo, duboko udahujemo i razmislimo o godini koja je prošla. Proslavimo naša dostignuća, učimo iz naših iskustava i udimo u novu godinu sa obnovljenom nadom i odlučnošću. Svako od vas ima moć da oblikuje svoje putovanje, a decembar je savršen period za postavljanje pozitivnih planova za budućnost.

Život u miru i harmoniji je cilj koji odjekuje među ljudima svih uzrasta, a vi kao tinejdžeri igrate bitnu ulogu u oblikovanju sutrašnjice. Neka ovaj decembar bude podsetnik da ljubav, razumevanje i empatija mogu stvoriti talase pozitivnih promena. Odvojite trenutak da cenite različitost oko sebe, prihvatite različite perspektive i težite jedinstvu. Hajde da u duhu praznika radimo na izgradnji sveta u kome se svi osećaju cenjenim i uključenim.

Život je prelepo putovanje, a decembar je savršen period da uživajte u njegovom bogatstvu. Usred gužve i žurbe, odvojite trenutak da cenite male radosti koje vas okružuju - toplinu udobnog džempera, ukus vrućeg kakaa, zvuk smeha koji odjekuje vazduhom. Prihvatite jednostavnost godišnjeg doba i pronađite radost u malim stvarima koje život čine zaista posebnim.

Dok se opraštamo od još jedne godine, hajde da poneseemo duh decembra sa sobom u budućnost. Neka naredni meseci budu ispunjeni napretkom, otpornošću i trenucima čiste radosti. Bilo da slavite sa porodicom, prijateljima ili istražujete svoj put, zapamtite da imate moć da kreirate život koji vam donosi ispunjenje i sreću.

Želim vam svima srećnu Novu godinu ispunjenu ljubavlju, smehom i čarolijom praznika.

Sa srdačnim pozdravom,

Leonora

PIRIT FEST

LAZAR MILIĆ - *BUDUĆI PREVODILAC*

13-godišnji Lazar Milić dolazi iz Čaglavice i ističe se kao odličan đak Osnovne škole 'Miladin Mitić'. Odmah na početku razgovora kaže nam da mu je engleski omiljeni predmet i da jednog dana planira da bude ili prevodilac ili nastavnik ovog jezika.

udaljenim mestima. Od njega smo čuli da voli da gleda horor filmove, naučnu fantastiku, kao i da voli muziku, posebno strani rep.

Razumevanje prošlosti kroz oči tinejdžera

Od Lazara saznajemo da ga fascinira istorija i da voli da istražuje događaje koji su oblikovali svet. On veruje da razumevanje prošlosti omogućava bolje razumevanje sadašnjosti i oblikovanje budućnosti. "Istorija nije samo niz datuma i činjenica, već priča o ljudima, njihovim odlukama i posledicama koje su proizašle iz tih odluka," dodaje. "Volim istoriju, inspirišu me istorijski događaji. Jednog dana ćemo i mi biti deo istorije, zato se uvek trebamo sećati svega. Istorija je veoma bitna," kaže Lazar dok mu oči blistaju od uzbuđenja.

On dosta vremena provodi čitajući knjige o istorijskim događajima, istražujući online izvore i diskutujući sa svojim prijateljima o

Saznajemo da nakon osnovnog školovanja planira da upiše gimnaziju, a dugoročni cilj mu je fakultet anglistike. Iako mu i matematika ide dobro, Lazar izdvaja jezike kao svoju pravu strast. Kaže nam i da se od drugih vršnjaka izdvaja po posebnom modnom stilu, kao i da svoju kreativnost izražava kroz modu, koja je takođe specifični deo njegove ličnosti.

O Lazaru saznajemo da je jedan je od najaktivnijih, kako na času tako i na slobodnim aktivnostima. Učenik je koji slobodno, bez straha iznosi svoje dileme i postavlja konstruktivna pitanja koja nadograđuju temu koja se obrađuje na času. Kada je na času, on ne čuti već pita ili iznosi svoje mišljenje, inicira diskusiju u kojoj je uvek konstruktivan. Njegovi nastavnici rekli su nam da iako ima samo 13 godina, Lazar gradivu pristupa logički, kao i da je učenik koji je naučio da misli, a ne samo da usvaja činjenično znanje i reprodukuje ga. Ovaj dečak već sada odbacuje klasičan pristup učenju i ističe važnost logike u procesu obrazovanja. "Trudim se da ispunim svoj život, da ne sedim samo kod kuće i da se dosađujem", kaže Lazar, naglašavajući svoju želju za stalnim učenjem.

U slobodno vreme, Lazar se opušta u Gračanici, gde uživa u bioskopu i filmovima. Osim toga, društvene mreže su mu omiljeni način za održavanje veza sa prijateljima koji žive u

značaju prošlih epoha. Sebe vidi kao čuvara sećanja i smatra da je važno prenositi istorijsko znanje na mlađe generacije.

Inovativnost i motivacija – ključevi Lazarevog uspeha

Ovaj 13-godišnjak ima puno ambicioznih planova, a na kraju razgovora poručuje svojim vršnjacima da budu originalni, da ne odustaju od svojih snova i da se trude jer će se naporan rad uvek isplatiti. "Želim da ispunim svoje ciljeve, ali mi je pre svega bitno da budem dobar čovek i da verujem u sebe. Takođe jedan od mojih ciljeva jeste da završim školovanje. Poručujem svima da prate svoje snove i da idu tim putem koji su sebi zadali. Ispunite taj put i cilj, jer svi imamo snage za to. Nemojte dozvoliti da drugi ljudi utiču na vaše mišljenje i budućnost".

Verujemo da će naš sagovornik opravdati sva očekivanja i ispuniti svoje želje, a da će ova priča o Lazaru podstaći buduće školarce na učenje i dostizanje svih ciljeva koje imaju.

LAZAR MILIC

THE FUTURE TRANSLATOR

13-year-old Lazar Milic comes from Caglavica and stands out as an excellent student of the „Miladin Mitic“ Elementary School. Right at the beginning of the conversation, he tells us that English is his favorite subject and that one day he plans to be either a translator or a teacher of this language.

We learn that after elementary school he plans to enroll in Gymnasium, and his long-term goal is the faculty of English. Although he is also good at mathematics, Lazar singles out languages as his true passion. He also tells us that he stands out from other peers due to his special fashion style, as well as that he expresses his creativity through fashion, which is also a specific part of his personality.

We learn about Lazar that he is one of the most active, both in class and in free activities. He is a student who freely and without fear expresses his dilemmas and asks constructive questions that build on the topic covered in class. When he is in class, he does not remain silent but asks or expresses his opinion, initiates a discussion in which he is always constructive. His teachers told us that even though he is only 13 years old, Lazar approaches the material logically, and that he is a student who has learned to think, and not just acquire factual knowledge and reproduce it. This boy already rejects the classical approach to learning and emphasizes the importance of logic in the educational process. "I try to fulfill my life, not to just sit at home and get bored," says Lazar, emphasizing his desire for constant learning.

In his free time, Lazar relaxes in Gracanica, where he enjoys cinema and movies. In addition, social networks are his favorite way to keep in touch with friends who live in distant places. We heard from him that he likes to watch horror movies, science fiction, and also likes music, especially foreign rap.

Understanding the past through the eyes of teenagers

We learn from Lazar that he is fascinated by history and that he likes to research the events that shaped the world. He believes that understanding

the past enables a better understanding of the present and shaping the future. "History is not just a series of dates and facts, but a story about people, their decisions and the consequences that resulted from those decisions," he adds. "I love history, I am inspired by historical events. One day we will be a part of history too, that's why we should always remember everything. History is very important," says Lazar, while his eyes shine with excitement.

He spends a lot of time reading books about historical events, researching online sources and discussing with his friends the significance of past eras. He sees himself as a keeper of memory and believes that it is important to pass on historical knowledge to younger generations.

Innovation and motivation – the keys to Lazar's success

This 13-year-old has a lot of ambitious plans, and at the end of the conversation he tells his peers to be original, not to give up on their dreams and to work hard because hard work will always pay off. "I want to fulfill my goals, but above all it is important for me to be a good person and to believe in myself. Also one of my goals is to finish my education. I tell everyone to follow their dreams and follow the path they set for themselves. Fulfill that path and goal, because we all have the strength for it. Don't let other people influence your opinion and future".

We believe that our interlocutor will justify all expectations and fulfill his wishes, and that this story about Lazar will encourage future schoolchildren to study and achieve all their goals.

MLADE GENERACIJE: *BUDUĆNOST KOSOVA*

Okrugli sto pod nazivom "Mlade Generacije: Budućnost Kosova" održan je sredinom novembra, u kampu "Villaggio Italia" u Belom Polju blizu Peći. Na poziv komandanta KFOR-ove Regionalne Komande Zapad, pukovnika Gabriela Vake (Gabriele Vacca), gradonačelnici, članovi organizacija civilnog društva, savetnici i predstavnici manjinskih zajednica iz 15 opština zapadnog Kosova okupili su se kako bi razgovarali o mladima kao ključnom resursu za budućnost Kosova. Centralna tema okruglog stola bila je emigracija, široko prisutna realnost na Kosovu koja uglavnom pogađa mlade generacije koje ne vide svetlu budućnost na Kosovu.

Pukovnik Vacca: Mladi su temelj budućnosti

Nakon što je pozdravio sve goste, pukovnik Gabriele Vacca, komandant Regionalne Komande Zapad, objasnio je da je cilj ovog okruglog stola da razgovaraju o razlozima zbog kojih sve više mladih izražava želju da emigrira u druge zemlje. "Neki od vas su ocenili da su bolji uslovi života i rada, veće plate, često pod uticajem „lažnih mitova“ koje šire društvene mreže i dijaspora, neki od razloga zbog kojih mladi žele da emigriraju", izjavio je pukovnik Vacca. Dodao je da, iako je glavni cilj KFOR-a na Kosovu održavanje sigurnog i bezbednog okruženja, mi takođe podržavamo razvoj održivog, demokratskog, multietničkog i mirnog Kosova. "Zato smo se okupili danas kako bismo otkrili naše zajedničke probleme, pronašli uspešna rešenja i različite strategije. Pošto je ovo je prvi korak ka rešavanju ovog problema jer mladi su budućnost Kosova".

Ulaganje u obrazovanje donosi dugoročne dobitke

Italijanski ambasador u Prištini, dr. Antonello De Riu (Antonelo De Riu), započeo je svoju prezentaciju napominjući da u društvu poput Kosova, koje ima jednu od najmlađih populacija u Evropi, svaka strategija koja ima za cilj da promoviše i diverzifikuje svoj ekonomski razvoj mora da se fokusira na izgradnju ljudskog kapitala i osnaživanje budućih generacija, jer mladi su budućnost

svakog društva. Zato je Italija usmerila veći deo svojih napora i projekata na Kosovu na oblasti obrazovanja i mlade. Među istaknutim projektima su bili: 'Pedakos' - za predškolsko obrazovanje, 'HoReCa' - obuka za gastronomiju i ugostiteljstvo za srednje škole i 'Digitalne veštine za sve', pružanje obuke digitalnih veština za 200 mladih ljudi iz različitih etničkih zajednica Kosova. Kako je ambasador De Riu rekao,

obrazovani i vešti mladi ljudi mogu da podstaknu preduzetništvo i inovacije, što na kraju dovodi do ekonomskog rasta i prosperiteta.

Bolje planiranje za potrebe tržišta rada

Dr. Alma Shehu-Lokaj, prorektorica za nastavu, studentske poslove i naučno istraživanje na Univerzitetu Haxhi Zeka (Hadži Zeka) u Peći, naglasila je važnost planiranja kako bi se zadovoljile potrebe tržišta rada na Kosovu kvalifikovanim mladim stručnjacima. U tu svrhu zalagala se za saradnju između vladinih institucija, akademske zajednice i privrede. Gradonačelnik Suve Reke, gospodin Bali Muharremaj (Bali Muharemaj), složio se s procenom Shehu-Lokaj i dodao da je došlo do kašnjenja u planiranju za potrebe Kosova. Stoga je pozvao na pomeranje fokusa prema ključnim područjima za kosovsko tržište rada. Prema njemu, ova kašnjenja su razlog zašto se trenutno suočavamo sa situacijom kada previše mladih ljudi studira pravo ili ekonomiju, ali nam nedostaju ljudi u drugim vitalnim oblastima, posebno u privatnom sektoru. S tim u vezi, većina predstavnika opština se složila da se atraktivnost privatnog sektora delovanja među mladima poveća kroz podršku razvoju stručnih programa škola i pomogne preduzetnicima da razviju mala i srednja preduzeća, koja mogu

da obezbede bolje uslove rada, plate ili adekvatno zdravstveno osiguranje.

Usmeravanje pažnje dece ka kulturi i vaspitanju

Milan Anđelković, direktor Osnovne škole u Goraždevcu, istakao je važnost da se zajednice posvete zdravom vaspitanju dece. Naglasio je potrebu za konstruktivnim dijalogom između institucija, univerziteta, škola, lokalnih preduzeća i međunarodnih organizacija kako bi se odgovorilo na potrebe mladih ljudi i pomoglo im se da oni odluče da ostanu u Kosovu, i da se ohrabre da postanu produktivni akteri društva.

Ključna uloga obrazovanja

Učesnici okruglog stola su na kraju, između ostalih ključnih uvida, zajednički potvrdili da se obrazovanje ističe kao najvitalnija investicija za budući prosperitet i razvoj Kosova. Međutim, ulaganje u obrazovanje mora biti praćeno odgovarajućim planiranjem kako bi potrebe tržišta rada bile usklađene s profilima studiranja i programima stručnog osposobljavanja koji se nude mladima.

Značaj obrazovanja
"Obrazovani ljudi su bolje opremljeni da smisljeno učestvuju u građanskom životu. Obrazovanje promovise društvenu jednakost i mobilnost, omogućavajući pojedincima iz svih sredina da ostvare svoj puni potencijal bez obzira na svoje poreklo ili okolnosti, što vodi ka pravednijem društvu"
– Antonello De Riu, italijanski ambasador na Kosovu.

YOUNG GENERATIONS: FUTURE OF KOSOVO

In mid-November, at the "Villaggio Italia" camp in Belo Polje near Pec, a round table titled "Youth Generations: The Future of Kosovo" was held. Invited by the commander of KFOR's regional command west, Colonel Gabriele Vacca, mayors, members of civil society organizations, advisors, and representatives of minority communities from 15 municipalities in western Kosovo gathered to discuss youth as an essential resource for Kosovo's future. The central theme of the round table was emigration, a widespread reality in Kosovo, primarily affecting young generations who do not see a bright future in Kosovo.

Colonel Vacca: 'Youth, the foundation for the future'

After welcoming all the guests, Colonel Gabriele Vacca, commander of the Regional Command West, explained that the purpose of this round table was to discuss the reasons why more and more young people are expressing their desire to emigrate to other countries. "Some of you have assessed that better living and working conditions, higher salaries, often influenced by 'false myths' amplified by social media and the diaspora, are some of the reasons why the young want to emigrate," Commander Vacca stated. He went on stressing that although KFOR's main goal in Kosovo is to maintain a safe and secure environment, it also encourages the development of a sustainable, democratic, multiethnic, and peaceful Kosovo. "This is why we have gathered here today to identify our joint problems, to find successful solutions and various strategies. As this is the first step towards addressing this issue because the youth are the future of Kosovo."

Investing in education yields long-term gains

Italian Ambassador in Pristina, Dr. Antonello De Riu, started his presentation by remarking that in a society like Kosovo, that has one of the youngest populations in Europe, any strategy that aims to promote and diversify its economic development must focus on building the human capital and empowering future generations, because the youth are the future of any society. Which is why Italy has focused the majority of its assistance efforts and projects in Kosovo towards education and youth. Among the highlighted projects were: 'Pedakos' - for preschool education, 'HoReCa' - gastronomy and hospitality training for high schools, and 'Digital Skills for All', providing digital skills training to 200 Kosovo youngsters from diverse ethnic backgrounds. According to Ambassador De Riu, educated and skilled youth can drive entrepreneurship and innovation, ultimately leading to economic growth and prosperity.

Better planning for labor market needs

Dr. Alma Shehu Lokaj, vice-rector for teaching, student affairs and scientific research at Haxhi Zeka University in Peja/Pec, emphasized the importance of planning to meet the labor market's needs in Kosovo with qualified young professionals. To this purpose she advocated for collaboration among governmental institutions, academia, and industry. The Mayor of Suhareka/Suva Reka, Mr. Bali Muharremaj,

concurred with Shehu Lokaj's assessment and added that there have been delays in planning for Kosovo's requirements. Therefore, he called for a shift in focus towards the essential fields for Kosovo's job market. According to him these delays are the reason why we are currently facing a situation when too many young people study law or economy, but we lack people in other vital fields, especially in the private sector. In respect of that, most of the municipality representatives agreed that the attractiveness of private sector can be enhanced among youngsters by supporting the development of vocational programs schools and help the entrepreneurs to develop small and medium enterprises able to provide better working conditions, salaries or adequate health insurances.

Directing children's attention to culture and upbringing

Milan Anđelković, director of the Elementary School in Gorazhdevc/Gorazdevac, emphasized the importance of communities dedicating themselves to the healthy upbringing of children. He highlighted the need for constructive dialogue between institutions, universities, schools, local businesses, and international organizations to address the needs and expectations of young people, helping them decide to stay in Kosovo by encouraging them to become active actors within the society.

The paramount role of education

In the end, the participants of the round table, among other key insights, collectively affirmed that education stands out as the most vital investment for Kosovo's future prosperity and development. However, investment in education must be accompanied with appropriate planning so that the needs of the labor market are compatible with the studying profiles and vocational training courses that are offered to young people.

Importance of education

"Educated people are better equipped to participate meaningfully in civic life. Education promotes social equality and mobility, enabling individuals from all backgrounds to realize their full potential regardless of their origin or circumstances, leading to a fairer society." – Antonello De Riu, Italian Ambassador in Kosovo.

Fanki zidovi od balona i kaskade na plafonu

Ko ne voli balone? Oni su univerzalni simbol za „proslavu“, a opcije su beskrajne! Napravite zid od balona u različitim bojama i oblicima na kojima piše "2024". Pustite ih kaskadno sa plafona ili čak napravite plafon od balona za blistav, razigran efekat!

Lažno krzno, šljokice i konfete

"PIRIT FEST" U MITROVICI

OŽIVLJAVANJE ROKENROL SCENE I PODRŠKA LOKALNIM TALENTIMA

Mitrovica, dugogodišnje uporište rok muzike i domaćih uspešnih muzičara, poznata je i po svojim festivalima. Poslednjeg vikenda u novembru, u prostorijama Mitrovica Rock škole, nekada poznatog CYRM-a, održan je Pirit Fest. Ovaj festival ističe se promocijom lokalnih autorskih bendova i raznolikošću žanrova. Tokom dva festivalska dana, publika je imala priliku da uživa u nastupima deset bendova, od kojih su pet bili lokalni, dok su drugih pet dolazili iz Beograda, Knjaževca, Novog Sada, Raške i Niša. Lokalni bendovi poput "Fabrika za ljubav", "Škart", "Hosenfefer", "Psychosonic Boris&Hosenfefer" i "Omnibusi" delili su scenu sa gostujućim bendovima poput "Zhiva", "Jesus Rashiid?!", "Protektori", "School bus" i "DE SAD?".

Ideja za festival

„Ideja za ovaj festival, koji objedinjuje rok, pank i pop muziku, postoji već nekoliko godina“, otkriva nam na početku razgovora za 4You Magazin, Savica Milović, jedna od ukupno jedanaest organizatora. Nedostatak

ideja festivala. Lokalni bendovi su odabrani prvi, a potom su kontaktirani gostujućim bendovima koji su većinom bili prijatelji lokalnih izvođača. Raznovrsnost žanrova bila je fokus, obezbeđujući prisustvo panka, rocka i popa na sceni.

kulturnih događaja i nedostatak platformi za lokalne bendove motivisali su ih da pretoče ovu ideju u stvarnost. Samostalno su finansirali festival, ali su se kasnije pridružili LTL (Linking Through Lenses) izazovu organizovanom od strane Nove društvene inicijative (NSI), dobivši podršku za realizaciju festivala.

Promocija lokalnih bendova

Želja da se promovišu lokalni i autorski bendovi, umesto kaver bendova, bila je ključna

Pirit - Ime festivala

Ime "Pirit Fest" nije slučajno odabrano. Savica objašnjava da su želeli nešto specifično za Mitrovicu i odlučili su se za crni pirit, koji se nalazi uz delove grada. Ovim imenom želeli su da iznenade i da ga unikatno povežu sa gradom.

Šta ovaj festival znači za grad kao što je Mitrovica?

Savica ističe da Pirit Fest ima značajan uticaj na muzičku scenu Mitrovice,

privlačeći i mlade ljude koji možda nisu imali priliku do sada da uživaju u ovakvim događajima.

Organizatori se nadaju da će festival postati tradicija, planirajući čak i letnji deo festivala koji bi uključivao druge oblasti umetnosti poput poezije, slikarstva i glume.

Budućnost festivala
Organizatori se nadaju širokoj podršci zajednice i žele da Pirit Fest postane tradicionalan događaj. Kroz podršku lokalnih partnera, poput LTL izazova, Mitrovica Rock School Cluba, palačinkarnice "Žimi ti", PKC "Akvarijusa", Rio hotela, Grunf roštilja i Cuba caffe-a, festival nije samo muzički događaj, već i inicijativa koja se bavi potrebama zajednice, promoviše inkluzivnost i rodnu ravnopravnost.

"PIRIT FEST" IN MITROVICA

REVIVING ROCK AND ROLL SCENE AND SUPPORTING LOCAL TALENTS

Mitrovica, a long-standing stronghold of rock music and local successful musicians, is also known for its festivals. On the last weekend in November, Pirit Fest was held in the premises of the Mitrovica Rock School, formerly known as CYRM. This festival stands out for the promotion of local songwriting bands and the diversity of genres.

During the two days of the festival, the audience had the opportunity to enjoy the performances of ten bands, of which five were local, while the other five came from Belgrade, Knjaževac, Novi Sad, Raška and Niš. Local bands, including "Fabrika za ljubav," "Škart," Hosenfefer," "Psychosonic Boris&Hosenfefer" and "Omnibus" shared the stage with guest bands including "Zhiva," "Jesus Rashiid!?", "Protectors," "School bus" and "WHAT NOW?".

The idea behind the festival

"The idea for this festival, which unites rock, punk and pop music, has been around for several years," Savica Milović, one of a total of eleven organizers, revealed to us at the beginning of her interview with the 4You Magazine. The lack of cultural events and the lack of platforms for local bands motivated them to turn this idea into reality. They financed the festival themselves, but later joined the LTL (Linking through Lenses) challenge organized by the New Social Initiative (NSI), thus receiving support for the execution of the festival.

Promotion of local bands

The desire to promote local and songwriting bands, rather than cover bands, was the key idea behind the festival. Local bands were selected first, and then visiting bands were contacted, most of whom were friends of the local performers. The focus was on genre diversity, ensuring that punk, rock and pop are on the stage.

Pirit - Name of the festival

The name "Pirit Fest" was not chosen by chance. Savica explains that they wanted something specific to Mitrovica and they decided on black pyrite, which can be found on the outskirts of some parts of

the town. With this name, they wanted to create surprise and connect it with the town in a unique way.

What does this festival mean for a city like Mitrovica?

Savica points out that Pirit Fest has a significant impact on the music scene of the city of Mitrovica, attracting young people who may not have had the opportunity to enjoy such events so far. The organizers hope that the festival will become a tradition, even planning a summer edition of the festival that would include other areas of art such as poetry, painting and acting.

Future of the festival

The organizers hope for widespread community support and want the Pirit Fest to become a traditional event. Through the support of local partners, including LTL challenge, Mitrovica Rock School Club, "Žimi ti" pancake house, PKC "Akvarius," Rio Hotel, Grunf Grill and Cuba café, the festival is not only a musical event, but also an initiative that addresses the needs of the community, promotes inclusivity and gender equality.

UMETNOST KAO MOST

Početak oktobra, na četvrtom spratu Grand hotela, u Barabar centru u Prištini, otvorena je izložba "Pevam telo električno, armije onih koje volim", na kojoj je preko 20 mladih umetnika iz različitih etničkih zajednica na Kosovu predstavilo svoje radove.

Izložba - značajan događaj za mlade umetnike na Kosovu

Stotine posetilaca su na otvaranju ove izložbe, imali priliku da pogledaju slike, fotografije i skulpture ovih mladih i perspektivnih umetnika. Ova izložba predstavlja značajan događaj za mlade umetnike na Kosovu. Naime ovi umetnici okupili su se pod okriljem projekta "ArtSphere", koji im je omogućio da svoje kreativne radove pokažu široj publici. Sam projekat "ArtSphere" proizilazi iz spoznaje izazova sa kojima se mladi umetnici na Kosovu suočavaju.

CASA: Katalizatori pozitivnih društvenih promena

Cilj ovog projekta je prevazilaženje barijera i stvaranje ekosistema koji podržava umetnike, osnažujući ih da budu katalizatori pozitivnih društvenih promena, navode iz nevladine organizacije Centar za afirmativne društvene akcije - CASA, koji su ujedno i jedan od organizatora ovog događaja. Naziv izložbe "Pevam telo električno, armije onih koje volim" inspirisan je delom Volta Vitmena, pesnika koji slavi ljudski oblik. "Izložba nas izaziva da vidimo telo ne samo kao biološku tvorevinu, već kao platno

koje nosi kulturu, oslobođenje, ljubav i konflikt", dodaju iz ove mitrovičke organizacije civilnog društva.

"ArtSphere" neguje međukulturalni dijalog i akademsku razmenu

Kustos ove izložbe, Vesa Sahatčiu (Sahatčiu) opisala je ovu inicijativu kao svetionik nade za mlade umetnike na Kosovu, pružajući im platformu da zablistaju, jer "ArtSphere" istovremeno neguje međukulturalni dijalog i akademsku razmenu.

Jedna od učesnica ove izložbe je Tina Suljejmami (Sulejmami). Ona je sa nama

podelila impresije sa izložbe. Kaže da se polazeći od celog koncepta izložbe, osećala dobro što je deo nje. "Bila je to dobra prilika da učim i od drugih umetnika. Takođe i da podelim svoje misli sa njima", iskrena je Tina. Kaže i da je zahvalna na tome što je kustos, odabrala jednu od njenih omiljenih slika, da prikaže na ovoj izložbi. "Definitivno se etički i vizuelno izdvajala od ostalih. Biti 'outsajder' u smislu onoga što izražavam i slikam onako kako ja želim, ali ja se nisam osećala kao 'outsajder', već kao deo celine",

ističe ova mlada umetnica. Dodaje da je energija kombinovanja različitih mentaliteta i kultura dobrodošla i da doprinosi umetničkoj sceni.

Sa druge strane, za Milana D., mladog umetnika, koji je nedavno diplomirao na Fakultetu umetnosti u severnom delu Mitrovice, ova izložba bila je jedinstvena prilika da svoje radove po prvi put prikaže u Prištini.

"Učestvovanje na izložbi 'Pevam telo električno, armije onih koje volim' u Barabar Centru, bilo je vredno iskustvo. Ova izložba bila je jedinstvena prilika da svoje radove podelim sa širom publikom", kazao nam je Milan. Dodaje i to, da ga raduje što je deo ovog projekta, te da se nada da će ova izložba inspirisati i druge mlade umetnike da se

izraze i budu nosioci pozitivnih promena u društvu.

Negovanje lokalnih umetnika, stvaranje mreža i povezivanje mostova

Ova izložba okupila je preko 20 talentovanih mladih umetnika iz različitih etničkih zajednica na Kosovu, koji su posvećeni istraživanju kulturnog značaja ljudskog tela. Realizaciju ove izložbe omogućili su NVO Integra, CASA i Barabar centar, uz podršku Švajcarske kancelarije za saradnju na Kosovu i Fonda braće Rokfeler. Naime, Integra, Centar za afirmativne društvene akcije - CASA i Barabar centar, saradivali su na ovoj izložbi sa dvostrukim ciljem, to je najpre negovanja lokalnih umetnika, stvaranja mreža i povezivanja mostova, a uz jačanje svesti javnosti i uvažavanja kulturne raznolikosti Kosova.

Izložba je bila otvorena od 4. oktobra do 31. oktobra 2023. godine u Barabar centru – jedinstvenom centru koji vodi tim uz podršku UNMIK-a – dizajniran kao fizički prostor gde ljudi različitih nacionalnosti i različite zajednice, mogu da se sastaju, druže, raspravljaju o temama koje ih zanimaju i uče jedni od drugih.

ART AS A BRIDGE

In early October, on the fourth floor of the Grand Hotel, an exhibition titled "I Sing the Body Electric, the Armies of Those I Love" was opened at the Barabar Center in Pristina. Over 20 young artists from diverse ethnic communities in Kosovo showcased their works at this exhibition.

The exhibition - a momentous occasion for young artists in Kosovo

Its opening ceremony drew hundreds of visitors who had the opportunity to view paintings, photographs, and sculptures by these young and promising artists. This exhibition constitutes an important event for young artists in Kosovo. The artists gathered under the umbrella of the "ArtSphere" project, enabling them to display their creative works to a wider audience. The "ArtSphere" project is a response to the challenges faced by young artists in Kosovo.

CASA: a catalyst for positive social changes

The aim of the said project is to transcend barriers and create an ecosystem that supports artists, empowering them to act as catalysts for positive social change, as stated by the Center for Affirmative Social Action (CASA), one of the event's organizers. The exhibition's title, "I Sing the Body Electric, the Armies of Those I Love," is inspired by the work of Walt Whitman, a poet celebrating the human form. The display prompts us to perceive the body not merely as a biological entity but as a canvas bearing culture, liberation, love, and conflict, according to the civil society organization based in Mitrovica.

"ArtSphere" nurtures intercultural dialogue and academic exchange

Vesa Sahatçiu, the curator of this exhibition, described this initiative as: "A beacon of hope for young artists in Kosovo, providing them with a platform to shine. 'ArtSphere' nurtures intercultural dialogue and academic exchange, fostering an environment for artistic expression and mutual learning."

Tina Sulejmani, a participant in the exhibition, shared her impressions. She expressed that the entire concept of the exhibition made her feel good to be part of it. "It was a great opportunity to learn from other artists and share my thoughts with them," Tina said. She expressed gratitude for having one of her favorite paintings selected by the curator to be displayed at the exhibition. "It definitely stood out ethically and visually from the rest. Being

an 'outsider' in terms of what I express and paint how I want, yet I didn't feel like an 'outsider,' but rather a part of the whole," emphasized the young artist. She added that the energy of combining different mentalities and cultures is welcome and contributes to the art scene.

On the other hand, for Milan D., a young artist who recently graduated from the Faculty of Arts in the northern part of Mitrovica, this exhibition was a unique opportunity to showcase his work in Pristina for the first time. "Participating in the exhibition 'I Sing the Body Electric, the Armies of Those I Love' at the Barabar Center was a valuable experience. This exhibition provided a unique opportunity to share my work with a wider audience," Milan said. He expressed his delight in being part of this project and hopes that the exhibition will inspire other young artists to express themselves and become agents of positive change in society.

Nurturing local artists, creating networks and building bridges

The exhibition brought together over twenty talented young artists from different ethnic communities in Kosovo, dedicated to exploring the cultural significance of the human body. The realization of this exhibition was made possible by Integra, CASA, and Barabar Center, with the support of the Swiss Office for Cooperation in Kosovo and the Rockefeller Brothers Fund. Integra, the Center for Affirmative Social Action - CASA, and the Barabar Center collaborated on this exhibition with a dual goal: nurturing local artists, creating networks, building bridges, and raising public awareness and appreciation for Kosovo's cultural diversity.

The exhibition was open from October 4th to October 31st, 2023, at the Barabar Center, a unique space led by a team with the support of UNMIK, designed as a physical environment where people of different nationalities and communities can gather, socialize, discuss topics of interest, and learn from each other.

NEW YEAR'S EVE TRADITIONS AROUND THE WORLD

The coming of a new year often means the bringing about of good luck and fortune. But take a look at our list below of some of the world's most weird and wonderful New Year's Eve traditions.

Eating 12 grapes at midnight, Spain

In Spain, it is believed that if you eat one grape in time with each chime of the clock at midnight, then you will be rewarded with luck and happiness in the coming year. This tradition originated back in 1909, when there was a huge grape harvest in the country during the festive season, and the King chose to give the surplus of produce to the people to consume on New Year's Eve.

Carrying empty suitcases, Colombia

In a hope for a year filled with travel and adventure, it is a tradition for Colombian residents to walk around the block on New Year's Eve with an empty suitcase.

Smashing plates and jumping off chairs, Denmark

It is customary for residents of Denmark to celebrate New Year's Eve by throwing old plates and glasses against the doors of their family and friends to banish bad spirits. They also collectively stand on chairs and jump off them at midnight to 'leap' into January in hopes of good luck.

Interpreting metal shapes, Finland

In Finland, it is believed that people are able to predict the coming year by casting molten tin into a container of water, and then interpreting the shape the metal takes after it hardens. According to the tradition, a heart or a ring means a wedding, while the shape of a ship predicts travel. It is also believed that if you see the shape of a pig then you will have a year filled with plenty of food.

Burning effigies, Panama

It is tradition for people in Panama to drive off evil spirits by burning effigies (muñecos) of well-known people such as TV characters and political figures in Panama. The effigies are meant to represent the old year, therefore allowing people to start with a fresh New Year's start.

Throwing out the old, South Africa

Traditionally, on New Year's Day, Estonians try to eat seven, nine or twelve times throughout the day, as these are all lucky numbers. It is believed that the more they eat, the more plentiful food will be coming in the year.

KAKO DA NAPRAVITE UKRAS OD DRVENIH ŠTAPIĆA ZA NOVOGODIŠNJU JELKU?

Decembar je...Čaroliju praznične atmosfere možemo videti i osetiti svuda oko nas. U mnogim domovima širom sveta, ukrašavanje novogodišnje jelke postalo je tradicija. Pa se samim tim i ukrasi za novogodišnju jelku prave, kako bi se ulepšala i napravila praznična atmosfera.

Ukrasi od papira, drveta, vune, oni od recikliranih materijala su samo neki od ukrasa koje možete napraviti sami kod kuće. Zaista, postoje razne kreativne ideje koje možete isprobati ili ih prilagodite vašem ličnom stilu, kako biste stvorili jedinstvene ukrase za jelku. Ovakvi, ručno pravljene ukrasi često dodaju poseban dodir prazničnom dekoru. U nastavku teksta pročitajte kako da napravite jedan takav ukras za novogodišnju jelku od drvenih štapića.

Potreban materijal:

- Drveni štapići (2 regularne veličine i 5 manjih štapića)
- Lepak za drvo
- Boja za drvo
- Boje
- Konopac od pamuka
- Lepak u stiku
- Ukrasi po želji (mi smo ovde koristili nekoliko zvečki, veštačko belo drveće i konopac od pamuka)

Postupak izrade

1 Najpre je potrebno da zalepите 4 manja drvena štapića zajedno, tako što ćete krajnje štapiće pomeriti sa svake strane malo niže. Najlakši način da nanese lepak je taj da najpre izlijete malo lepka na tanjir, a zatim koristeći čačalicu nanese lepak duž ivica. Potom ostavite da se osuši.

2 Potom obojite manje drvene štapiće u boju po želji. Mi smo se ovde odlučili za crvenu. Ostavite da se osuši. Sada obojite one obične drvene štapiće. Sada zalepите obojene drvene štapiće na manje štapiće, kao što je prikazano na slici. Samo da vas podsetimo, mnogo je lakše naneti lepak ukoliko koristite čačalicu. Ostalo vam je još da zalepите poprečnu šipku na prednju stranu sanki.

3 Dodajte željene ukrase. Mi smo ovde koristili nekoliko grančica veštačkog i belog drveća, koje smo obavili konopcem od pamuka, a zatim na njih nanizali nekoliko malih zvečki. Konac smo vezali oko poprečne šipke na sankama. Ukoliko želite vi možete da ukasite sanke na drugi način, možete napisati svoje ime ili godinu, ili pak dodati i sliku. Čak sam videla neke koji dodaju fotografiju na sanku.

4 Na kraju, isecite običan konac, dužina koja vama odgovara i pričvrstite ga na donju stranu poprečne šipke pomoću lepka u stiku.

Ove male sanke izgledaju slatko okačene na jelku, ali ako koristite malo mašte, mogu se koristiti i na mnogo drugih načina. A tako lako i jednostavno mogu da se naprave.

HOW TO MAKE A CHRISTMAS TREE DECORATION FROM POPSICLES?

It is December... We can see and feel the magic of the festive atmosphere all around us. In many homes around the world, decorating the Christmas tree is a tradition. Therefore, decorations for the New Year tree are also made, in order to beautify and make the atmosphere during the holiday season.

Decorations made of paper, wood, wool, but also those made of recycled materials are just some of the decorations you can make yourself at home. Indeed, there are a variety of creative ideas that you can try or adapt to your own personal style to create unique Christmas decorations. These handmade decorations often add a special touch to the holiday decor. Below, read how to make a decoration sled for the New Year's tree from popsicles.

Necessary material

- popsicle {craft} sticks (2 regular sized and 5 small per sled)
- wood glue
- wood stain
- paint
- twine
- glue dots
- embellishments if desired (I used a couple of jingle bells, some faux flocked greenery, and baker's twine)

The making process

1 First it is necessary to glue 4 of the small craft sticks together staggering the end stick on each side slightly lower. I found the easiest way to apply the glue for this project was to squirt some glue out onto a paper plate and then use a large toothpick or skewer to apply the glue along the edges. Allow to dry.

2 Then paint the smaller popsicles in the color of your choice. We chose red here. Leave to dry. Now paint those plain popsicles. Now glue the colored popsicles to the smaller popsicles as shown in the picture. Just to remind you, it is much easier to apply the glue if you use a toothpick. All that's left is to glue the cross bar to the front of the sled.

3 Add whatever embellishments you would like. I took a few little sprigs of faux greenery, wrapped them in baker's twine, and then threaded on a couple of small jingle bells. I then just tied the baker's twine around the cross bar. If you want you can decorate the sled by writing your name and year on it. I've even seen some that add a photo to the sled.

4 In the end cut some regular twine to your desired length and attach to the underside of the cross bar using glue dots.

This little sled looks cute hanging from the Christmas tree, but if you use a little imagination, it can be used in many other ways. And they can be made so easily and simply.

DŽUD BELINGEM

VELIKI USPEH TINEJDŽERSKE SENZACIJE U REAL MADRIDU

U uzbudljivom svetu fudbala, mlada zvezda je bila na naslovnim stranama, a njegovo ime je Džud Belingem. Sa samo 20 godina, ovaj engleski vezista je već ostavio neizbrisiv trag u fudbalskom pejzažu. Belingemov put od Birmingema do Borusije Dortmund, a sada i do legendarnog belog dresa Real Madrida, nije ništa drugo do spektakularan.

Rani sjaj: zvezda u usponu u Birmingem Sitiju

Belingemova fudbalska odiseja počela je u omladinskoj akademiji Birmingem Sitija kada je imao samo osam godina. Mladi genije brzo je napredovao, privukao je pažnju svih kada je debitovao u seniorskoj kategoriji kada je imao samo 16 godina i 38 dana. Najmlađi igrač prvog tima Birmingem Sitija, Belingem je pokazao svoj talenat, postigavši ključne golove i postao svetionik nade za klub. U znak zahvalnosti za ono što je Belingem postigao za tako kratko vreme sa prvim timom, klub je najavio da će povući njegov dres sa brojem 22, „da se sećamo jednog našeg i inspirišemo druge.“

Avantura Borusija Dortmund: Tinejdžer u centru pažnje Bundeslige

Sledeće poglavlje Belingemovog puta odvijalo se u nemačkoj Bundesligi sa Borusijom Dortmund koja je poznata po negovanju i razvoju mladih talenata. Pridruživši se nemačkim gigantima 2020. godine, postao je trenutna senzacija, obarajući rekorde i osvajajući priznanja. Njegovi nastupi u sezoni 2022-23 doneli su mu nagradu za igrača sezone u Bundesligi, ostavljajući trajno nasleđe u žuto-crnom dresu Dortmunda.

Kopa Trofej i Real Madrid San: Kruna u Belingemovoj karijeri

Godine 2023., Belingemova snaga na terenu bila je globalno priznata pošto je osvojio prestižni trofej Kopa, čast koja se dodeljuje najboljem fudbaleru mlađem od 21 godine. Pre nego što je osvojio ovaj trofej, san je postao stvarnost kada je Real Madrid obezbedio njegove usluge za neverovatnih 103 miliona evra, što bi potencijalno mog-

lo da se poveća na oko 133,9 miliona evra zbog dodatka, što može iznositi do 30% fiksnog iznosa transfera. Govoreći o tome zašto je prešao u Real Madrid, Belingem je napomenuo da je "poštovanje koje Engleska ima prema Real Madridu toliko veliko", te da želi da bude jedan od igrača koji će doprineti njegovoj "velikoj istoriji". On je takođe priznao da mu je "srce skoro stalo" kada mu je rečeno da španski klub želi da potpiše ugovor. Štaviše, po dolasku u

Real Madrid dobio je dres sa brojem „5“, koji je učinio besmrtnim niko drugi do moderna legenda Real Madrida Zinedin Zidan. U vezi sa tim, Belingem je izjavio da sa velikim ponosom nosi ovaj dres jer je odrastao gledajući Zidana koji je bio njegov idol.

Debi u Real Madridu: golovi u izobilju i istorijska dostignuća

Belingemov dolazak u Real Madrid bio je ništa drugo do senzacionalan. Od

postizanja golova u predsezonskom debiju do postizanja ključnih golova u La Ligi i Ligi šampiona, on je prigrlio legendarnu belu majicu sa stilom. Igrač odluke, Bellingemov uticaj se osetio širom sveta fudbala.

Međunarodna slava: Engleski mladi maestro

Dok su njegovi klupski nastupi spektakl, Bellingem je ostavio neizbrisiv trag i na međunarodnoj sceni. Od svog debija za seniorsku reprezentaciju Engleske sa 17 godina i 136 dana do postizanja ključnih golova na Svetskom prvenstvu 2022., on oličava budućnost engleskog fudbala.

Stil i sadržaj: Potpuni vezni igrač

Poznat po svojoj izuzetnoj kontroli lopte, fizičkoj veštini i tehničkoj finoći, Bellingem je stekao reputaciju jednog od najboljih mladih veznih igrača na svetu. Njegova proslava gola, podignute glave, ispruženih ruku i ispruženih grudiju, postala je simbol njegovog samopouzdanja i dominacije na terenu.

***U fudbalskom pe-
jzažu gde je mladost
srce igre, Džud Be-
lingam stoji visoko,
pokazujući ne samo
veštinu već i otpor-
nost i odlučnost.
Dok nastavlja da
urezuje svoje ime
u anale fudbalske
istorije, jedno je jas-
no - Džud Bellingem
je ime za koje ćemo
navijati u godinama
koje dolaze.***

Early brilliance: A rising star at Birmingham City

Bellingham's football odyssey began at Birmingham City's youth academy when he was just eight years old. The young prodigy quickly rose through the ranks, catching everyone's attention when he made his senior debut at a mere 16 years and 38 days. Birmingham City's youngest-ever first-team player, Bellingham showcased his talent, scoring crucial goals and becoming a beacon of hope for the club. In appreciation of what Bellingham achieved in such a short time with the first team, the club announced that they would retire his number 22 shirt, "to remember one of our own and to inspire others."

Borussia Dortmund adventure: A teenager in the Bundesliga spotlight

The next chapter of Bellingham's journey unfolded in the German Bundesliga with Borussia Dortmund renown for nurturing and development of young talents. Joining the German giants in 2020, he became an instant sensation, breaking records and earning accolades. His performances in the 2022-23 season earned him the Bundesliga Player of the Season award, leaving a lasting legacy in Dortmund's yellow and black jersey.

Kopa Trophy and Real Madrid dream: The crown jewel in Bellingham's career

In 2023, Bellingham's prowess on the pitch was globally recognized as he clinched the prestigious Kopa Trophy, an honor bestowed upon the best-performing male footballer under 21. Prior to winning this trophy, a dream became reality when Real Madrid secured his services for a staggering €103 million which could potentially increase to approximately €133.9 million due to add-ons, which can amount to 30% of the fixed transfer amount. Speaking of why he joined Real Madrid, Bellingham mentioned that the "respect that England has for Real Madrid is so high", and that he wanted to be one of the players that would add to its "great history". He also admitted that his "heart was close to stopping" when he was told that the Spanish club wished to sign him.

Moreover, upon arriving at Real Madrid he was given the number "5" jersey, which was made immortal by none other than Real Madrid modern legend Zinedine Zidane. In relation to this, Bellingham has stated that it is with great pride he wears this jersey as he grew up watching Zidane as he was his idol.

As he continues to etch his name in the annals of football history, one thing is clear - Jude Bellingham is a name we'll be cheering for years to come.

DA LI JE 'BEREAL' PRAVA STVAR?

Zavirite u svet autentičnosti

U ogromnom ekosistemu aplikacija društvenih medija, popularnost nove aplikacije kod tinejdžera širom sveta raste. Za sve one koji 'još uvek' nisu upoznati sa ovom aplikacijom, kratak opis bi bio da ova nova aplikacija za društvene medije uzima malo od svih najpopularnijih društvenih medija uključujući, ali ne ograničavajući se na Facebook, Instagram, Snapchat, itd. Štaviše, u isto vreme, ova aplikacija ima za cilj da izbegne mnoge probleme koje gore pomenute aplikacije imaju, kao što su korišćenje filtera za predstavljanje lažnih fotografija, previše vremena provedenog na skrolovanju i tako dalje.

Budite pravi, budite Vi!

Kao što je već pomenuto, BeReal nije vaša tipična aplikacija; to je tvoja bektejdž propusnica u stvarni život! Jedan nefiltriran, neuređen snimak vašeg dnevnog ritma snimljenog istovremeno sa prednje i zadnje kamere vašeg telefona koji se deli u roku od malog dvominutnog prozora. Bez fasada, bez filtera, samo život, sirov i realan. Zvuči cool, zar ne?

Hajde da pritisnemo taster za pauzu

Kao i sa bilo čim drugim što je povezano sa internetom, uprkos tome što želi da izbegne mnoge rizike koje bi korišćenje postojećih društvenih medija moglo doneti, BeReal takođe pati od određenih rizika. Stoga, u nastavku možete pročitati nešto više o tome koje su prednosti, i koji su nedostaci u vezi sa BeReal-om.

PREDNOSTI Preopterećenje autentičnosti

Nema filtera? To je naziv igre! To znači da ne morate da brinete o postovima sa savršenim slikama. BeReal slavi lepotu stvarnih trenutaka.

Povežite se i komunicirajte

RealMoji su dostupni za uspostavljanje jednostavne komunikacije. Koristite ove zabavne male ikone da reagujete na fotografije svojih prijatelja i uđete u neki cool razgovor, baš kao što radite na drugim platformama.

Brzi zalogaji zabave

Recite zbogom beskrajnom skrolovanju. BeReal je aplikacija protiv pomeranja; to znači da stvari budu krat-

ke, slatke i tako zabavne.

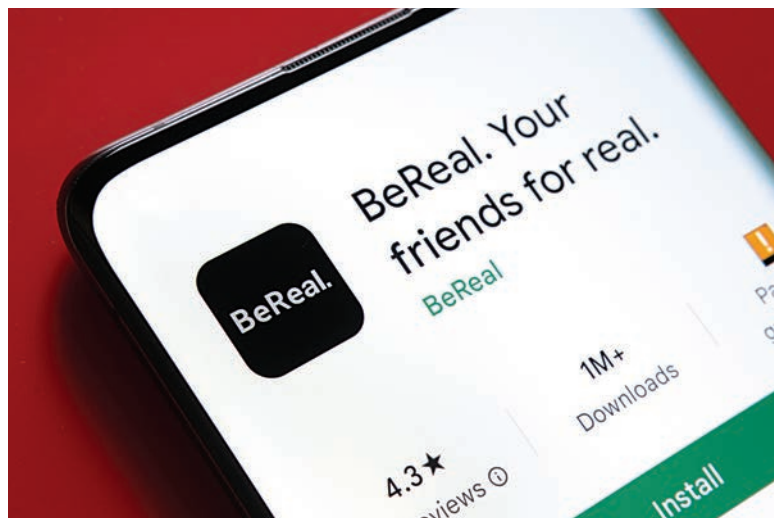

NEDOSTACI Rizičan posao

Sa slobodom dolazi i odgovornost. Imajte na umu da postoji realna šansa da neki postovi ne budu prikladni za sve. Zbog toga treba da budete stalno oprezni na takav sadržaj i da se trudite da ga blokirate ili potpuno

izbegnete. Ako ne znate kako, nemojte da oklevate i tražite pomoć od svoje porodice.

Lokacija, lokacija, lokacija

Vaša lokacija bi mogla biti javna! To je zato što je funkcija geolokacije podrazumevano omogućena. Shodno tome, to znači da bi mesta gde često provodite vreme mogla biti prikazana.

Nije kul ako stranci provire unutra. Dobra vest na ovom frontu je, međutim, da se ova funkcija može onemogućiti.

Ups! Propušten prozor

Ako propustite 2-minutni period, još uvek možete da objavite svoju fotografiju kasnije. Međutim, BeReal će poslati vašu objavljenju fotografiju vašim prijateljima uz obaveštenje da ste propustili navedeni prozor. To je kao „kasno“ zvono u školi, ali za fotografije. Ovo bi moglo da izvrši pritisak na vas kao korisnika da objavite svoju fotografiju u datom vremenskom okviru, što se može poklopiti sa drugim aktivnostima kao što su školski časovi, vaše vreme učenja, itd. Ako je to slučaj, ne bi trebalo da dajete prednost ovom vremenskom roku za objavljivanje jer bi vas to moglo dovesti u nevolje sa vašim nastavnicima i/ili roditeljima ili biste mogli nenamerno otkriti privatne informacije koje ne želite da delite sa drugima.

Koja je konačna reč?

Neobična, spontana atmosfera BeReal-a je kao dašak svežeg vazduha u univerzumu društvenih medija. To je kao dnevna doza iskrene stvarnosti koja je zabavna, ali kratka. BeReal može biti vaš novi najbolji prijatelj, ali kao i sve cool stvari u životu, dolazi sa znakom upozorenja. Dok hodate po užetu njegovih jedinstvenih karakteristika, zapamtite, da je to stvarno zabavno, ali i bezbednost je kul! Za sada uživajte u korišćenju BeReal-a uz malo pažnje. Snimajte, delite, ali budite oprezni!

Upamtite, BeReal (budite pravi), Budite Vi! 📸

IS 'BEREAL' THE REAL DEAL? A peek into the world of authenticity

In the vast ecosystem of social media apps, a new app has been growing in popularity with teenagers across the world. For all those that are 'still' unfamiliar with this app, a brief description would be that this new social media app takes a little bit from all of the most popular social media including but not limited to Facebook, Instagram, Snapchat, and so on. Moreover, at the same time, this app aims to avoid many problems related to the aforementioned apps such as the use of filters to present fake photos, too much time spent scrolling, and so on.

Be Real, Be You!

As already mentioned, BeReal isn't your typical app; it's your backstage pass to real life! One unfiltered, unedited snapshot of your daily groove taken simultaneously from the front and back camera of your phone that is shared within a tiny two-minute window. No facades, no filters, just life, raw and real. Sounds cool, right?

Let's hit the pause button

As with anything else that is Internet related, despite aiming to avoid many of the risks that the use of existing social media might bring, BeReal too suffers from certain risks. Therefore, below you can read a little bit more about what is positive and what is not so positive about BeReal.

POSITIVES

Authenticity overload

No filters? That's the name of the game! This means no worrying about picture-perfect posts. BeReal celebrates the beauty of real moments.

Connect and communicate

RealMojis are available to establish simple communication. Use these fun little icons to react to your buddies' photos and slide into some cool conversation, just like you do on other platforms.

Quick bites of fun

Say goodbye to endless scrolling. BeReal is an anti-scroll app; this means that it keeps things short, sweet, and so entertaining.

NEGATIVES

Risky business

With freedom comes responsibility. Be aware that there is a real chance for some posts not to be appropriate for everyone. Therefore, you should be constantly alert for such content and make efforts to block or avoid it completely. If you do not

know how, do not hesitate to ask for help from your family.

Location, location, location

Your location could be public! That is because the geo-location feature is enabled by default. Consequently, this means your hangout spots might be on display. Not cool if strangers peep in. The good news on this front, however, is that this feature can be disabled.

Oops! Missed the window

If you miss the 2-minute window, you can still post your photo at a later time. However, BeReal will push your posted photo to your friends with a notification that you have missed the said window. That's like a 'late' bell in school but for photos. This might put some pressure on you as a user to post your photo within the given time frame, which might coincide with other activities such as school classes, your studying time, etc. If that is the case, you should not prioritize this posting time window as it may land you in trouble with your teachers and/or parents or you might unintentionally reveal private information you do not want to share with others.

What's the final take?

BeReal's quirky, spontaneous vibe is like a breath of fresh air in the social media universe. It's like a daily dose of candid reality that's fun yet brief. BeReal can be your new BFF, but like all cool things in life, it comes with a caution sign. As you walk the tightrope of its unique features, remember, keeping it real is fun, but safety's cool too! For now, enjoy the BeReal ride with a sprinkle of mindfulness. Snap, share, but be aware!

Remember, BeReal, BeYou! 📸

KRETANJE KROZ DIGITALNO DOBA

VAŽNOST PROVERE INFORMACIJA

Važnost pronalaska društvenih medija je jednostavno zapanjujuća. Ove platforme su omogućile ljudima da stvore globalne mreže saradnje, ponovo uspostave veze sa prijateljima iz detinjstva ili udaljenim članovima porodice, zarađuju ozbiljan novac, brzo se informišu o događajima i vestima iz celog sveta, a lista i dalje raste.

'Prokletstvo' društvenih medija

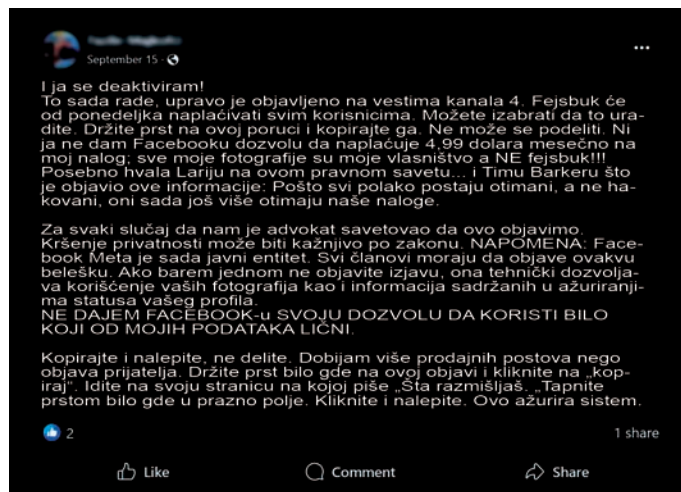

Sve prednosti, međutim, dolaze sa određenom 'cenom' ili, bolje rečeno, 'rizikom'. Rizik da informacije kojima pristupamo ne budu potvrđene, te da shodno tome mogu biti pogrešne, pristrasne ili, u najgorem slučaju, direktno zlonamerno namenjene širenju lažnih vesti i nepotrebne panike.

Za razliku od doba u kom su odrastali naši roditelji, a čiji su izvor informacija bili različiti mediji koji su informisali javnost u skladu sa setom pravila koja su bila na snazi da bi se obezbedila istinitost, tačnost i integritet njihovih vesti, sada je u našim sopstvenim rukama da se uverimo da su vesti koje čitamo istinite i tačne. Još više ako odlučimo da pomenutu vest podelimo sa rođacima ili prijateljima. Jer ako to ne učinimo, olakšavamo širenje **DEZINFORMACIJA**.

Lekcija iz objava na Fejsbuku

Da bismo vam pružili bolje razumevanje ovog problema, podelićemo sa vama nedavno iskustvo sa objavom na Fejsbuku koju je većina vas već videla i koja na sreću nije imala nikakve ozbiljne posledice osim činjenice da je nametnula verovanje u teorije zavere i da je ciljala na zabrinutost javnosti o privatnosti i bezbednosti na mreži. Govorimo o postu koji je postao prilično viralan 2019. i nedavno se ponovo pojavio. Iako je opšta ideja ista, obnovljeni post sadrži sledeći tekst:

„To je ono što sada rade, upravo je objavljeno na vestima na kanalu 4. Fejsbuk će od ponedeljka naplaćivati usluge svim korisnicima. Možete izabrati da to uradite. Dodirnite i držite ovu poruku i kopirajte je. Ne može se deliti. Ni ja ne

dam Fejsbuku dozvolu da naplati 4,99 dolara za korišćenje vremenske linije; sve moje fotografije su moje vlasništvo a NE Fejsbuka!!! Posebno hvala Lariju na ovom pravnom savetu... i Timu Barkeru na objavljivanju informacija: Zato što se od svih lako otima, od njih se otima, a ne hakuje, naši naloz i sada još više otimaju. Samo zato što nam je advokat savetovao da ovo objavimo. Kršenje privatnosti može biti kažnjivo po zakonu. NAPOMENA: Facebook Meta je sada javni entitet. Svi članovi treba da objave ovakvu napomenu. Ako je ne objavite, ta tehnika omogućava da fotografije budu vidljive, kao i informacije koje se ne nalaze u statusu vašeg profila.

NE DAJEM FACEBOOK-u SVOJU DOZVOLU DA KORISTI BILO KOJI OD MOJIH LIČNIH PODATAKA.

Odgovornost provere

Počnimo sa direktnim navođenjem očiglednog da je ovaj post već 2019. godine razotkriven kao lažan od strane raznih poznatih novinskih kuća i organizacija za proveru činjenica kao što su BBC News, Snopes (poznata veb lokacija za proveru činjenica), ili čak od strane samog Fejsbuka. Svi su došli do istog zaključka da objavljivanje ove poruke nema uticaj na podešavanje privatnosti korisnika i ne menja uslove korišćenja usluge platforme, uslove koje svaki korisnik prihvata (bez čitanja) prilikom kreiranja Fejsbuk naloga.

Takođe možete sami malo istražiti ovu temu. Tekst za 2023. sadrži tri imena vesti Kanala

4, advokata Larija i Tima Barkera. Ovo posljednje je ime korisnika koji je postavio ovu poruku. Lari je nepoznati advokat, bez prezimena, stručne oblasti ili kompanije za koju radi, drugim rečima, bez akreditiva, a treći je „Kanal 4“, poznata britanska televizijska informativna emisija koju proizvodi ITN. Ako pretražite arhivu ovog kanala o pravnom obaveštenju Fejsbuka, dobićete nula rezultata.

Prihvatanje naše odgovornosti

Podelili smo ovo iskustvo sa vama kao tipičan primer kako sama priroda društvenih medija pomaže u održavanju dezinformacija. Mnogi korisnici Fejsbuka ponovo padaju na ovu dezinformaciju i naširoko dele poruku, verujući da time čuvaju svoju privatnost. Treba napomenuti da u ovom slučaju nemamo direktnu štetu ili nasilje, osim možda protiv Fejsbuk imidža.

Dakle, zapamtite da uvek PRO-VERITE svoje informacije pre nego što pomognete u širenju istih, a takođe i da pomognete u razotkrivanju svih netačnih ili lažnih informacija. To je najbolji način da doprinesete borbi protiv dezinformacija!

NAVIGATING THE DIGITAL AGE

THE IMPORTANCE OF INFORMATION VERIFICATION

The importance of the invention of social media is simply mind-boggling. These platforms have enabled people to create global networks of cooperation, reestablish connections with childhood friends or distant family members, earn serious money, get fast information about events and news from all over the world, and the list keeps growing.

The 'Curse' of social media

All the benefits, however, come with a certain 'price' or, better said, 'risk!' The risk that the information we access is not confirmed, and consequently might be wrong, biased, or in the worst-case scenario straightforwardly maliciously intended to spread false news and unnecessary panic.

In comparison to our parents' time, whose source of information were various media outlets that informed the public in line with a set of rules that were in place to ensure the veracity, accuracy, and integrity of their news, it is now in our own hands to make sure that the news we read is true and accurate. Even more so if we decide to share the said news with our relatives or friends. Because if we do not do that, we facilitate the spreading of **DISINFORMATION**.

A lesson from a Facebook post

To give you a better understanding of this issue, we will share with you a recent experience with a Facebook post that most of you have already seen and which fortunately has not had any serious effects except the fact that it enforced beliefs of conspiracy theories and preyed on the public's concern about online privacy and safety. We are talking about the post that went quite viral in 2019 and has recently resurfaced again. Although the general idea is the same, the resurfaced post contains the following text: **"That's what they're doing now, it was just announced on channel 4 news. Facebook will charge all users from Monday. You can choose to do this. Touch and hold this message and copy it. It cannot be shared. I don't give Facebook permission to charge \$4.99 to the timeline, either; all my photos are my property and NOT Facebook!!! Special thanks to Larry for this legal tip... and Tim Barker for posting the info: Because everyone is being hijacked easily, they are being hijacked, not hacked, our accounts are being hijacked now even more. Just because a lawyer advised us to post this. Violation of privacy may be punishable by law. NOTE: Facebook Meta is now a public entity. All members should post a note like this. If you don't publish one, that technique allows photos to**

be visible, as well as information that isn't located in your profile status. I DO NOT GIVE FACEBOOK MY PERMISSION TO USE ANY OF MY PERSONAL DATA.

The responsibility of verification

Let us start by directly stating the obvious that already in 2019, this post was debunked as false by various renowned news outlets and fact-checking organizations such as BBC News, Snopes (a well-known fact-checking website), or even Facebook itself. They all came to the same conclusion that posting this message has no impact on the users' privacy settings and does not change the platform's terms of service, which every user accepts (without reading) upon creating a Facebook account.

You can also do a little research yourself on this matter. The 2023 text contains three names Channel 4 news, a lawyer Larry and Tim Barker. The latter is the name of a user that has posted this message. Larry is an unknown lawyer, no last name, field of expertise or company he works for, in other words no credentials at all, and the third is "Channel 4," a well-known British television news program produced by ITN. If you search the archive of this channel about the Facebook legal notification, you get zero results back.

Embracing our responsibility

We shared this experience with you as a typical example of how the nature of social media helps keep disinformation alive. Many Facebook users are falling again for this disinformation and sharing the message widely, believing they are safeguarding their privacy. It should be noted, that in this case we have no direct harm or violence, except maybe against Facebook image.

So, remember to always VERIFY your information before helping spread it. Also help in debunking any inaccurate or false information. That is the best way you can contribute to the fight against disinformation!

VAŠE MIŠLJENJE O FILMOVIMA O SUPERHEROJIMA?

PETAR STOJANOVIĆ

Koji je vaš omiljeni film o superherojima?

Moj omiljeni film o superherojima je Spajdermen. Jedan od glavnih razloga je taj što je nastao iz prirode, odnosno nakon ujeda pauka, on je postao superheroj.

Zašto su filmovi o superherojima važni?

Važni su jer nam pokazuju na koji način, superheroji koriste svoje supermoći. Konkretno kod Spajdermena, on uvek rešava neke realne probleme i svako od nas može da se poistoveti sa njim.

Kada biste mogli da birate - koju biste supermoć želeli da imate?

Ja bih voleo da mogu da letim. Kada bih imao tu supermoć onda bi mogao više mesta da posetim, da za kratko vreme budem na više različitih mesta.

What is your favorite superhero movie?

My favorite superhero movie is Spider-Man. One of the main reasons is that he emerged from nature, specifically after a spider bite, and he became a superhero.

Why are superhero movies important?

They are important because they show us how superheroes use their superpowers. Specifically, with Spider-Man, he always solves real problems, and each of us can relate to him.

If you could choose, what superpower would you like to have?

I would like to be able to fly. If I had that superpower, I could visit more places, be in different locations in a short time.

NIKOLINA KOSTIĆ

Koji je vaš omiljeni film o superherojima?

Iskreno, ja uopšte nisam neki ljubitelj filmova. Neka me gledanje filmova ne privlači. Ja uvek radije biram da u slobodno vreme pročitam neku dobru knjigu.

Zašto su filmovi o superherojima važni?

Ipak kada sam bila manja gledala sam filmove o superherojima. Moj omiljeni lik tada bio je Batman, jer mi je uvek delovao autentično, kao da on stvarno postoji.

Kada biste mogli da birate - koju biste supermoć želeli da imate?

Ja bih volela da imam supermoć da čitam ljudima misli. Volela bih da znam i vidim o čemu ljudi misle i razmišljaju, jer mislim da su ljudi neiskreni i da se kriju iza neke maske.

What is your favorite superhero movie?

Honestly, I am not a big fan of movies. Somehow, watching movies doesn't attract me. I always prefer to spend my free time reading a good book.

Why are superhero movies important?

Nevertheless, when I was younger, I watched superhero movies. My favorite character then was Batman because he always seemed authentic, as if he really existed.

If you could choose, what superpower would you like to have?

I would like to have the superpower to read people's minds. I would like to know and see what people think and contemplate because I think people are insincere and hide behind a mask.

Molimo vas šalžite vaša razmišljanja o filmovima o superherojima na email: magazineforyou2003@gmail.com

YOUR OPINION ABOUT SUPERHERO MOVIES?

LAZAR MILIĆ

Koji je vaš omiljeni film o superherojima?

Ja generalno volim da gledam filmove. Među omiljenima žanrovima su mi horor i naučna fanastika. Ne mogu da kažem da ne volim da gledam filmove o superherojima, ali mi nisu među omiljenima.

Zašto su filmovi o superherojima važni?

Prema mom mišljenju, važni su deci i mlađem uzrastu da im prikažu malo ulepšanu realnost. Prvenstvo da ih zabave ali i da izvuku neku pouku iz takvih filmova.

Kada biste mogli da birate - koju biste supermoć želeli da imate?

Mislim da bi to verovatno bila, moć da čitam tuđe misli ili nešto tome slično. Zato što kada razgovaram sa nekim, voleo bih da znam šta on misli o meni, a ne šta govori. Smatram da ljudi nisu iskreni jedni sa drugima.

What is your favorite superhero movie?

I generally like watching movies. Among my favorite genres are horror and science fiction. I can't say I dislike watching superhero movies, but they are not among my favourites.

Why are superhero movies important?

In my opinion, they are important for children and a younger audience to show them a slightly embellished reality. Primarily to entertain them but also to draw some lessons from such movies.

If you could choose, what superpower would you like to have?

I think it would probably be the power to read other people's thoughts or something similar. Because when I talk to someone, I would like to know what they think about me, not what they say. I believe people are not honest with each other.

DANILO AKSIĆ

Koji je vaš omiljeni film o superherojima?

Volim da gledam filmove, a moj omiljeni superheroj je Fleš. Sviđa mi se njegova neverovatna brzina, kao i sposobnost da prolazi kroz predmete.

Zašto su filmovi o superherojima važni?

Ja mislim da svi vole ove filmove, nije bitan uzrast, oni su prilagođeni svima i deci i odraslima. Takođe, superheroji su hrabri, odgovorni, uvek spremni da pomognu i dobri su prijatelji.

Kada biste mogli da birate - koju biste supermoć želeli da imate?

Ja bih voleo da mogu da letim, da posedujem tu supermoć. Kada bih mogao da letim, mogao bih da vidim sve ispod mene šta se dešava, da putujem i da istražujem svet.

What is your favorite superhero movie?

I like watching movies, and my favorite superhero is The Flash. I like his incredible speed and the ability to pass through objects.

Why are superhero movies important?

I think everyone loves these movies; age doesn't matter. They are adapted for everyone, both children and adults. Also, superheroes are brave, responsible, always ready to help, and good friends.

If you could choose, what superpower would you like to have?

I would like to be able to fly, to have that superpower. If I could fly, I could see everything below me, what's happening, travel, and explore the world.

NOVA GODINA, NOVI TI? ILI - OPET SVE PO STAROM?

Pre nego što nabrojimo najbolje novogodišnje odluke za tinejdžere, proći ćemo kroz nekoliko saveta koji će vam pomoći da zaista i ispunite svoje odluke, umesto da budete zagrejani nedelju ili dve, a onda nastavite da živite po starom. Ako ste ozbiljni u vezi sa novogodišnjim odlukama, pročitajte neke od saveta u nastavku teksta, a zatim pogledajte i našu listu odluka za tinejdžere.

Izaberite samo nekoliko odluka

Apsolutno nije cilj da ispunite svaku pojedinačnu odluku sa ove liste. Čak i ako izaberete samo jednu i držite se nje, utoliko više ćete napredovati do sledeće godine.

Kako da ostvarite svoje novogodišnje odluke?

Radite stvari za koje vam se čini da će vam odgovarati, a ostalo prilagodite vašoj ličnosti i tome kako vidite sebe i šta vam odgovara kada je u pitanju ostvarivanje ciljeva, pridržavanje plana, vođenje evidencije itd.

Učinite ih izvodljivim

Hajde da pogledamo jednu od najpopularnijih novogodišnjih odluka, samo za primer... Umesto „smršati“, neka tvoja odluka bude... „Ići ću u najmanje 3 duge šetnje svake nedelje i pobrnuti se da jedem doz-

voljen broj kalorija svakog dana.“

Ne radi to!

Čak i ako je avgust, oktobar ili ipak decembar... još uvek možeš da se trudiš da postigneš što je moguće više što se tiče tvoje odluke, a to je ipak bolje nego ništa. U redu je da ažurirate svoje novogodišnje odluke sredinom godine kako biste ih učinili malo lakšim, ili malo zahtevnijim, ili kako već vama odgovara.

Izaberite realistične odluke

Dobar način da razmotrite odluke je da o njima razmišljate kao o malom i doslednom napretku koji možete da postignete. Ne radi se o tome da date sve od sebe i birate super zahtevne odluke, jer ćete tako postići da imate više šanse da odustanete ranije. Polako, ali sigurno.

Evo naše liste novogodišnjih odluka za tinejdžere, nadamo se da ćete ovde naći neke dobre ideje.

Digitalni detoks - Isključite se sa društvenih medija na najmanje 24 sata svakog meseca ove godine

Novogodišnji digitalni detoks za tinejdžere u trajanju od 24 sata, to je 1 dan mesečno kada se u potpunosti uzdržavate od posećivanja društvenih mreža. Bilo da se radi o TikTok-u, IG-u, Snap-u, BeReal-u ili bilo kojim drugim nalogima na društvenim mrežama zbog kojih skrolujete na telefonu, da li mislite da možete da preživite bez njih 24 sata mesečno? Izaberite jedan dan svakog meseca, i to je to, i radite to tokom cele godine i ispunićete ovu odluku.

NEW YEAR, NEW YOU? OR WILL IT BE - THE SAME OLD AGAIN?

Čitajte više - Pročitajte barem 12 knjiga ove godine

Više čitanja je popularna novogodišnja odluka za tinejdžere. U mesecima kada ne čitate toliko, možete izabrati kraće knjige. Ako želite da čitate mnogo, izaberite dužu knjigu. I ne morate da se pridržavate ovoga svakog meseca.

Naučite nove reči - Radite na proširenju vašeg vokabulara učenjem novih reči

Sa ovim budite pažljivi, jer nije cilj da naučite gomilu nejasnih reči tako da vas niko ne razume i da delujete uobraženo. Cilj je da naučite nove reči koje ćete upotrebiti kao savršeno rešenje da izrazite ono što želite. Poenta je u upotrebljivosti, a ne u tome da se razmećete kitnjastim jezikom.

Smanjite unos brze hrane - Izbacite određene nezdrave namirnice iz ishrane

Postoje neke zdravije namirnice koje možete jesti umesto njih ili čak i zdravije verzije hrane u kojoj uživajte, tako da i to vredi uzeti u obzir. Ne morate potpuno da eliminišete svu svoju omiljenu hranu ako volite da jedete takve stvari, ali važna je umerenost.

Provodite više vremena sa porodicom - Odvojite više vremena da se povežete sa najbližima

To ne mora da bude neko veliko putovanje ili veliki događaj, već jednostavno možete izabrati seriju koju svi volite i da je gledate zajedno jednom nedeljno sa svojim mlađim bratom ili sestrom, ili to može biti obimna večera sa vašom voljenom bakom, ili već sa nekim u skladu sa situacijom u vašoj porodici.

Before we list the best New Year's resolutions for teens, we're going to go over some tips that will help you actually achieve your resolutions, instead of just getting you hyped up for a week or two and then going back to life as usual. If you're serious about keeping your New Year's resolutions, take a look at some of the tips below, and then continue on to see the list of resolutions for teens.

Pick and choose a few

The goal here is absolutely not for you to do every single resolution on this list. Even if you pick one and stick to it, you'll be that much further ahead by the next year.

How to keep Your New Year's resolutions?

Do the stuff that sounds like it'll work for you and adapt the rest to fit your personality and how you know yourself and what works for you when it comes to keeping your goals, staying on track, keeping track of things, and so on.

Make them actionable

Let's use one of the most popular New Year's resolutions, just for this example... Instead of "lose weight", make your resolution... "I will go for at least 3 long walks each week, and ensure that I'm eating the correct number of calories each day."

Don't do that!

Even if it's August, October, or heck - December... you can still aim to do as much of your resolution as possible, and it's still better than nothing. It's OKAY to update your New Year's resolutions mid-way through the year to make them a bit easier, or a bit more challenging, or whatever you need.

Choose realistic resolutions

A good way to look at resolutions is to think of them as small and consistent improvements you can make. It's not about going all-out and picking super challenging ones, cos that will make you so much more likely to fizzle out early. Slow and steady wins the race.

Here's our New Year's resolution list for teenagers, hopefully, you'll find some good ideas here.

Digital detox - Unplug from social media for at least 24 hours each month this year

New Year's digital detox for teens 24 hours, that's 1 day per month where you completely abstain from checking your social media. Whether it's TikTok, IG, Snap, BeReal, or whatever other social media accounts keep you scrolling on your phone, do you think you can live without them for 24 hours per month? Pick one day each month, that's it, and do this for the entire year, and you'll have accomplished this resolution.

Read more - Read at least 12 books this year

Reading more is a popular New Year's resolution for teens. In months when you won't be reading as much, you could choose shorter books. If you feel like reading a lot, pick a longer book. And it doesn't have to be done on a month-to-month basis, either.

Learn new words - Work to expand vocabulary by learning new words

Be careful, the goal here isn't to learn a bunch of obscure words so that nobody can understand you and you seem pretentious. The goal here is to learn new words that you can fit perfectly in when they're the best word to say what you need to say. It's about utility, not just showing off flowery language.

Reduce junk food intake - Cut certain junk food out of my life

There are some healthier foods that you can eat instead or even healthier versions of the foods you enjoy, so that's worth taking into consideration, too. You don't have to completely eliminate all of your favourite foods if you love eating these types of things, but moderation is important.

Increase family time - Make more time to get close to family

It doesn't have to be some grand vacation or huge event, it could just be picking a show you both enjoy and watching it together once a week with your younger sibling, or king dinner together with your dear grandma, or whatever your family situation might look like.
